## LAWRENCE RUPP DELIVERS FORCEFUL ADDRESS TO STUDENTS

### Discusses "Principals of Democratic Party" At Thursday's General Assembly

Mr. Lawrence Rupp, a graduate of Muhlenberg and a man well known in the Lehigh County courts, addressed the general assembly of the College on "The Principals of the Democratic Party" last Thursday, October 11. Mr. Rupp delivered a very forceful address which was part of the plan of the school to have various topics of interest discussed at each weekly chapel service. Senator Schantz will give the views of the Republican party on October 24th.

Lawyer's Rupp's address, rendered in a most effective manner, was made up chiefly of the present political situation as far as the Democrats are concerned and received the popular approval of the students.

"The average mass of voters", Mr. Rupp asserted, "are not conscientious". On the other hand he said in part, "The American people are to be congratulated on the selection of two candidates that are noted for their character and their abilities".

He pointed out how the best candidates must be selected through the great National conventions and how the man selected must possess great character and personality.

"Al Smith," in accordance with Mr. Rupp's estimation, "is a popular man with a remarkable record". He then traced his executive ability since he has been in the fore of American life. His argument on this phase of the question was to prove that Smith is very fit for the Executive position of the United States and he did it in a very convincing manner.

In regard to Tammany Hall, Mr. Rupp pointed out that the Republican party has many political machines and more notorious than the Tammany organization. "Tammany Hall is a social organization, Lawyer Rupp said, "and aids more poor and needy

(Continued on Page Two)

### A. T. O. CLOSE RUSH SEASON WITH DANCE

#### Successful Affair Given At Local Chapter House

The rushing season of the Alpha Tau Omega fraternity came to its climax Wednesday evening, October tenth, at a dance that was given at the chapter house.

Freshman began arriving at half past eight, and when at nine, Art Mickley's Fantasy Seven struck into the jazz for which they are famous, a goodly crowd was present. Attractive programs which told salient facts of the fraternity were distributed, and no one had difficulty in filling them.

The music was "hot" the atmosphere congenial, and before long everyone was "whooping" it up in a manner that gave the orchestra lots of competition.

At eleven o'clock intermission was called and the dancers served with ice cream and cakes. Also we must not forget the punch bowl which was very much in evidence the whole evening. In fact, it was so popular that it kept a couple of the chapter freshmen busy filling it from the inroads of the thirsty dancers.

When everyone had eaten all the ice cream and cake they wanted, the music started up again and dancing was resumed till half past twelve. Then the affair broke up with everyone feeling pleased and happy, new friends made, and, a looking forward to the "next time". The chaperones for the evening were Prof. and Mrs. Albert C. H. Fasig, Mr. and Mrs. Guerney F. Afflerbach, Dr. and Mrs. Robert C. Horn, and Mr. and Mrs. Oscar F. Bernheim.

Oct. 27—Trenton Normal School, at Trenton.
Nov. 3—Lehigh, at Bethlehem.
Nov. 10—Gettysburg, at Allentown.

## SOPHS CRUSH FROSH IN THRILLING FIGHT

### Third Of Traditional Contests Proves Real Battle

Once again the Sophomores trampled all over the lowly Freshmen, emerging victorious in two of the three rushes in the bag fight on Wednesday afternoon, October tenth. However, the frosh did not go under without showing lots of fight; while it lasted it was a real battle royal.

Each side had but sxiteen men out for the scrap, but that just made the whole affair more scrappy. At the drop of the handkerchief, each side rushed down upon the five stuffed bags in mid-field. The sophs got off to a flying start when Kistler and Mock beat their rivals to their sack and carried it to their goal line before the frosh knew what it was all about. A second bag reached the sophomores goal line in the same manner and then began the real job of getting one of the remaining three bags, already piled up wtih scrapping sophs and frosh, down to the sophomores goal line. Piling on one bag while a few sophs held the other two bags in mid-field, the sophs concentrated all their forces upon that one and after a hard struggle in which one frosh was "laid out", they slowly dragged the bag over their line and the sophs had one of the required two rushes to their credit.

After a short rest period hostilities were resumed, but the first rush had taken most of the ginger out of the frosh and before long a bag lay over the sophs goal line. A little later a second bag was thrown over the line by a sophomore, but he, in his haste to get back in the fight, did not make sure that it was over the goal line and the frosh, thinking that it was not, "stole" the bag to their line. Referee Struble however ruled it out, claiming that the bag was over the soph line in the first place. The rest of the fight, though characterized by lots of pep and punch, was soon over and the third rush was not needed.

With the score now standing two to one in favor of the sophs in the interclass scraps, and only one more victory required, the second year men are pointing to the soph-frosh football game. But the yearlings claim they are far from beaten and will show the sophs who's who in the football game.

### MANAGERS AND THEIR ASSISTANTS ELECTED

#### Football, Baseball, Track, And Basketball Scrub Managers Receive Appointments

The managers and their assistants were elected for four of the sport activities at Muhlenberg at a meeting of the Managerial Board last Thursday morning.

Richard Miller was elected to manage the track team for the coming season.

Henry A. Wickstrom will be manager of baseball and his assistant will be William S. Kistler and Elmer F. Gauch.

Jesse H. Begel and Eugene H. Twining were elected as the assis-

(Continued on Page Four)

## MUHLENBERG TASTES DICKINSON DEFEAT

### Muhlenberg Outplays Opponents But Falls Prey To Break

Muhlenberg went down to defeat at the hands of Dickinson in one of the hardest lost games of the season last Saturday, by the score of 6-0. It was the first time in the history of the athletic relations of the two schools that a Dickinson football machine triumphed over a Cardinal and Grey aggregation.

Although the 'Bergmen were within scoring distance most of the time, they seemed to lack that final something that puts the pigskin on the positive side of the goal line. On straight football Dickinson could not carry the ball to anywhere near scoring distance, but Angle, the flashy quarterback caused quite a bit of excitement when he got loose on end runs a few times. Just like the Muhlenberg-Drexel game, when Redmond took the ball from the kickoff and ran the whole distance for a touchdown, so Angle returned a punt for 85 yards. But Angle's feat was a much harder pill for the Muhlenberg warriors to swallow than that of Redmond's.

Most of the game was played in Dickinson's territory and the fact that 'Berg outplayed their opponents is shown by the fact that Muhlenberg acquired twelve first downs to three for Dickinson. However, that does not help the final scoring.

Muhlenberg played a great game on the defensive. Dickinson was not able to gain any ground through the Muhlenberg line. Most of her gains were made on end runs which she executed rather admirably. Muhlenberg, on the other hand, with the

(Continued on Page Three.

## EXTENSION SCHOOL UNDER FULL SWAY

### Courses Suitable To Teachers And Students Desiring Extra Credits

The Extension School of Muhlenberg is again under full sway. Classes were begun last week in the various cities and towns where classes of sufficient students could be obtained. However, the largest group of extra work seekers is that which convenes in the different class rooms of the College Administration building each Saturday morning.

Most of the courses are of special interest to teachers to aid them in getting College degrees and also to keep them well versed in the latest methods of teaching. But the department is broading out and courses are now given to help everyone seeking to broaden and develop themselves.

One of the latest courses and most popular is that given by Professor Simpson on Tuesday evenings from seven to eight o'clock. It is a course on, "Modern Fiction". All the latest books that have been written are read and discussed. The methods of the authors are discussed and compared with previous works. Not only American but also English writers are read.

Two other courses that are given on Tuesday evening are, "The Content and Method of the Social Studies in the Junior High School", and "The Content and Method of Teaching English in the Junior High School". These courses are given by Mr. C. F. Seidel, Supervisor of Junior High Schools in Allentown.

Many of the regular students at Muhlenberg also enroll in these classes. Conditions may be removed in this way. Two semester hours credit are given for the work.

### TRAYLOR SCENE OF PHILOS CLUB RUSHING DANCE

#### Local Group Makes Next To Last Affair Of Season A Bright One

Last evening the Philos Club was the host at a rushing dance given at the Hotel Traylor. This event and the one this evening given by the Phi Kappa Tau fraternity brings to a close the fraternity rushing season that began on September 27th. Since then each group has been given two evenings for formal rushing affairs.

The dance last evening was a colorful affair. The dance floor was decorated with the banners of the Philos club and of Muhlenberg. The music was furnished by the Tutankhamen Egyptians.

The chaperones were Dr. and Mrs. Isaac Miles Wright and Professor and Mrs. A. C. Fasig, both of Muhlenberg faculty. The committee that arranged the dance were James J. But-

(Continued on Page Three)

### THETA UPSILON OMEGA RUSH AT TRAYLOR

#### Local Chapter Host To Many New Men At Successful Dance

On Thursday night, October 11th, the boys of Theta U. were hosts to about forty-five new men and their lady friends at a "rushing dance" given at the Hotel Traylor Roof Garden.

To say that everybody enjoyed themselves is putting it mildly; in all probability, it was the most successful "rushing" dance ever put on by the organization.

Art Mickley and his Fantasy Seven dance orchestra furnished the music for the sixty-five couples that filled the floor with swirling color.

During intermission Elmer "Boo-Boo" Hoffman, a futuristic jazz artist, pianist of the "Cardinals" Muhlenberg's well-known orchestra, gave his interpretation of "Yes Sir, She's My Baby", and "Black Bottom".

(Continued on Page Two)

### PAN-HELLENIC HOLDS IMPORTANT MEETING

It was decided at an important meeting of the Pan-Hellenic Council last Thursday, that this year the fraternity or non-fraternal group whose members average the highest scholastic standing, will be presented with a silver loving cup.

The monthly notations, attitude in general towards studies, and the marks made in the mid-year examinations, will all be taken into consideration when the faculty compiles the marks for the first semester. The final average of each individual will be arranged under the group with which he is affiliated, and the result will be presented to the Council. The group attaining the highest average will be awarded the trophy shortly after the mid-year examination.

A few other affairs of minor importance were discussed, after which, the meeting was adjourned.

### EXCHANGE

#### Faculty vs. Stunedts

The faculty and students of St. John's of Annapolis disagreed when the former gave Governor Alfred E. Smith a majority and the latter went for Herbert Hoover in a straw vote on the Presidential candidates held a short while ago. The students favored Hoover 72 to 60. Smith polled 14 votes to Hoover's 6 among the faculty. One member of the faculty marked his ballot for "the Prohibition candidate," and two students, both seniors, voted for Norman Thomas, the Socialist standard bearer.

An interesting result of the poll was a contradiction to those who have been saying that the campaign might as well stop as everyone's mind is made up. No less than 126 students did not cast a ballot, saying that they would not make up their minds until they had heard the speeches that Governor Smith will make in the East.

## THETA UPSILON OMEGA TO BUILD NEW CHAPTER HOUSE NEAR CAMPUS

### Home To Be Located On 23rd Street, And Completed Before 1929

Theta Upsilon Omega will be comfortably established in a new and permanent home before the opening of college in 1929. Construction is shortly to begin on the new building to assure its readiness to accommodate the resident members of T. U. O. from the very beginning of the next scholastic year.

The growth and development of the group has, for the past two years, been outstanding in the fraternity circles at Muhlenberg. The erection of the chapter house is but a part of this development program and the furtherance of the purposes of Theta U. at Muhlenberg, namely; the encouragement of Pan-Hellenic understanding and the maintenance of high, national fraternity ideals at Muhlenberg College.

The new building is to be erected on Twenty-third Street facing the campus; a location of particular advantage because of its convenient proximity to the various college buildings. The structure, three and a half stories in height, is to be finished in tapestry brick and white stone trim. A number of unique features have been embodied in the plans with the purpose of making the house an ideal one for fraternity use. The upper floor is to be devoted to dormitory space, dressing rooms and lavatories, with many modern conveniences. Study rooms will occupy the entire second floor. On the main floor a sun parlor, reception hall and chapter room are arranged to afford an aggregate floor space of approximately one thousand square feet available for dancing. The plans also include a well equipped kitchen, dining room, and game rooms.

This is the first time in several years that a house has been built at Muhlenberg expressly for fraternity use. It is hoped that the building of the new home for T. U. O. will mark an important step in national fraternal activity at Muhlenberg.

## FROSH TIE BATTLE WITH URSINUS PLEBES

### Fumbles Cost Local Yearlings Chance Of Victory With Strong Rivals

Muhlenberg's Cardinal and Gray Freshmen football warriors traveled to Ursinus and fought a gridiron battle with the Ursinus Plebes to a scoreless tie last Saturday morning. Although the Muhlenberg representatives completely outplayed the Collegeville Yearlings they were not able to cross the goal for points.

Errors were entirely responsible for the loss of the game. Muhlenberg carried the ball to the five-yard line three times, but lost it each time through fumbles.

Majerick was the star offense man for the local team. Twice during the game he was able to rip off forty-yard runs only to be tackled by Ursinus backs. Mednick and Bartell also starred for Muhlenberg.

### CHRONICLE AND NEWS IS VISITED BY CLASS GROUP

#### Students Of Journalism Get First-Hand Information On How Paper Is Printed

A group of the class in Journalism got a practical idea of the subject they are studying when they visited the Chronicle and News plant last Tuesday. The class is taught and was accompanied on their tour of inspection by Professor Stephen G. Simpson.

Starting at the editorial offices, where the news of the world is collected and started on its way to the printed page, the group were extremely interested in the automatic printing machines that receive the news from three of the largest news agencies in the country.

The next stop was the advertising department where the process of laying out ads was explained. An interesting feature of this floor was the rear view of the "Playograph" on which the world's series were shown.

Descending to the first floor a close up view of the typesetting racks and the linotype machines gave an idea of the complex machinery that is working continuously to print the news. It was only a step from the linotype department to the composing room where all the material is assembled and set up in page forms.

Matrixes are made from these and from the matrix a plate is molded that is put on the large printing press. To see the large press in action, whirling at a tremendous rate, in which at one end the blank paper in rolls was being fed, and at the other end, the finished paper, folded and ready for delivery, was turned out, proved to be very impressive.

The men that went on the trip were John Hersker, Charles Shimer, Edward Kline, James Lansche, Karl Donecker, Charles Miers and Russell Dougherty. Another group from the Journalism class are planning to make a similar trip later.

### "REC" HALL IS POPULAR SPOT ON THE CAMPUS

#### Splendid Equipment And Homey Atmosphere Make It A Scene Of Constant Activity

One of the most popular places on the campus is the Recreation hall. The two large rooms that have been furnished for the use of the students are always a scene of activity. The spirit of fellowship that constantly pervades it makes it probably the most decorative spot in Allentown. There are no distinctions. Everyone is free and privileged to use all of the equipment in the hall.

The Recreation Hall was first opened in September, 1927, under the auspices of the Varsity "M" Club and the Muhlenberg Christian Association. The planning and the supervision of the work was done by Coach "Haps" Benfer. At the time it was opened there was only one room, one pool table and a few checker boards.

The Hall has become so popular that expansion was necessary. Today there are two spacious rooms. The equipment consists of two pool tables, numerous chess and checker boards, reading tables, many of the popular magazines and the local newspapers are always on file. A long writing desk was built and paper and envelopes supplied to encourage the student to remember those at home.

A fine electric radio has been installed that is almost constantly bringing in popular programs from the large stations of the country. Every effort has been made to make the Hall as homey as possible. Draperies have been hung at the windows and sports trophies and pictures adorn the walls.

# The Muhlenberg Weekly

### Let's Be College Men.

Men of consequence and influence, men of respect and judgment are continually visiting Muhlenberg to give us some message of social interest. We receive them with a warm reception of boos, jeers, razzes, and fully prove to them that we have the properties of maniacs or idiots.

Our Thursday general assemblies are the most pronounced and notably disgusting occasions for this exhibition of pure ignorance. Doctors, lawyers, professors, and numerous professional men of high intellect and sincere purpose come to Muhlenberg's general assemblies with a message for our benefit. Can we be courteous enough to listen to their message for a few minutes a week whether we agree with everything they say or not, or can we afford to send them away blasted with discourtesy and outward insults received at the hands of this group of supposed to be intellectual college men?

It is true that only a handful of the members of the student body is responsible for this disrespectful attitude. Is it right for the courteous members of the student body to allow a few ignoramuses to paint this black spot of incivility on the name of Fair Muhlenberg?

At last week's assembly a man spoke who holds Muhlenberg as his Alma Mater. He is one of the most ardent backers of the Cardinal and Gray and proves at every pep smoker to the student body that he has his heart and soul imbedded in the progress of Muhlenberg. He delivered a masterful speech but still a certain element of the student body razzed him and insulted him. Can we expect him to give Muhlenberg a very warm hand after such a reception? Can we build up the name of the Cardinal and Gray by such demonstrations?

If we are going to college for an education, let us show by our actions that we are acquiring something in the line of culture. Let us be respectful to men who speak to us during the year so that when they go to other institutions they can laud Muhlenberg College and Muhlenberg spirit to the skies.

### EDITOR'S SCRAP BOOK

Well, we saw another game. We went only to see what another conference team was doing, they did just enough to beat us, the first time Dickinson was ever able to do it!

The contest was interesting enough, but it was so sadly disappointing. We certainly had the makings of a better team.

Goodness knows what we're going to do the rest of the season. By comparison we hear Dickinson had about the weakest team we're likely to meet.

It's not good to be pessimistic, we know, but we've had almost more than we can comfortably stand. We can't yell any more, we can only grit our teeth.

But talk about spirit! There was a loyal little cheering section that went right along to Carlisle with precious little to cheer about. The student body certainly hasn't deserted yet.

Well, let's leave an unpleasant subject. We may go to Lancaster.

We'll bet the profs are glad this week has come. After Thursday there may be some studying done and plenty much there should be we know. But, we'll be glad when this rushings over too and the frosh more so, we expect.

That performance at assembly Thursday surely did us no good. We've preached before against such boerishness but we guess we'll have to begin again. Too bad we can't be gentlemen always.

By the way, let's think a bit more about the "why" of college. It may do us a lot of good.

## THETA UPSILON OMEGA PUSH AT TRAYLOR

(Continued from Page One)

One of the most conspicuous objects on the floor was the large, illuminated replica of the jewelled fraternity pin which drew forth much favorable comment from the newer men, and their lady friends.

Dr. Swain and Prof. Jackson of the Muhlenberg History department were chaperones for the evening Messrs. Bernhard, Zimmerman and Wertz formed the committee which made the dance the big success everyone acclaimed it to be.

Ritter: "Professor, I'm thinking of getting married."

Prof. Boyer: "Well, how long have you been married."

## DR. CORBIERE MADE WEEKLY SUPERVISOR

### Better Organization Is Stressed In Recent Meeting

Dr. Anthony Corbiere, head of the Department of French at Muhlenberg was recently appointed faculty advisor of the "Weekly". This position will be ably filled by Dr. Corbiere. He had three years experience in news paper work while attending the University of Washington. During part of this time he occupied the exchange editorship of the school's publication.

The members of the "Weekly" staff met with Dr. Corbiere and discussed ways and means by which to raise the standard and efficiency of all departments. Suggestions for handling copy, proof reading, head line writing were considered in order to make a certain man responsible for his work. Problems in the business staff as to advertising copy, circulation, etc. were approched from many angles.

As the effect of these changes are noticed it is hoped that a better publication will be presented. Ideas and criticism from students and the faculty will be appreciated so that the "Weekly" may keep step with the spirit of "Greater Muhlenberg".

## STUDENT FORUM

We college men certainly are upholding ancient and honorable tradition. What endless trouble we entail in following up the lead of some long forgotten college rowdy. Hazing has long since been eliminated at Muhlenberg—if you don't believe it, glance at page 19 of the freshman bible. And yet we still set aside Wednesday afternoon as a time for a general free for all brawl that would do credit to a bunch of corner loungers. A nice official opportunity for the sophomores to punish wayward and so-called "cocky" frosh. And an opportunity for the freshmen to maul some soph who doesn't please them.

But these fights are a big thing at Muhlenberg! The interest and enthusiasm that is shown should be encouraged—it is a vital factor in life at college. This demonstration of spirit is probably shown by the fact that of the all the freshmen class—a body of some 170 men, eighteen reported for the banner scrap—and sixteen for the bag fight. They were, no doubt intimidated by the sophomores who showed up in large numbers—at least twenty or twenty-five for each event.

Fellows, hasn't it been proven this year that there is no longer any interest in these weekly brawls? This disinterest doesn't show that college spirit is on the wane at Muhlenberg—it shows that most of the men can see through the veil of tradition that this aimless fighting is simply a means of stirring up hard feelings and taking a good slugging for no good reason at all.

Men, the sooner the student body of this school has the spunk to admit that they've been following the wrong track and take definite action to eliminate these fights, the sooner the old Muhlenberg spirit of good fellowship will come back strong and come back to stay.

—E. B.

This is what one man thinks about the situation. If you don't agree, you'll have a chance to come back at him. Tell the editor of Student Forum what's on your mind.

## LOCAL ORCHESTRA WILL PLAY AT Y. W.

The success of an Orchestra composed of Muhlenberg men, and which played at the Y. W. C. A. last year, is attested by the fact that they are again booked to fill engagements there for the coming year.

The dances will begin on the first Saturday in November and will continue throughout the winter. Last year many Muhlenberg students took advantage of this local college talent, and a regular Muhlenberg dance where cordial feeling existed, supplied clean recreation for many men.

This year the Orchestra under the leadership of "Sig" Blamberg expects to put on better programs than ever.

The personnel of the Orchestra besides the leader consists of James Drury, piano; Eddie Keenly, banjo; Carl Moyer, traps, and Grollman, saxophone.

## SPINAL COLUMN

**Atlas**

Koder: Quick, give the principle parts of the verb "swim".

Denton: Swim, swam, swum.

Koder: Good! Now give the principal parts of the verb "dim".

Quick: Aw, quit yer kidding.

**Axis**

Marriages may be made in heaven, but most of the preliminaries are arranged in autos.

**1st Cervical**

Mr. Jones: I hear that you have sent your son to college, Mr. Fraizer. What is he doing there?

Mr. Fraizer, Sr.: Ageing.

**2nd Cervical**

There once was a Scotchman so tight that every time he shaved he went out on a date to powder himself.

**3rd Cervical**

Snyder: I'm majoring in Greek. And you?

Fitting: Latin.

Snyder: Well, we'll have to get together and talk over old times.

**1st Thoracic**

Fluck: How can I keep my feet from falling asleep?

Richards: Don't let them turn in.

**2nd Thoracic**

Evans: The way to a man's heart is through his stomach.

Warm one. Yes, but when one has sex appeal why bother to make that detour?

**3rd Thoracic**

Poke: Do you think we can improve our faculty this year.

Wink: What do you mean?

Poke: It says here, in the Morning Call, that students attend colleges to improve their faculties.

**1st Lumbar**

Greenberg: What did you get on the quiz?

D. Loy: Zero, but that's nothing for me.

**2nd Lumbar**

Donecker: (drinking the 14th beer) "Well, here's looking at you, fellows."

McGinley: Yes, It might be for the last time.

**3rd Lumbar**

Spotts: Girlie, you certainly are fat.

Fair One: Well in the best of places they say one is stout.

Spotts: Well, in the best places you are fat.

**1st Sarcrum**

Drewes: I had a date with Helen last night.

Gernard: No foolin'?

Drewes: Oh, a little.

**2nd Sarcrum**

"Heaven will protect the working girl," the old song says, but what we want to know is who is going to protect the poor fish the working girl is working.

**3rd Sarcrum**

Empie: I hear your girl's a little mite.

Mattson: Might, nothing, I'm positive she won't.

## LAWRENCE RUPP DELIVERS FORCEFUL ADDRESS TO STUDENTS

(Continued from Page One)

people in the city of New York, regardless of religion, or nationality, than most people realize".

Touching in the issues of the present campaign, Mr. Rupp outlined the Democrats plan for each one. First he took up the prohibition argument and explained that Mr. Smith wou'd enforce the present law. The oath of office bound him to do so and he showed that the present candidate's sense of honor would force him to carry out the law. However, he explained that Mr. Smith is not in sympathy with the present conditions on the question and would do all possible to modify the law.

He discussed the religious question lastly and very forcefully showed how utterly ignorant it is of the sober-minded people to hold this against any man. He explained how Catholics and Protestants alike fought in the Revolutionary war for the freedom of this country and how they have fought side by side for the preservation of it ever since.

## NO CROSS-COUNTRY TEAM AT MUHLENBERG

### Interest In Other Sports Causes Lack Of Material

Muhlenberg will not have a Cross-Country track team this year. This conclusion was reached after Coach "Bill" Ritter was unable to secure enough material for a first rate team.

It is, perhaps, unfortunate that the Cardinal and Gray cannot put a running squad on the field this fall as it is always a benefit to the men to give them a quick start in the spring work. It is hoped that by the time spring comes on the scene there will be enough men anxious and willing to enter the track squad. Muhlenberg has been increasing the quality of its track and field teams during the past few years considerably.

The great interest in the national college sport is the main reason for the lack of interest at this time of the year. Some of the best men for track work are now very busy holding down berths on the football teams.

Fair Co-ed. at Agricultural School: "Is fertilizer used on strawberries?"

Prof: "Well, personally, I prefer sugar and cream."

**PLEASE RETURN THE SUPPORT OF OUR ADVERTISERS**

## THE ROUTINE OF PLEDGING DAY

Thursday, October 18th is the big day for new men at Muhlenberg. On this day many of the freshmen will make the decision that will wield a powerful influence on their future scholastic life. The long round of smokers, dances and parties is at last brought to a climax as each of the chosen men is handed that precious little envelope containing the long awaited good news.

The pledging will be in charge of a faculty committee of three members: Dr. Keller, Dr. Reichard and Mr. Koehler. Each fraternal group on the campus has drawn up a list of the men to be offered bids for membership. The faculty committee then posted a combined list of these men, with instructions to report in Sophronia Hall on Thursday afternon. After 4:15, no one but the chosen frosh and two representatives of each fraternity will be allowed above the second floor of the "Ad" building. At 4:30 each man will be handed a sealed envelope containing his bids which must be either accepted or rejected before he leaves the building.

The newly pledged men will then be the guests of their new brothers at receptions and dinners at the various fraternity houses.

Many freshmen will, no doubt, be much disappointed to find their names missing from the list. This, however, is no indication that they are not being considered for membership in the various groups. In the short time school is in progress before pledge day it is impossible for all the men to get acquainted about the campus and many men are pledged by fraternities throughout the year. It has often occurred in the past that the most outstanding men in the fraternal groups have not been pledged until their upper class years.

## PLANS BEING MADE FOR LEHIGH SMOKER

Plans are being made for a great smoker to be held in the auditorium the night before the big Lehigh game.

Lehigh must be beaten again this year. Her colors shall be trampled on by Muhlenberg for the fourth consecutive year.

What the committee in charge of the smoker wants, is the co-operation of every Muhlenberg student in coming out for the biggest and peppiest assembly ever held at Muhlenberg. Arrange ahead of time for that one night off, and we'll show our gridiron warriors that we're back of them with more real spirit than they believe exists in the college.

## MUHLENBERG TASTES DICKINSON DEFEAT

(Continued from Page One)

whole backfield alternating on carrying the ball was able to gain consistently.

Muhlenberg's forward pass worked better in last Saturday's game than in any game for a long time. Time and time again yards were gained via the air route.

**First Quarter**

Dickinson kicked off. Spotts got the kickoff on Muhlenberg's 25-yard line with no return. Greenberg took the ball for a first down on the first play. Borell made three yards through the line, after which Greenberg and Seifert each made four yards, for another first down. Hobermann was substituted for Mentzer. Seifert gained 3 yards and on the next play, Muhlenberg was penalized 5 yards for backfield in motion. Pascal made four yards around end and tried a pass but failed. Chapman punted to Angle and Spotts went down and tackled him on Dickinson's 3-yard line. Dickinson's ball. Shomach punted to Pascal on the fifty yard line who returned five yards. Muhlenberg's ball. Muhlenberg was held for downs and Dickinson got the ball on their own 35-yard line. Slivinske gained five yards around end. Cook fumbled and Muhlenberg got the ball. On the first play Muhlenberg fumbled and Cotsack recovered. Angle and Cook each tried the line for 3 yards. Angle punted to Muhlenberg's 30-yard line where the ball rolled out of bounds. Muhlenberg was again held for downs and Chapman punted to Dickinson's 20-yard line with no return. Dickinson's ball. Dickinson was penalized 15 yards for slugging. Henzes made a spectacular 25-yard end run, for a first down. Casner for Slevinske. Cook and Angle both hit the line thus gaining a first down. Two attempted passes were incompleted and Dickinson was penalized 5 yards after which Angle punted over Muhlenberg's goal line. It was Muhlenberg's ball on their 20-yard line when the quarter ended. Score: Muhlenberg, 0; Dickinson, 0.

**Second Quarter**

Chapman out of bounds on Dickinson's 28-yard line. Dickinson's ball. Angle punted to Muhlenberg's 45-yard line out of bounds. Muhlenberg gained 25 yards through the exchange of punts. Muhlenberg was held for downs during which McConnel was substituted for Henzes. Muhlenberg again gained 15 yards on exchange of punts. Again trying the line three Bergmen failed to gain a first down and Dickinson got the ball on their own 30-yard line. Casner made 30 yards on a lateral pass. Weber for Greenberg. Dickinson was penalized 15 yards. Angle made 16 yards around end. Pokorny for Spotts. Bukowski for Patterson. On an attempted pass Angle was tackled before he could throw it and lost 15 yards. Shomach punted to Muhlenberg's 17-yard line. Muhlenberg's ball. Weber made 4 yards off tackle when he hurt his shoulder and Kimble was substituted for him. Chapman punted to Angle on Dickinson's 45-yard line. Cook tried a pass which was intercepted by Borell. Kimble tried the line twice for a gain of one yard, after which Pascal tried a pass which failed. Chapman punted to Angle on Dickinson's 15-yard line who took the ball for an 85-yard run for a touchdown. Ruglio for Evans. Cook tried for the extra point but failed. McCleary for Cook. Shomach kicked off to A. Minka on Muhlenberg's 40-yard line who returned it 5 yards. Seifert made 3 yards through the line and a pass, Pascal to Kimble netted 23 yards when the half ended. Score: Dickinson, 6; Muhlenberg, 0.

**Third Quarter**

Muhlenberg kicked to Dickinson's 10-yard line. Shomach punted to Muhlenberg's 60-yard line. A pass, Pascal to Borell, netted 13 yards, and a first down. Two incomplete passes, and Muhlenberg was held for downs. Dickinson's ball. After trying the line for no gain, Shomach punted to the 5-yard line. Angle for McCleary. A pass was intercepted by Angle and returned 4 yards. A pass Cook to Brillhart netted 5 yards, and being held for the rest of the downs, Angle punted to Muhlenberg's 25-yard line. Shultz for Wolcott. Muhlenberg's ball. After trying the line several times with no avail Kimble punted to Angle on Dickinson's 40-yard line who returned it 10 yards. A lateral pass Cook to Angle made 11 yards and a first down. Dickinson penalized 15 yards for clipping from the rear. Shomach punted to Muhlenberg's 10-yard line to Pascal who returned it 15 yards. Kimble made 15 yards around end. Mentzer for Shomach. A pass Borell to Smith made 15 yards. Henzes for Casner, Gainer for Shultz. Muhlenberg was penalized 15 yards and a pass, Borell to Pascal, made 20 yards. Pascal passed to Ruglio for 15 yards when the quarter ended. Score: Dickinson, 6; Muhlenberg, 0.

**Third Quarter**

A pass was caught and fumbled on Dickinson's 5-yard line and Dickinson recovered the ball. Angle punted to Pascal on Muhlenberg's 45-yard line and Gainer nailed him in his tracks. A pass, Pascal to Smith, made 23 yards. Borell and Seifert each tried the line and together made a first down. Johns for Mentzer. Borell made another first down on three plays. Buchowski for Lavanture. Seifert and Kimble each made 3 yards through the line. Dawson for Cook, Gerber for Kimble. Gerber made a first down, putting the ball on Dickinson's 6-yard line. Rohrbaugh for Johns. Greenberg for Borell. Greenberg tried the line three times, but could do no better than take it to the 3-yard line where Dickinson got the ball on downs. Angle punted to the 50-yard line. Pascal passed to Greenberg for a 20-yard gain. Another pass, Pascal to Gerber made 20 yards. Greenberg made 8 yards through the line. Muhlenberg was penalized 5 yards for two incompleted passes and a pass, Seifert to Smith made 6 yards. Another pass, over the goal gave Dickinson the ball on their own 20- yard line. Haverty for Slevinske. Gibson for Hobermann. Angle got loose on an end run and ran out of bounds on the 50-yard line when the game ended. Score: Dickinson, 6; Muhlenberg, 0.

The Lineup:

| | | |
|---|---|---|
| Smith | L.E. | Wolcott |
| Spotts | L.T. | Shomach |
| A. Minka | L.G. | LaVanture |
| Chapman | C. | Chambers |
| Jacobs | R.G. | Cotsack |
| E. Minka | R.T. | Mentzer |
| Evans | R.E. | Shultz |
| Pascal (Capt.) | Q.B. | Angle |
| Seifert | L.H.B. | Cook |
| Borell | R.H.B. | Henzes |
| Greenberg | F.B. | Slivinske (Capt.) |

Referee: Gilbert, Williamson; Umpire, Douthett, Ursinus; Head Linesman: Dayhoff, Bucknell.

Substitutions: Muhlenberg—Weber for Greenberg, Porkorny for Spotts, Kimble for Weber, Ruglio for Evans, Gerber for Kimble, Greenberg for Borell. Dickinson—Hoberman for Mentzer, Casner for Slivinske, McConnel for Henzes, Bukowski for Patterson, Brillhart for Shultz, Cook for McCleary, Slivinske for Angle, McCleary for Cook, Brillhart for Shultz, Angle for McConnel, Shultz for Wolcott, Mentzer for Shomach, Henzes for Casner, Gainer for Shultz, Johns for Mentzer, Buckowski for LaVanture, Rohrbaugh for Johns, McCleary for aDwson, Haverty for Slivinske, Gibson for Hoberman.

# Three Triumphant Yankees conduct the Blindfold test . . . *and* MILLER HUGGINS *picks* OLD GOLD

The Babe and Lou here will tell you that there is only one way to choose a pitcher . . . and that's to send him into the box and let him twirl a few innings.

So the best way to choose a cigarette is to put them all through their paces in the blindfold test.

In the test I have just made, OLD GOLD played right into my mitt. Its zippy flavor and mellow smoothness couldn't be touched by the other three brands.

Miller J. Huggins

© P. Lorillard Co., Est. 1760
Made from the *heart-leaves* of the *tobacco plant*

LOU GEHRIG (*witness to the test*)

MILLER HUGGINS (*who made the test*)

BABE RUTH (*witness to the test*)

In the dressing room at Navin Field in Detroit, Babe Ruth and Lou Gehrig gave the blindfold cigarette test to Manager Miller Huggins. The famous Yankee pilot was asked to smoke each of the four leading brands, clearing his taste with coffee between smokes. Only one question was asked, "which one do you like best?"

SMOOTHER AND *BETTER* — "NOT A COUGH IN A CARLOAD"

## EXCHANGES

**More Pay for Professors**

Already reputed to be unusually liberal toward its faculty, Columbia University has announced a general increase in the salaries of its teaching and administrative staff, effective this fall. The present minimum of $6,000 for full professors will be raised to $7,500, while those "of exceptional service or distinction" may attain to $9,000, $10,000 or $12,000. The pay of associate professors will range from $5,000 to $6,000 and of assistant professors from $3,600 to $5,000. The new minimum for instructors is $2,500, an increase of $400. President Butler expresses the hope that the example set at Columbia will be followed "at other institutions to the well-deserved advantage and comfort of the great body of American scholars engaged in university teaching and research." Most American colleges are now endeavoring to repair the injustice under which their faithful servants have suffered so long. Their failure hitherto has been due to lack of means. With an increasing measure of financial support, more will be able to follow the excellent example set by wealthy Columbia.

**Temple**

The new system of training candidates for the Temple News was inaugurated in The News office Friday noon when the first meeting of prospective reporters was held with a turnout of 50 students. Robert H. Gamble, managing editor was in charge and will continue to conduct these meetings, which will be held twice each month.

**Yale**

Negotiations which were recently opened at the request of many under graduates for the establishment of a ground school course in flying at Yale have been successful and the course will be inaugurated in October, according to a recent announcement of the Yale Aeronautical Society. Although approximately 160 students have applied for instruction in aviation, it will only be possible to accommodate 25 this year. Those who fail to secure enrollment in the regular course, however, will have the opportunity of taking other instruction in the rudiments of flying.

**Lehigh**

Tryouts were held in Drown Hall Wednesday, at 7:30 p. m., for the orchestra with about thirty-five men out for positions. President David Flpharty expressed his pleasure at the showing but he still needs cellos, oboe, and string to balance the orchestra.

**Swarthmore**

The customary freshmen rules and regulations are already in force among the freshmen men. At a meeting of 1932, held in the gymnasium last Wednesday, the Sophomore Vigilance Committee, under the direction of Carl Delmuth, president of '31, held the initial freshmen "party" and explained the rules for the coming year. Practically no change has been made in the rules with the exception that new men will be allowed to wear cuffs. No fussing, tipping the cap, keeping off the pet, running across the quad, and keeping off the grass are still to be enforced.

A Swarthmore College presidential election will be held Friday, November 2, under the auspices of the Swarthmore Phoenix. The vote will be taken among the students and faculty of the college.

Extensive plans are now being carried out by the Department of Political Science and the Forum for the formation of political clubs representing the three main national parties, Democratic, Republican and Socialist. It is planned to obtain prominent speakers to appear before these clubs. The college election will come as a climax to the activity of these clubs.

## TRAYLOR SCENE OF PHILOS CLUB RUSHING DANCE

(Continued from Page One)

ler, H. Garton Lewis and Theodore Kuder.

This Philos Club was founded in 1926 and now occupy a beautiful home on North Twenty-first Street, near the college. They entered the Pen-Hellenic Council last year and have taken an active part in college activities.

## MANAGERS AND THEIR ASSISTANTS ELECTED

(Continued from Page One)

tant managers of the football team. Next year at the selection of the coach one will be elected as manager of the Varsity and the other will be manager of the freshman team.

For the basketball team Henry G. Aschbach and Clarence R. Early will hold the jobs of assistant managers. As in football, next year one will manage the Varsity and one the Freshman squad.

The managerial board elects the managers of the various athletic teams. It is made up of one member from each fraternity on the campus and two members from the non-fraternity group, the manager and the assistant managers of the sports concerned and members of the faculty. The faculty members this year are Coach Benfer, Professor Fasig and Guerney Afflerbach, graduate manager of athletics.

### FAMOUS EXPRESSIONS

Prof. Stine: By hickory you'll write!

Prof. Fritsch: I throw it out as a suggestion for what its worth.

The Dean: Now boys.

## GERMAN CLUB ORGANIZES FOR BIG YEAR

### Members Enjoy First Meeting In College Commons

Monday night saw the Deutscher Verein assembled for the first time this year. The meeting, held in the Commons, was opened at 7:30 by the singing of "Heiden Roslein". The first matter to be attended to was the election of a new secretaary, Walter Krouse being unable to continue in the office. Norman Dinger was chosen to fill the position.

Plans were laid for the activities of the coming year. It was finally decided that the club should give several short plays during meetings, and at some time in the near future sponsor the showing of motion pictures taken abroad this year, by one of the members of Doctor Barba's party. The names of new men were proposed and a motion was passed to extend to them invitations to become members of the club. The business having been trasacted, refreshments of cider and doughnuts were served. The meeting was closed by the singing of the Slumber Song.

## *Who's Who on the Campus*

Clarence A. Boyer

"Haps" Boyer, friend of the freshmen, came to us from the "skeeter" state. His trustworthy face must have been recognized at once, for in his freshman year his classmates elected him treasurer. Adapting himself to the Lehigh Valley environment he became an ardent member of the Deutscher Verein, but always confined himself to the pretzels when refreshments were served. As Secretary and President of the Student Council he has ably guided its destinies and earned the respect of the student body.

Boyer is usually a quiet fellow, but occasionally his voice is heard these days in acclamation of Hoover. He is a firm believer in the Salvation Army motto: "A Ford may be worn, but never worn out"—even if it is used to burn up Hamilton Street advertising football games.

At the beginning of his senior year, Boyer was elected to the highest office in the local chapter of Theta Upsilon Omega Fraternity.

When a popular man enters his senior year his friends are likely to become speculative reguarding his future. Boyer could, no doubt, qualify as a teacher as he has been known to have conducted a German class by addressing them in French—or perhaps topography is more in his line—he has been heard to refer to the place where the Susquehanna River flows into Delaware Bay. These details are soon forgotten, however, when he deliveres those eloquent extemporaneous speeches in oratory class.

Although "Haps" has spent several summer vacations at work on the floor of the New York Stock Exchange, the call of the business world has not altered his resolve to make the Lutheran Ministry his life work.

## SHORTY EDWARDS TAKES FAMOUS BLINDFOLD TEST

At the request of Ira Wise, proprietor of the progressive Muhlenberg corners general store, Shorty Edwards consented to make the famous blindfold test. Shorty puffed away on Mentharettes, Spuds, Cubebs and Muhlenberg weeds; clearing his taste between drags with Coach Benfer's famous coffee. Zettlemoyer, Price and Fluck witnessed the test. They only asked Shorty one question: When will the Library be finished?

"Muhlenberg alfalfa sticks for me, by hickory" said Shorty thereby scoring another point for the common people.

## A CHEERING SECTION AT LANCASTER

The Muhlenberg cheering section has been with the team at every game. The Franklin and Marshall contest is another test of the Allentown rooters. Let's show the crowd at Lancaster that we're still behind the team. The band will be on the field to sound off a couple of new numbers they've been practicing. And we've a hunch—a sneaking, lingering suspicion—as the coach says—that something is going to happen. As the old saying goes, "It's a long road—" Here's looking for a big crowd of Muhlenberg men at the game Saturday and a change of luck for the Cardinal and Grey.

## BAND ORGANIZATION DEVELOPING RAPIDLY

### Will Accompany Team On Lancaster And Bethlehem Trips

The "Cardinal Tooters" are busy preparing themselves for their next public appearance when they expect to redeem themselves for their rather scant appearance at Easton, Saturday, Oct. 8. The snappy strains of music that permeated the atmosphere about the Science Auditorium on Tuesday afternoon, October 11, when they had a rehearsal, avouch to this fact.

On Thursday afternoon, October 13, the members met for marching practice. Their old formations were rehearsed, especially the countermarch, which had proved rather difficult. In addition to these, the formation of the "M" was practiced. After practicing this formation for some time, they were dismissed, all feeling confident that their next public appearance would be a good one.

The band did not follow the football team to Dickinson last Saturday, but it will most assuredly go with the team to Franklin and Marshall for the coming game.

## DELTA THETA GIVES RUSHING DANCE AT HOUSE

### Bart Snyder Furnishes Music For Gay Affair Of Fraternity On College Heights

Another bright affair of the rushing season was a dance given last evening by the Delta Theta fraternity in their home on College Heights.

The house was gayly decorated with penants and banners and the many bright costumes of the girls made it a very colorful affair.

The chaperones were Mr. and Mrs. Henry Wickert and Mr. and Mrs. Edward Schlecter. Many alumni brothers were also present. Several novelty numbers were scattered throughout the program and at the intermission an original bit of entertainment was offered.

The Delta Theta fraternity is a local organization, founded in 1898. It was the second fraternal group to establish themselves on the campus at Muhlenberg. The dance last evening is the final formal affair that this group will give during the present rushing season and the freshmen that were there were impressed by it. Richard Wood was the chairman of the committee that planned the program.

## FROSH HAND TRENTON NORMAL FIRST DEFEAT

Trenton, N. J., Oct. 27.—While the Muhlenberg College Varsity eleven was losing to Lehigh at Bethlehem this afternoon, the Muhlenberg Freshmen, coached by George Holstrom were having a field day at the expense of the highly-touted Trenton State Normal School eleven, the Cardinal and Gray Yearlings from Allentown rolling up a 25 to 0 score on the hitherto unbeaten Trenton eleven.

Playing heads-up football throughout the entire four periods, the Muhlenberg Freshmen tallied fourteen first downs to two for the Normal School eleven. The Freshmen scored in every one of the four periods, and probably would have made the score even bigger than it was had it not been for penalties inflicted by the officials, Coach Holstrom's team being penalized seventy-five yards in the course of the game.

Savago and Carney were the outstanding stars in the Freshmen's victory, the former swinging around right end early in the second quarter and when he stopped he had gone fifty yards down the field for a touchdown.

Carney scored Muhlenberg Freshmen's final touchdown of the game late in the final quarter, when Trenton, in a last desperate try, opened up with all kinds of forward passing plays. It was one of these that Carney intercepted in midfield, and with fine interference, he reeled off the fifty yards distance betwen himself and a touchdown.

The Trenton team seemed unable to make any consistent gains through the Freshmen line, and twice, after they had taken the ball deep into Muhlenberg territory via the forward pass route, were compelled to surrender the ball to the Allentown collegians when their line tightened and held for downs.

The brilliant performances of the Muhlenberg Frosh ends, Lenker, formerly of Allentown High, and Giltner, of Tamaqua High, were among the game's features. This pair frequently broke through the Trenton defense and broke up plays before they were under way promptly.

| Muhl. Frosh | | Trenton Normal |
|---|---|---|

### DELTA THETA HOLDS ALUMNI DANCE

Delta Theta Fraternity held its annual alumni dance last Saturday night, and when the last strains of the music from Bart Snyder's orchestra floated out into the chill air of College Heights many a couple found themselves tired, but, oh, so happy after an evening of fun-making and dancing. All those essential parts that go to make an evening perfect were there in abundance. A congenial crowd of good friends, a snappy, peppy orchestra, a plentiful sufficiency of tasty refreshments and a wealth of good cheer combined to make the evening one which will long be remembered by the active members of the fraternity, and warmed the hearts of the alumni. Those present who were not fraternally connected were the guests of the evening, the Beta Chi chapter of the Phi Gamma Delta Fraternity, Lehigh University, who, incidentally, were out in force.

The Delta Theta house in College Heights was gaily decorated for the festivities, with fully a hundred and fifty balloons floating about in the air, while all through the evening colored streamers rose and fell about the dance floor until a few of the more hardy couples had collected enough to warrant their being mistaken for the Spirit of May, or perhaps some Olympic heroes, properly garlanded.

The chaperones for the evening were Brother and "Mom" Wickert and Brother and Mrs. Ed. Schlechter. Other alumni who came to the dance to renew old friendships and have a good time were Paul Clymer, John Smoyer, Robert Wheeler, Richard Robinson, Robert Stauffer, Paul Miller, Herbert Horner, Charles Beck, Leonard Deininger, Paul Wertman, Harry Oxenreider, Ernest Seifried, and George Nicholas.

The committee to whose efforts the success of the affair was due consisted of Dick Woods, who acted as Chairman, Joe Evans, Jim Lanshe, Bill Kreisher, Connie Conrad and Fritz Bausch.

'VARSITY FOOTBALL SCHEDULE

Nov. 10—Gettysburg, at Allentown.
Nov. 17—Lebanon Valley, at Allentown.
Nov. 29—Western Maryland, at Allentown.

## SENATOR SCHANTZ ADDRESSES STUDENTS

In connection with the plan of having the great political parties of the country present their case to Muhlenberg students by local representatives of note, Senator Horace W. Schantz, president pro-tem of the State Senate, acquainted the student body on Thursday morning with the policies of the Republican party. Previously Lawrence H. Rupp, a well known Allentown Lawyer, presented the Democratic case.

Senator Schantz confined himself to a brief outline of his party's history and principles, and did not refer to the present campaign except in passing references. However he did refer to Herbert Hoover, "our next president." Incidentally, the statement drew forth prolonged applause. Another incident that served to release tension occurred when Senator Schantz quoted the language used by a Democratic Senator. For a minute everyone was non-plussed and then someone started the fireworks with a little guffaw. The student body followed with a prolonged roar of laughter. Senator Schantz was obviously "at sea" about the whole affair until Doctor Haas, who was also on the platform, stepped in and aptly excused the Senator who, he declared was only quoting the Democratic language. That brought another burst of laughter from the entire student body.

The gist or Senator Schantz's speech was mainly the constancy of the Republican party to its ideals. "Not once has it about faced on any issue," he said. Explaining the Republican party came into existence just previous to the civil war over to the great issues which the Republican party stood for and carried thus. Its first great issue occurred in the question of slavery on which question it took its stand as anti-slavery, and won under the party's capable leader, Abraham Lincoln, its first victory.

Since that time the party's history has been the country's history, declared Senator Schantz, is it has been in power fifty-two of the seventy-two years since its organization. He then talked very briefly on the present campaign and stated the real issue is continued prosperity and not minor questions like prohibition and religious talk!

At the close of his speech, Senator Schantz received a prolonged ovation from the student body for his clean and unobscured picture of what his party really stood for in the past and in the present.

## *Lehigh Registers First Victory Over Muhlenberg During Benfer Regime*

### *Brown And White 13 - Cardinal And Gray 7*

The Brown and White of Lehigh flew a few notches higher than the Cardinal and Grey of Muhlenberg last Saturday afternoon, but it sure is one for Mr. Sherlock Holmes to find a solution for its occurrence. The scoreboard handed Lehigh a 13-7 verdict, but what it was for is another mystery. The comparatively small crowd that turned out to witness the season's "classic," sure heard a good band concert, especially on the Allentown side. "Doc" Brandes sure has whipped into shape one neat little serenading outfit, and maybe they can't make some racket.

Between the numbers of the band the muddle down on the gridiron managed to attract some attention. To give a play by play account of the game would be an impossibility for the very good reason that there weren't any plays executed,—in the first three periods. The Benfer clan started the game right by losing the toss. The Lehigh punter dumped the ball deep into the Muhlenberg territory where the pigskin became so attached to its location that it decided to lease the spot for the afternoon. And there was little to break that lease—for three periods.

Muhlenberg, unable to get by Davidowitz or Lehigh, converted the game into a punting duel, in which the invenerable Brown and White right half had a great time. He ran Chapman's punts back as though he were late for a "date," getting his shoes shined on the way. However his own tackle beat him out of one of these workouts by wandering into one of Chapman's boots, and the game was changed to football. With the ball just eleven yards away from the six point territory the Cardinals hopped on the offensive backs with all fours, captured the ball on downs, and made the Tate proteges renew their attack. To make a short story shorter the Lehigh parade ended shortly after the start of the second period with Davidowitz, the master of ceremonies, throwing the Reach specimen to Elliot, who, determined to realize the one ambition of his life, waded through the Benfer tribe to the minus one line. Davidowitz had the very unique experience, (down on the ole' south mountain) of adding the point after touchdown.

Throughout the entire first half the Muhlenberg backs gained about one hundred yards, in the wrong direction. On the other hand the Bethlehem collegians registered five first downs, seven points, and collected about two thousand dollars, which isn't so bad for twenty minutes work.

The final session brought the football game. After an unsuccessful attempt by the local line to avert an opposing score, Davidowitz countered for a six pointer, giving a spectacular exhibition in his drive. The local collegians were still forced to resort to the punting route, and near the end of the third quarter made a valiant stand in the shadow of their own uprights, taking the ball on downs. From this point on the tide of pigskin pugilism reversed. Disgusted, determined, bruised, bleeding and bloodthirsty, the Cardinals went after the taunting Brown and White, scoring their first first-down of the game as the period ended.

Following Chapman's beautiful punt to Lehigh's five-yard line, some blessed hand injected the "shock troops" into the dragging Cardinal and Grey. Behind the scenes "Haps" Benfer certainly has developed a wonderful pony backfield. This quartet of back, composed of Weber, Gerber, Kimble and Wiener, awakened memoirs of the '21 victory over Lehigh. An attack of line smashes, forward passes, end runs, "sleeper" plays, and "do or die" stunts, just about put the Brown and White in mourning. Unleashing a sensational group of passes which were garnered in by Spotts, Wiener and Weber the locals worked their way to within ten yards of the goal. Held for downs here, another fierce attack was launched following Elliot's punt. Coupled with Kimble's run and a pass to Spotts, followed by Gerber's line smash, Weber, calling for a sleeper play, carried the ball over for a mighty sweet half dozen points. Foul tactics on Lehigh's attack to smear the try for the extra point brought the local total to a cold seven.

This ended the scoring for the day, although the Benfer charges made one grand and glorious bid for further honors. It was jes' too bad that that quartet of mighty midgets didn't get into it sooner. They undoubtedly could have warmed the padded portion of the Brown and White moleskins better than they did the bench. Whether they were only a "flash in the pan" or not can be determined in the future encounters, however Benfer has put one sweet little combination together in that scrub backfield, and that sure is considerable.

Now for Ursinus.

Lineup:

| Lehigh | | Muhlenberg |
|---|---|---|
| Levitz | L.E. | Evans |
| Miller | L.T. | Spotts |
| Waldman | L.G. | A. Minka |
| Ayre | C. | Chapman |
| A. Lehr | R.G. | E. Minka |
| Haas | R.T. | Jacobs |
| Kirkpatrick | R.E. | Smith |
| Elliott | Q.B. | Witwer |
| Fritts | L.H. | Borell |
| Davidowitz | R.H. | Seifert |
| Van-Blarcom | F.B. | Greenberg |

Score by Periods

| | | | | | |
|---|---|---|---|---|---|
| Lehigh | 0 | 7 | 6 | 0 | 13 |
| Muhlenberg | 0 | 0 | 0 | 7 | 7 |

Touchdowns — Elliott, Davidowitz, Weber. Points after touchdown—Davidowitz, placement: Muhlenberg (interference with receiver of pass). Substitutions—Pokorney for Spotts Weber for Greenberg; Spotts for Pokorney; Weiner for Seifert; Pokorney for Jacobs; Gerber for Borell; Kimble for Witwer. Lehigh—Many for Rushong; Oller for Fritts; Levitz for Many; Twigger for Lehr. Referee—C. A. Geiges, Temple. Umpire—E. M. Bennis, Pen. Head linesman—W. R. Douthett, Ursinus. Field judge—H. N. Merrit, Yale. Time of periods—15 minutes.

In Memory of

**William G. Bogert**

Class of 1930

Born March 24, 1907
Died October 26, 1928

### All Wet

Englishman to Bell-hop: "Say, dear chap, will you run out and engage me a couple of stalls at the best theatre?"

American Bell-hop from the Bowery: "Say, buddy, you'd better take a cab. You'll never ride no horses down Broadway."

### IN THE PRESS BOX

Presidential election day comes once every four years, that is, but once in the college life of a student. Why can't we have that day off from the cares of schoolwork?

—Unknown.

FRESHMEN FOOTBALL SCHEDULE

Sept. 29—Muhlenberg, 0; Perkiomen, 13.
Oct. 6—Muhlenberg, 3; Lafayette, 0.
Oct. 13—Muhlenberg, 0; Ursinus, 0.
Oct. 27—Muhlenberg, 25; Trenton Normal School, 0.
Nov. 3—Lehigh, at Bethlehem.
Nov. 10—Gettysburg, at Allentown.

## THE BIG PARADE

Well, boys, a nice big, fat, juicy victory over Lehigh after the big doin's this evening will help a lot. If we didn't come through, it wasn't for lack of the old "pepper". The writer of this article would like to make something plain. The Frosh are lacking in class-spirit. This evening the Frosh gathered under the historical arcade all decked out in their varied colored pajamas together with a few upperclassmen. They made an impressive if not a beautiful sight. To think that ole 'Berg's future rests on these benighted Frosh makes the chills run up and down one's back. But, to get back to the "Livings". The Frosh lined up by two's in back of the Band. With the beat of drums in their ears, this noble band of co-workers marched with martial tread to the center of Allentown. The Frosh took up a cry, "We'll beat, we'll beat, we'll beat Lehigh." Boy, and may be there wasn't plenty of noise then. Plenty of good-natured "razzing" took place from the side lines (streets). This was immediately returned in no uncertain manner. Plenty of Trolley "monkeys" were pulled and by the way the traction company ought to put good ropes on them, so they don't break so quickly.

Finally the square was reached, whereupon traffic was tied up for a while and cops remarked that it might be a wise thing to move on. The Frosh gathered around the monument and then maybe the "dirt" didn't fly thick and fast about the "cops".

Led by our three upperclassmen (cheerleaders) the Frosh let loose "unto the Heavens a mighty volume of sound." Cheers flew back and forth, hand-clapping was indulged in by a few, but the mighty voices of Fresh freshmen filled the ozone until even the very stars were dimmed by the lustre that the 'Berg gained through the work of future great men.

By the way, don't allow me to forget that this congregation of silliness (Freshmen) halted at Dean Ettinger's home on Hamilton Street and gave the Dean a rousing cheer which surely must have made his moustache stand on end with pride. But be it as it may the world in general was told that anyone who wants to beat 'Berg at anything must first lick the Frosh.

So, here's to the Freshmen
May their tribe never stop
Cause if it does, then
College will be a flop.

### DEUTSCHER VEREIN MEETS — NEW MEMBERS INITIATED

On Monday evening, October 29th, a unique as well as humorous initiation took place when the German Club, of the few successful departmental organizations on the Muhlenberg Campus, initiated new members. The poor plebes were stood in the center of an immense concourse and were extremely embarrassed and disconcerted while

"Questions to the right of them,
?Questions to the left of them,
Volleyed and thundered."

The meeting opened with a beautiful rendering of the "Lorelei" by the entire assemblage. After the reading of the minutes by the Secretary and the various reports of the other officers, another song was sung by the group.

The business meeting was finished and the initiation of the new men was next in order.

After an inspiring speech by Dr. Barba the entire aggregation was doubled up with laughter at the efforts of the new men to entertain.

The majority of the new men taken into the club were sophomores excelling in the work of German. The high calibre of the new men will accomplish much in giving the German club a still stronger foothold on the campus. The following men were initiated:

Ray W. Andrew, Walter A. Banks, Edwin J. Berg, Paul Dreisbach, Phares P. Dinger, W. H. Deebel, Paul W. Drepper, Harry Eckert, Paul Fatzinger, T. G. Fenstermacher, T. R. Fister, Elmer Gauch, E. P. Helms, George E. Heck, Carroll E. Heist, Lloyd Hand, C. W. Johnson, Wm. A. Kistler, W. Marlyn Kutz, Walter Kuntzleman, Ralph Kistler, Donald Mack, John McCollum, Myles Ramon Miller, Monroe P. Newman, H. K. Neimeyer, Carrol G. Parks, James L. Patterson, Henry P. Pierce, Solon C. Phillips, Jere Renninger, Donald Z. Rhoads, Paul C. Rausch, Charles H. Ruloff, Stenley E. Reiner, John Ritter, E. G. Schmickel, H. A. Steinman, Atwood Smith, Earle D. White.

This is the largest number of new men ever taken into the club. This indicates the increasing popularity of German in collegiate circles.

## ONE ACT PLAY GIVEN BEFORE QUE AND QUILL

### Dramatic Club at Monthly Meeting Makes Plan For Production in January

The Muhlenberg Cue and Quill club met Thursday evening in the home of Carl Donecker, its president. A one act playlet was produced by several members of the club and plans for the next production were discussed.

The constitution adopted at the beginning of this semester by the club calls for two meetings a month. The first, held on the first Monday afternoon, is purely a business meeting at which the necessary routine of the organization is taken care of. The second is to be held on the third Thursday evening at which time short programs will be presented and plays and play-writing discussed.

The program committee for the meeting Thursday evening was headed by Frederick Drewes. A one act playlet, "The Master Salesman" by William Hazlett Upson was presented. The cast only called for three actors and these were Rudolph Mattson, a salesman; Theodore Kuder, a buyer, and Earle Winters, a clerk.

The plot of the act was not heavy. The buyer from the country wanted a tractor. He had decided that he wanted the particular make that the salesman was interested in. He wanted no explanations and had cash to pay for it. But the salesman felt that he had to give his high-power sales talk and proceeded to do so much to the discomfiture of the buyer. At last tiring of the "line" of the salesman, the buyer pulls a gun and forced the salesman to write down his order without saying a single word more. The purpose of the clerk was to bring out the moral and show the humor.

The playlet was well presented and because of its success, more programs of that nature will be presented in the future. The probability of presenting such acts before the student body was considered.

A call from the Women's Club of Allentown for men to take part in their forth-coming production "Tweedles", was made. Also the possibility of giving for their first play of this year "The Queen's Husband" by Sherwood Anderson, was discussed by the club.

There are at the present time twenty-three members in the Cue and Quill club, including three faculty members, Professor Brown and Professor Jackson. Following the program and the serving of refreshments by their host, the club adjourned feeling that it was sure to do big things for Muhlenberg this year.

# The Muhlenberg Weekly

Owned and published by the students of Muhlenberg College, Allentown, Pennsylvania. Subscription—$2.00 per year in advance. Single Copies Six Cents.

Founded by Class of 1883. Established as a Weekly in 1914. Entered at the Allentown Post Office as second-class matter.

### What Price Result?

Since we didn't see fit to go to Easton or Lancaster, Saturday was our first opportunity to see our so-called band in action if it can be termed that. To say the least we were disappointed, even in the face of reports we had heard before hand. Perhaps it was because the competing organization was so superb that we felt as we did, but we can't see that that fully explains it. We feel that our band was just simply rotten.

In short, the boys neither played well nor marched well. Neither have they the excuse of a larger selection of numbers on one hand or a lack of time for practice on the other. Of equipment too there should be fully sufficient. Of capable direction there is certainly no lack in Dr. Brandes in a business way and Mr. Meyers in the technical. Numbers too offer no excuse for we counted thirty-six men in line Saturday. Yet the results don't follow. Why not?

Where does the fault lie if not in the members of the band and in the undergraduate officers of it? Can any other excuse be offered to an indignant student body? Surely there has been little to howl about in our football season, but that is not a legitimate reason for a ridiculous poor band. Such a reason there might exist for a poor cheering section, but we have never seen such loyalty in our student body as a whole before. There is no kick about our cheering, be it in the face of defeat.

Yet the fact remains. We are getting no returns at all on a rather large investment. What does the band need? Can we do anything further? Or is it just a case or laying down on the job? If that is it, then let's disband the whole outfit and sell the uniforms and instruments for what they may bring. Money can always be used profitably so there's no use wasting it on the undeserving. But if more help is needed, why, we'll get it somehow. A decent college must have a decent band. Accordingly, what we want to know right now, is just how much it's going to cost us to get that presentatble band and avoid admitting that the college is worthy of no effort.

### Spirit and Reputation

Take this matter of Football, gentlemen, it is one of vital importance, at least inwardly, in intercollegiate circles. One great Coach was heard to remark that "Fifty per cent of Football is fundamental and the other fifty per cent is fight." These few words, I think, easily summarize our own situation. Witness the game against Lehigh, were the remarks of the Allentonians unfounded when they decried the use of the men who had only a past reputation? Emphatically no. It was easy to see who were the men that really wanted to play, and didn't play, simply because they got something out of their playing. Theirs was the spirit of the game, theirs the will to win, the push and fight that makes up fifty per cent of football victory. Are we going to continue using forces that are worn out or have that "I don't care" attitude or will we see the fight that we've so long hoped for, the spirit which formally put Muhlenberg high in Intercollegiate sport circles.

We have championship baseball and basketball teams, why can't we rank just as high in Football, America's paramount attraction?

Then again, what right has our student body to whine and "gripe", if they are not willing to give but one afternoon a week to root and give their moral support to those boys that really want to play and give their best for the school? It's unfair and unjust that such as these be allowed to express themselves in a way unpleasant to everyone. If you want to make mean accusations, come around once in a while to see a game and then see if you can get some grounds for your arguments, and incidentally while you're there, add your usually so insistent voice to the din and help cheer on the team and give them some moral support.

### The Last Putt

A golfing clergyman had been beaten badly by a parishioner thirty years his senior, and had returned to the clubhouse rather disgruntled.

"Cheer up," his opponent said. "Remember, you win at the finish. You'll probably be burying me some day."

"Even then," said the preacher, "it will be your hole."—Christian Advocate.

### Why He Was in Church

Donald, who was very fond of a dram, and sometimes took too much, met his minister one morning, who hailed him:

"Good morning, Donald. I was greatly surprised and delighted to see you at the prayer meeting on Wednesday."

"So that's where I was!" replied Donald.—Commonwealth.

### LEHIGH

New Electrical and Mechanical Engineering Laboratory by 1930.

Lehigh is the recipient of a gift of $1,000,000 from James Ward Packard. The money is to be used for a new building. A suitable laboratory for electrical and mechanical engineering has long been needed. The building will be ready by January 1, 1930.

### LAFAYETTE

**Hoover-Smith Debate**

Members of the Hoover-for-President Club have challenged the members of the Smith-for-President Club to a debate. This debate will be held in the auditorium. Much interest has been aroused and many townspeople have asked for admission during the debate.

**Photograme Section**

Something which is very seldom seen in college papers is the photograme section of this week's Lafayette. Pictures of beauty and other scenes from all sections of the country are portrayed in this section.

### WASHINGTON AND JEFFERSON

**Student Straw Vote**

Since the last issue when 2000 votes for Hoover and 700 for Smith were reported the following additional returns have come in:

| | Hoover | Smith |
|---|---|---|
| Last week ..... | 2000 | 700 |
| Northeastern ..... | 810 | 270 |
| Hamilton ..... | 287 | 88 |
| Waynesburg ..... | 168 | 52 |

### TEMPLE UNIVERSITY

**Select Debate Team for Oxford Contest**

The debating team selected to oppose Oxford on November 13 is composed of Virginia L. Hearne, Charles Herron and William A. Ramon.

Miss Hearne has earned an enviable reputation throughout Pennsylvania as a debate and orator. Ramon was a member of the Varsity squad for two years. Herron is the only man without previous experience. The question is, "Resolved: That the U. S adhere to the League of Nations." On November 16 the Oxford team will debate a team representing Muhlenberg on the same question.

### SWARTHMORE

**College to Celebrate Founder's Day**

The fifty-ninth anniversary of the founding of Swarthmore will be observed Saturday, October 27. Dr. Rush Rees, President of the University of Rochester will deliver the main address. Extensive preparations have been made for the accommodation of the large crowd which will attend this anniversary.

### ALLEGHENY

**Allegheny Youth Now on Way to Antartic**

Paul A. Seiple, America's best known Boy Scout, who was selected as the representative of that organization to accompany Commander Richard A. Byrd on his two-year expedition to the antartic, was a member of the class of 1931 of Allegheny College.

### GETTYSBURG

**Work to Begin on New Library in Near Future**

Architectural plans for the M. Emma Weber Memorial Library have been completed and work is expected to be under way by Thanksgiving.

The library will have a capacity of 85,000 volumes and the main reading room will have a seating capacity of 300 students.

Fifth Annual Father's Day, Nov. 17.

On Saturday and Sunday, Nov. 17-18, the fifth annual Father's Day will be observed by the college.

A collation banquet will be held in the gymnasium immediately after the Western Maryland-Gettysburg football game.

The students are looking forward eagerly to this annual affair which has proved so popular in the past.

### "Bare" All Right

Two bluejackets were watching the bathing girls at Atlantic City when one of them pipes up: "Do you think the girls could wear their bathing suits much smaller?"

"I don't know," said his shipmate, "but there's a bare possibility."

## THE LIGHT ON HIGH

Many visitors and strangers to this vicinity wonder at the beauty and splendid lighting effect of the Pennsylvania Power and Light Co.'s new and imposing structure at Ninth and Hamilton Sts. This same beauty, visible within a radius of miles and miles about Allentown and heightened rather than dimmed by the distance, has inspired our own distinguished Dr. J. A. W. Haas to write an impressive poem. It is such writings that we, as students of the College, would like to see more of, not only from Dr. Haas, but also from other members of our faculty and student body, because they would eventually raise the Intercollegiate literary esteem which Muhlenberg now enjoys.

Uplifted and on high
Mid the dark clouds of sky,
Blood-red, glowing, bright,
Shines a glorious light.

'Tis not a smoke-spouting,
Fierce fire, men shouting,
Bringing fright and fear
To all dwellings near.

A helpful and glad glow
It spreads for men below,
Giving them stout heart
In the busy mart.

'Neath the glorious shining,
With its intertwining,
Is a cross of white,
What a wondrous sight!

What message does it bring?
What anthem does it sing?
Tells it a cruel deed
'Gainst some race and creed.

No! It tells the story
Of Peace, goodness, glory;
Burns with fire of love
Sent down from above.

A lighthouse it does stand,
Not on the beaten strand,
But shedding its rays
On Men's devious ways.

Many burdens, heavy toll,
Oft our human life despoil;
But the light on high
Brings new courage nigh.

### FACULTY NOTES

Dr. Isaac M. Wright, Professor of Education, has been kept very busy during the past week, speaking at several teachers institutes in various parts of Pennsylvania. He is very well known amongst the educational circles of the eastern part of the state, and his special lectures on reading are in constant demand.

On Saturday, October 20, Dr. Wright spoke before the Hazleton city institute. As the subjects for the two talks presented to the teachers, he chose, "Essentials of Leadership" and "The Formation of Character".

On Tuesday and Wednesday, October 23 and 24, he addressed the Wyoming County Teachers' Institute at Tunkhannock, presenting very interesting discussions of "The Dalton Plan", "The Reading Process", and "The Essentials of Leadership". While at Tunkhannock, he was also invited to speak before the board of directors and chose as his topic, "Being a School Director".

Doctor Wright also spoke at the alumni reunion of the XI Chapter of the Phi Kappa Tau fraternity at Franklin and Marshall College, last Friday evening. He is the national president of Phi Kappa Tau and his talk was a part of the two-day program that was presented at Lancaster.

## EDITOR'S SCRAP BOOK

What a holiday Monday was! We worked just as much as ever, but we suppose the boys over on the hill got a great kick out of it.

—

It was so sad. There might have been a different story if—. But then after all we don't know why we should have won. The first half at least was a pretty ragged exhibition.

—

But that last five minutes! Wow! And again if—.

—

That second backfield certainly showed up well. We notice it made some stir in the press and even provoked some questions. Anyway it deserves a lot of credit.

Weber surely showed the spirit. If only it was universal. He certainly used his head too.

—

Both ends showed up well. Evans' tackling was exceptionally pretty. A little more of that kind of stuff would help some too.

—

But, so it goes. Just one thing after another, and now it's Ursinus. Can we avenge a 15-0 defeat?

—

We guess the Allentown crowd was somewhat in absentia, Saturday. Usually there are more people in our stands than in Lehigh's, but that was not the case this year. And that's where the money goes.

—

Perhaps it's best to stop, right here. We're not in good humor. Continued next week.

## Mule 'N Berg

Mule: Howdy, Berg.

Berg: Good day, Mr. Mule. You seem indisposed this morning.

Mule: I am feeling glum. I had a talk with Merkle.

Berg: Why should that make you feel glum?

Mule: He asked my frank opinion about his courses.

Berg: Well—

Mul: I was frank—.

Berg: I heard you got in trouble the other day in one of your classes.

Mule: Yes, I did. The prof. asked me how I could give an opinion when I was sleeping.

Berg: Well what did you say?

Mule: I told him sleep was an opinion.

Berg: I hear Professor Jackson was quite lucky with his garden this summer.

Mule: Really, did he raise much?

Berg: No; but he had sunstroke and collected $200.00 health insurance.

Mule: I have decided that I am going on my honeymoon alone when I get married.

Berg: Do you mean to say you would leave your wife at home all alone?

Mule: Well, you see, one of us can go. There's not a thing holding me; but my sweet woman has a job and responsibilities.

Berg: I was thinking of going to Europe. I wonder how much it will cost.

Mule: Nothing.

Berg: Nothing!

Mule: Why yes. Thinking doesn't cost anything.

Berg: I wonder if that's a mail plane flying over the campus.

Mule: Why—No! They're wheels that you see.

Berg: How would you like a date with an old fashioned girl tomorrow night?

(Continued on Page Four)

### LUTHERAN CONFERENCE
**Philadelphia Snubbed**

Diagonally across the Commonwealth of Pennsylvania last fortnight went an insult to Philadelphia. From Erie, at the farthermost corner of the state, came the announcement that the United Lutheran Church of America would not convene in Philadelphia at the next biennial assemblage (1930). The reason for the snubbing of Philadelphia was the "graft scandals" of recent development. Milwaukee, free of graft scandals, was chosen instead.

The Lutherans learned to their dismay that although $50,000 has been spent in Africa in two years of mission work, only one convert has espoused the faith. They learned, too, that in 68 years of carrying the light of faith in the dark continent, not one native congregation has been formed. Disheartening though this information was, the convention voted to continue its activities.

For the sixth time the Rev. Dr. Frederick Hermann Knubel was elected president of the United Lutheran Church in America. He has held the office since he was first elected ten years ago. He is a New Yorker by birth and by residence, is 58 years old.

## OBITUARY

*William G. Bogert, Jr.*

Death late yesterday afternoon ended the studious life of William G. Bogert, Jr., only son of William G. and the late Mary E. (nee Walp), Bogert, at the home of his father, 404 North Twelfth street, following an illness that developed about three weeks ago and held him bedfast for the past two weeks. He was 21 years old.

At the time of his death, the young man was a student in the Junior class of Muhlenberg College and was considered a particularly apt scholar. Prior to entering Muhlenberg he had attended the United State Naval Academy at Annapolis and was well on his way to win a coveted commission in the naval forces when his hearing became impaired and caused him to resign.

He was a graduate of the Marian Institute, of Marian, Ala., which school he entered following his sophomore year at the Allentown High School.

The young man had a host of friends in this city and at places where he attended school.

He is survived by his father, manager of the Mauser Milling Company warehouse at Twelfth and Gordon streets, and two sisters, Naomi, at home, and Ruth, of Orange, N. J.

Short services for the family will be held at his late home, 404 North Twelfth street, Wednesday afternoon at 2 o'clock. Regular services will be held at 2:30 o'clock in the Twelfth Street Baptist Church, Rev. Titus Hottel officiating. Interment will be made in the Greenwood cemetery.

## CURIOUS RECORDS THE WORLD OVER

Fred Penn, Omaha fisticuffer, gave one day last week half a pint of his own blood to save his mother's life in a transfusion operation. That same night, Fred Penn stepped into a prize ring, knocked down Fisticuffer Clarence Berger four times, won the bout.

Mr. and Mrs. James Joseph Tunney took a year lease on a house in smart Mayfair, London, which they hope to kindle into a literary salon with the aid of George Bernard Shaw, Arnold Bennett, et al. Meanwhile, it was reported that retired Fisticuffer Tunney had agreed to fight five British heavyweights in one evening—all, however, for the good of charity.

At Chapel Hill, N. C., one Harry M. Sinclair, baseball fielder, ran to retrieve a homerun. As he leaned to pick up the ball from a tuft of grass a small brown snake, of unknown breed, peeked up at him and bit him severely in the hand.

Maitre Annet-Baden, Paris lawyer, drove his car up steep Montmartre. How the old machine coughed and spattered and how slowly it proceeded! Unabashed, Maitre Annet-Baden was well pleased at its performance; for he was a competitor in a race to see who could climb the hill most slowly and he had won by going at 1 mile per hour.

In Berlin, one Herr Parlatus announced that he had talked continuously for 43 hours and would continue to do so until he had talked for 150 hours. Then he would be champion.

## FOOTBALL RACES AT A GLANCE

East—Army, New York University, Georgetown, Carnegie and Boston College neither beaten nor tied. Yale, Dartmouth and Pennsylvania dropped from top by first defeats. West Virginia continue come-back with fifth straight victory, over Lafayette since losing opening game to Davis and Elkins.

Western Conference — "Big Ten" Ohio State with three victories, Iowa and Illinois with two each, remain at top with clean states. Minnesota defeated by Iowa.

Misouri Valley "Big Six"—Nebraska, by beating Missouri, tops list with two conference victories.

Southern Conference—Georgia Tech, Tennessee and Clemson, with three victories and no defeats, grouped at top with Vanderbilt and Florida, each with two conference triumphs.

Rocky Mountain Conference—Colorado College, with three victories and no defeats, closely pressed by University of Utah, also undefeated as result of successive triumphs over Colorado Aggies and University of Colorado.

Pacific Coast Conference—Stanford and Southern California in big game this week after temporary lull. Both rolled up easy victories Saturday while California, third title contender, lost to Olympic Club.

Soldiers' Field, Cambridge, Mass., is surrounded by a dreary, dilapidated stadium; from factory chimneys near it long pennants of smoke twist in the wind and mark the low sky. Into the stadium last week there drifted a drooling drizzle and a cold, odorous draught. North Carolina, accustomed to warm blue afternoons, grew as stiff as a dying hare. Harvard backs called Gilligan and French fooled Carolina ends called Sapp and Presson so well that Harvard won 20-0.

As elusive as a god, Chris Cagle of the Army tempted Providence to catch him while he, proceeding in a mysterious way, kept out of reach. Chris Cagle, together with his soldiers, scored 44 points and made Providence seem inadequate.

Dartmouth climbed Allegheny 37-12, Marsters having the best legs.

George was the only team which chewed Yale last year. Yale's Garvey scored twice on long runs last week; Georgia succumbed 21-6.

Columbia's Kumpf, Liflander and Scott kept coming at Wesleyan's Sigafoos, Silloway and Schwenk—for 65, 80 and 89 yards respectively. There was no loubt that Columbia won 31-7.

Bucknell's Halicki covered his ugly broken nose with an even uglier protective framework. He then proceeded to make a touchdown, destpite Penn State's wild Wolff, who came scampering and sniffing in his tracks.

Strong and Nemecek, chiefly, enabled New York University to crush Fordham 34-7. Pieculewicz made Fordham's only score. Magpie N. Y. U. students pulled dtown the goal posts.

Rutgers died for Holy Cross 46-0.

Princeton and Virginia came to naught to naught.

Herbert Hoover, Jr., Vice President Dawes, Mayors Walker of New York City and Thompson of Chicago, Secretary of the Navy Wilbur, Governor Len Small of Illinois, were a tiny fraction of the largest crowd in U. S. football history (117,000) that sat at Soldier Field, Chicago. They saw Colerick take a pass from Niemiec, causing Notre Dame to sink the Navy 7-0.

When Mayes McLain, Cherokee Indian, played for Haskell he scored 253 points in the 1926 season. Last week Mayes McLain kicked, passed, plowed, ran, bowled over, tackled, for Iowa. Mayes McLain carried the ball 22 times for an average gain of five yards. Thus Iowa licked Chicago 13—0.

Wisconsin took on Cornell College (Iowa) and Dakota Aggies on the same day, drubbed both of them.

Montana's substitute Worden picked up a fumble and scampered 99 yards for a touchdown. But Nebraska won, 26-6.

While California was nosing out Washington State, California's southern branch was being trounced by Stanford. Still another institution, the University of Southern California, defeated St. Mary's 19-6.

Georgia Tech, many times the comet of the South, won from Tulane, 12-0.

Vanderbil out-tussled Texas 13-12.

*BROADCASTING . . . . the Blindfold Test*

# GRAHAM McNAMEE

*announcing*

BRAND No. 1 . . . "doesn't appeal to me" — BRAND No. 2 . . . "we'll waste no time over this" — BRAND No. 3 . . . "as smooth as a winter broadcast" — BRAND No. 4. . . . "full of static . . . *No. 3 wins!*"

*On the afternoon of July 24th, Graham McNamee, in the presence of responsible witnesses, made the blindfold test before the microphone. A camera and a stenographer recorded the result.*

"This is Graham McNamee speaking . . . broadcasting the results of the blindfold cigarette test. They are tying the blindfold around my eyes and are going to give me one each of the four leading brands to choose from . . . I am now smoking the first cigarette . . . The taste doesn't appeal to me. It's a bit harsh. We'll lay that one aside and try No. 2 . . . No, that's worse than the first one. We'll waste no time over that . . . Well, here's No. 3 . . .

Ah, that's different! As smooth as a broadcast on a starry winter's night . . . Now, No. 4 . . . something wrong with this one. Don't know what. Seems full of static. I'll choose No. 3.

"Ladies and Gentlemen of the Radio Audience, I have just learned that my choice [No. 3] is an OLD GOLD."

## PHI KAPPA TAU HOLDS HALLOWE'EN FROLIC

### Local Chapter Puts On New Innovation

Eta Chapter of Phi Kappa Tau held a novel Hallowe'en dance at the House on Wednesday evening, October 31st. The House was attractively decorated in true Hallowe'en fashion, there being an abundance of pumpkins, corn shock, and vari-colored leaves, all interspersed with grotesque lighting effects, the whole producing an awesome and fun inspiring spectacle. The dance was run on a "hard times" basis, "here comes the novelty, thats is every-one wearing clothes "much the worse for wear." The music was furnished by the Varsity Crew orchestra under the leadership of "Iseg" Blamberg.

The committee consisted of the following men: Warren Seiple, chairman, John Helwig, Charles Saul, and Jack Evans. The chaperones were: Mr and Mrs. A. W. Day.

Dancing and old-fashioned games took up the majority of the time and after the refreshments the orchesta put on a special skit and wound up the evening by playing "Then Came the Dawn".

**It Did**

Rastus and his wife, driving to town in their decrepit flivver, had parked it casually in the first available space. While they were away a traffic officer attached a numbered tag to the vehicle for parking in prohibited zone. On their return, Rastus noticed the tag and was for throwing it into the street, but Rebecca restrained him.

"Sabe de ticket, honey," she said. "Dat number might win sumthin'."

**Grew Careless**

"Yes, I used to be in politics myself. I was dog-catcher in my town for two years, but finally lost my job."

"What was the matter—change of mayors?"

"Nope. I finally caught the dog."—American Boy.

**Landed His Passengers**

Prospective Employer: "Why did you leave your last place?"

Chauffeur: "My guv'nor and his wife fell out, sir."

Employer: "Fell out?"

Chauffeur: "Well, if you must know, sir, they fell out of the car."—London Opinion.

## *Who's Who on the Campus*

**Henry V. Scheirer**

Attorney H. Victor Scheirer is one of 'Berg's dignitaries. The humble little town of Fullerton, in our own Lehigh County, reluctantly gave him to us. Henry is the slim, handsome person who aids in furnishing our college with its air of refinement and tradition. It really is fortunate that he is so constituted; for Mr. Scheirer certainly has done his share in advertising Muhlenberg. A debater of experience, one of our Tau Kappa Alpha men, Henry combines sense and nonsense in a very pleasing and forceful fashion. Thus especially in the line of formal public speaking has he repeatedly brought honor to our alma mater in various oratorical contests. The same voice that has thrilled forensic audiences, has been a potent unit in our Glee Club. Incidently, the Glee Club helps to supply opportunities to satisfy Henry's social cravings,—cravings not so easily gratified.

Vic is an ardent(?) student of history, a member of the history club. He is possessed of real dramatic talent that has not yet found an outlet at 'Berg. He is an enthusiastic Luther League leader, the present president of the Allentown District. His varied activities in this particular line have created a demand for Scheirer as a public speaker.

Vic's greatest troubles are found in squandering his lavish income, writing ethics reports and getting to class in time. Henry is said to have such a large interest in the Traction Co. that all cars leaving Fullerton at 8:30 A. M. or thereabouts are ordered to stop at the Scheirer homestead and wait until Vic has eaten his morning repast.

Seriously, Henry shows abundant possibilities. At present it would seem that Law should claim him. But the future may, perhaps, see him following in the footsteps of Al Smith. His only handicap in this field would be that Henry is a Lutheran.

**Time to Change the Subject**

The respondent was being examined in lunacy proceedings.

"Who was our first President?" asked his counsel.

"Washington."

"Correct. What was our second President?"

"John Adams."

"Correct."

Then there was a pause.

"He's doing well," whispered a friend of the lawyer. "Why don't you keep on?"

"Ain't sure who was the third president myself."—T. Piltington, Oakland, Calif.

Father: "Now I'm giving you a good job in my mill. I want you to work your way up."

Son: "But, Father, there's no future in it. I want to work in some place where I can marry the owner's daughter."—The Enamelist.

**Pressed**

Bridget (weeping): "Some one told my Pat that he could get his pants pressed by allowing a steam roller to run over them."

"Well, what of it?"

"Pat forgot to take the pants off.—Witt.

## MULE 'N BERG

(Continued from Page Two)

Mule: O. K.; but are sure she's old fashioned.

Berg: She must be. She takes the cigarette out of her mouth before she pulls the night gown over her head.

Mule: Please, please, I don't feel in the mood for joking. My poor father just died a few days ago.

Berg: That's too bad Mr. Mule. I'm terribly sorry; and what was the cause of your father's death.

Mule: He died from a broken neck due to lumbago.

Berg: Nonsense. How can lumbago produce a broken neck?

Mule: Well, you see the nurse rubbed his back with pure grain alcohol.

Berg: Yes—

Mule: —and he broke his neck trying to lick it off.

Berg: How's your old Ford coming along?

Mule: That was a rattling good car but I got another now.

Berg: Six or eight?

Mule: No, one was enough.

Berg: Would you like to take a drive with your girl to see the meteors at night?

Mule: Meteors? What do you mean by a meteor?

Berg: Why, Mule, don't you know what a meteor is? A meteor is a star with a tail.

Mule: Oh yes. You are referring to Rin Tin Tin.

Berg: No, no. You don't understand. I mean did you ever see a shooting star?

Mule: Oh, certainly, certainly! Just the other night we saw Tom Mix in 'Cement'.

Berg: You're impossible Mule. I must be going. By the way, what was the assignment in Religion for tomorrow?

Mule: Begin on page 32 in the chapter on 'Purgatory' and go to 'Hell'.

Berg: Thanks much. S'long Mule.

Mule: Farewell, Berg. Farewell!

**His Care Explained**

"I've been watching that mechanic for the last fifteen minutes. There's a man that knows his business. He didn't spill a drop of oil on the ground. He put down the hood gently, fastened it securely and left no fingerprints on it. He wiped his hands on clean waste before opening the door, spread a clean cloth over the upholstery, meshed the gears noiselessly and then drove slowly and with caution into the street."

"Yeah. That's his own car."—Life.

## REV. WILKER ADDRESSES STUDENTS IN REGULAR ASSEMBLY

### "The Duty of Intelligence" Is Stressed Through Medium of Proverbs

Students of Muhlenberg College who gathered in general assembly Friday morning, January 11, had the privilege of listening to the well-known Rev. Wilker, who spoke on the timely subject, "The Duty of Intelligence."

His speech was based on the great proverb: Wisdom is the principal thing; therefore, get wisdom, and, in getting wisdom, get understanding.

Throughout his talk Rev. Wilker gave saying after saying, all of which were highly illuminating and impressive.

"Wisdom," he went on to say, "is the highest thing—strive for it."

In answer to the question: "Is wisdom worth getting?" Rev. Wilker quoted Huxley as stating that "the world is governed by ideas" and elaborated the thought quoted with the statement, "Man is more than a mechanism concerning the senses."

Furthermore, "it is rare indeed for a man to make his attainments equal his responsibilities.

"Wisdom is knowledge made our own and properly applied.

"To make it our own we must have:

1. The element of thinking;
2. The element of learning; and
3. The element of assimilation through service of knowledge.

"Service," said Rev. Wilker, "is directly paid in life."

However, "there is too much misdirected energy in the world.

"Some people are headed for the right place but fail to move.

"Don't be a ship without a rudder. By rudder I mean knowledge, and all knowledge, all truth, comes from God, the fountain of purest truth being in the Bible. Nevertheless, the Bible isn't the only source of religion for science must also be consid-

(Continued on Page Three)

## PAN HELLENIC FORMAL AT MEALEY'S FEB. 1ST

### A Closed Dance To Fraternity Men Promises To Be A Big Event

The annual Pan-Hellenic formal dance will be held on Friday evening, February first, at Mealey's auditorium. In previous years it has been held in the ballrooms of various hotels throughout the city, but on account of the number attending, it has been necessary to engage a larger floor. This dance will as usual be a closed affair, open only to the fraternity men of Muhlenberg and alumni.

The committee has been extremely fortunate in securing Dan Murphy's Musical Skippers, an orchestra of eleven men, to furnish the music for the occasion. This well-known orchestra alone is an incentive to large attendance.

Those invited as chaperones for the affair are as follows: Dr. and Mrs. I. M. Wright, Frof. and Mrs. A. C. H. Fasig, and Dr. and Mrs. Preston A. Barba.

A committee of three men has been appointed by the Pan Hellenic Council to take charge of all arrangements. They are: Frederick Drewes, Phi Kappa Tau; Howard Miller, Phi Epsilon; and James Lansche, Delta Theta.

**BASKETBALL SCHEDULE**

Jan. 12—Muhlenberg, 31; Ursinus, 25.

Feb. 23—Drexel, home.
Feb. 27—F. and M., away.
Feb. 28—Lebanon Valley, home.

## PHILOSOPHY CLUB MET AT HOME OF REV. STINE

### Religion Is Not Lost By Young-Men and Women Is Brought Out

The Philosophy Club held its bi-monthly meeting at the home of Rev. Russell Stine, 539 North Howard St,. January 9th.

After a brief business meeting the discussion on "What do I know of Christ" was begun. It was surprising to hear the ideas which the college students held. Surely, if one of those who talk of "the younger generation" could have listened in on one of these typical college "bull-sessions," he would soon decide that religion has not lost its appeal to the young men of America. After a true disclosing of their concepts of Christ, the members decided that they would discuss "Fatalism and Predestination" at their next meeting. It is with great eagerness that the members look forward to this discussion.

One of the important business decisions reached was to have a charm in the form of a key, thus placing the club on a par with the other clubs on the campus. A committee consisting of Messers. Walter P. H. Conrad, James Lanshe, and Richard Miller, was appointed. This committee was instructed to draw up a design for the key and present it at the next meeting for consideration. Another decision was to close the roll at fifteen members. Thus with this

(Continued on Page Three)

## WEEKLY TO BE HOST TO I. N. A. DELEGATES

### Twenty-six Delegates Will Be Present At Semi-annual Convention in Spring

The Intercollegiate Newspaper Association, of which this publication is a member, is going to hold its annual convention in this city on the 3rd, 4th and 5th of May. Dr. Haas, Dr. Curtis (Pres. of Cedar Crest College), and Dr. W. C. Lee (New York University), who is executive secretary of the association, will address the convention.

The "Muhlenberg Weekly" and the "Crestiad" (Cedar Crest's bi-weekly) are to be the hosts to a group of delegates representing twenty-six of the larger colleges in Pennsylvania and vicinity. New York University, Rutgers, and the University of Delaware are the only members of the association outside of the state. Each delegate is the Editor in Chief or the business manager of the paper published by the college from which he comes.

The program of the convention follows:

Friday, May 3, 2 P. M.—Registration at Muhlenberg. Business Meeting.

Sat., May 4, 9 A. M.—Business Meeting at Cedar Crest. (Election of officers). 4 P. M., Tea Dance at Cedar Crest. 7 P. M. Banquet.

At the banquet on Saturday night, Dr. Haas and Dr. Curtis will give a joint address of welcome. Other speakers on that occasion will be a representative of the Associated Press and the editor of a leading New York daily paper.

The subjects under discussion at the business session of the convention will include these:

Finance,
Staff organization,
General plan of the paper, and
Problems.

The committee in charge of the convention is:

Earle Winters, Chairman.
Charles Meiers.
Elmer Hoffman.
Eloise Howell (Cedar Crest),
Catherine Sweeney (Editor-in-chief of the "Crestiad").
Adeline Bucher (Crestiad).

The staff requests the cooperation of the student body in welcoming the delegates.

## DR. HORN REPRESENTS BERG AT CONVENTIONS

### Chattanooga Is Scene of Two Education Meetings During Past Week

Dr. Robert C. Horn spent the past week representing Muhlenberg College at two conferences held in Chattanooga, Tennessee. The first conference, The National Lutheran Educational Conference was held January eighth and ninth with Dr. Horn acting in the capacity of a speaker. The second took place January tenth to twelfth being held by the Association of American Colleges. Both conventions made their headquarters at the Hotel Read in Chattanooga.

In his speech at the Lutheran Educational Conference, Dr. Horn brought to light the following ideas in regards to the teaching profession: Instructors in the different schools should have regular conferences among themselves and discuss the different problems confronting them. By this means the teachers could help one another. The various heads of their several departments should visit their classes and through advice and the visitations they could establish the work in the department.

After talking upon the elementary schools Dr. Horn then turned his attention to the work of colleges. "Colleges should encourage graduate work on the part of their students," said the speaker. "By means of such work the teaching profession could draw on a better grade of teachers."

After dwelling at great length on the elementary schools the subject of college professors was taken up. Dr. Horn stressed the point that an educational institution should grant expenses to a professor so that he could attend the meetings of learned societies to which he himself or the whole school may belong. At these meetings the representatives of the various institutions should present papers to be brought up for discussion. Sabbatical leaves should be granted to professors so that they could be given the opportunity to do graduate work or do research work. A release from the routine work of the class room work should be granted so that the instructor could devote some time in research work. With a summary Dr. Horn concluded his portion of the program.

From the tenth to the twelfth Dr. Horn represented Muhlenberg at the

## DR. SCHAEFFER MEETS MINISTERIAL GROUP

### Talks To Students on Interesting Subject, "The Ministry Today"

The Ministerial group held its monthly meeting in the College Commons last Tuesday evening. Reverend William C. Schaeffer, D.D., pastor of St. John's Evangelical Lutheran Church in Allentown, was the speaker for the evening and spoke very forcefully on "The Ministry Today."

Reverend Schaeffer dwelt largely on the work of a minister and confined illustrations and examples to the kind of work that he has been doing in his own Church and community. He explained that there were four thousand unchurched people in his territory and he appealed to the students, particularly those studying for the ministry, to work with him in this field. This, Dr. Schaeffer explained, would be doing a great service for the city as well as a great deal of good in preparing the student for his future work.

Dr. Schaeffer spoke to the group in an informal way and related many interesting experiences which he has dealt with since he has been in his field at St. John's. The interesting material brought before the group of young students and the manner in which it was presented caused the meeting to be pronounced the best of the year.

## CAMPUS WITNESSES RISE OF SOCIAL GROUP

### Wite Kote Klub An Organization Of Healthy Vitual Vendors

Having reached such a point both in number and prestige as to justify organization, the spiritual group of waiters and the kitchen force of the illustrious Muhlenberg Commons have united into a formal band which will hereafter be known as the "Wite Kote Klub". At their first meeting, held on Monday night, December 12, at 6:30, they elected the following officers: Frederick Drewes, President; Solon Phillips, Secretary-Treasurer; Howard Vincent and Samuel Savago, Sargents-at-Arms. To add to the spirit and interest of the group, a committee for the conducting of programs was immediately apointed by the newly-elected President. Displaying a rare bit of judgment and keen analyzing of individual abilities, Mr. Drewes soon had drawn up this most promising committee; Walter (Dutch) Loy, Chairman, Ralph Kiefer, Dank Giltner, and Mickie Weiner. Atwood ("Al") Smith, who has frequently displayed a very intimate knowledge of Parliamentary proceedings, was appointed a committee of one to draw up a constitution.

Although the group is not an honorary one, by the most peculiar of all strange coincidences it is found to contain most of the great minds of Muhlenberg College. One glance over the list of members will convince the most dubious that the Wite Kote Klub has much upon which to pride itself. Among its list of scholars are found St. Clair Davidson, Russel Levan, and Solon Phillips. Its list of footbal' stars is even more lengthy, including: "Gloomy" Frazier, All-American End; Mickie Weiner, who starred at half; Dank Giltner, Howard Vincent, pugnacious roving-cenetr; Savage Savago, whose appearance alone is enough to cow the opponents; and St. Clair Davidson, All-American Draw-back. By far its greatest influence is to be seen and felt in the realm of Track. Its cinder-burners have established many enviable records to be aimed at by the future great. There is the great half-miler and cross-country runner, Russ Levan, who has yet to lose his first race; there is the great mimic of the wing-footed Mercury, Davidson, who represented Canada in the recent Olym-

(Continued on Page Three)

## ENGLISHMAN FOILS GRAVITY

### American Scientist Explains This Phenomena

A young English scientific worker, one R. H. Tate of West Hartlepool, Durham, last week summoned witnesses into his laboratory's secrecy, showed them a sheet of aluminum-like metal on the floor, held a similar piece in the air above the other, removed his hands. The upper piece remained poised in the air. Obviously gravity was being foiled. But how, the young man would not explain.

At Atlanta, Ga., Sergius P. Grace heard of the Tate report. A vice president and department head of Bell Telephone Laboratories Inc., the research bureau of the Bell Telephone system and the Western Electric Co., Mr. Grace was at Atlanta for the regional convention of the American Institute of Electrical Engineers.

Without ado he placed a piece of magnetized cobalt steel on a table and in the air some distance above it placed another similar piece. The upper one remained balanced without mechanical support. His explanation was simple: one end of a magnet is positive, the other negative; with two magnets the positive of one attracts the negative of the other, the positive and negative of one repel the positive and negative of the other; cobalt steel can be so highly magne-

(Continued on Page Three)

## WHAT WE MEN THINK 'IF I WERE A GIRL"

'I'd treat men, if I liked them, as though they were men and not little boys who I thought might ask me to go to the movies if I let them kiss me," says Eric Hatch in the February issue of College Humor. "I'd be pretty careful whom I kissed, but I'd let every man I liked get an idea he could kiss me if he was clever. I'd let him keep the idea till he tried and then if he tried hard enough in a nice way I'd probably let him—in a nice way. I think I'd be just low enough to try and make them think there wouldn't be anything on earth quite as snappy as having me around the house when they came in tired. I'd make them comfortable, act glad to see them and feed them and give them cocktails and things.

"I think I'd read a lot, if I were a girl. I wouldn't go out every time somebody asked me to; my complexion couldn't stand it. I'd never make the mistake of staying at three parties in a row so late that I came out on the fourth day looking like a paste flower with black-rimmed eyes. Not on your life I wouldn't. I wouldn't come out on the fourth day.

"I'd wear clothes that came from smart shops and if they didn't and looked as if they might have, I'd hook some labels and sew them in. In summer I'd wear frocks that men would call lovely and women would call catenish. They would be polka dot and starchy about the neck and quite, quite low. I would try to avoid the fetish of thinking I couldn't wear certain colors, particularly if some man said he liked me in them.

(Continued on Page Three)

## "A NEW YEAR'S HOMILY" WRITTEN BY DR. HAAS

### A Poem of Eleven Verses Composed by President Contains Many Platitudes

In keeping with the season of the year Dr. John A. W. Haas, our President has written the following verses:

A NEW YEAR'S HOMILY

in rhyme and reason for the common mind which enjoys Edgar Guest's daily platitudes by John A. W. Haas.

The closing year has passed away
For hurrying time brooks no delay;
Now let us sit, and think and plan,
To do the very best we can.

What is the best that we can do?
How shall we make this year e'er new?
And what shall be our aim and end
As to our daily tasks we tend?

In wisdom we can find true life,
To free from destructive strife;
All knowledge and all truth are vain
Unless true wisdom they contain.

Ideal righteousness and peace
Are to be kept without surcease,
If personality shall grow,
On us all virtues to bestow.

One spirit only ought control
To give us manhood sound and whole,
For one thing counts all others above,
It is the attitude of love.

Love keeps us honest, makes us pure,
Holds us from every vice secure;
Leads us to dare to do the right,
To lead in every noble fight.

In common work and common joy
No evil ought our life destroy;
But, friends and brothers, we should strive
At the best purpose to arrive.

Living within college walls,
And knowing academic halls,
Our acts should seek the highest deed,
Far from all selfishness and greed.

A noble loyalty without gain,
That bad fault-finding can't contain,
Should lead us on, should us inspire,
To raise our college ever higher.

(Continued on Page Three)

## URSINUS BEARS BOW TO CARDINALS IN OPENING BATTLE

### Game Tied At Finish But Berg Tossers Crash Through in Extra Period

In one of the most hectic battles ever witnessed on the Y. M. C. A. floor, Muhlenberg opened what promises to be the best cage season at the local institution, by a victory over Ursinus, who previously defeated Lafayette and tasted defeat at the hands of Lehigh. The score stood 14-12 in favor of the Muhlenberg five as the first half ended, and marked a close battle all the way through, with Muhlenberg holding a scant lead. The victory was never sure and the lead see-sawed back and forth until the final gun found the teams tied at 21 up. After a brief rest the teams lined up for the extra five decisive minutes to play.

Wackernagle proved to be the scorer who upset the Ursinus crew as he sent two field goals through the net and also scored twice from the fifteen foot mark. Kaltreider, who had played brilliantly during the entire game, also scored from the field and the final points for Muhlenberg were scored as Ulrich jumped a field goal in from a tap under the basket.

During this scoring spree Ursinus was being left in the rear, getting but four points to 'Berg's ten.

Smith showed up very well on the defence and besides that was very steady on long shots, dropping four of them through the ropes during the regular time of play.

The fine showing of the reserve material was a cheery sight to coach Benfer, who has been working hard for the season's opening, laying his faith in the team as a unit, rather than a combination of stars. This was shown in the victory over the Ursinus Bears.

(Continued on Page Three)

## DR. REESE PAYS VISIT TO POTOMAC

Among the enthusiastic rooters who came with the Shepherd Normal School team when State played Potomac, October 20, was our former professor of science, Dr. W. H. Reese. He is beginning his second year at Shepherd and is thoroughly pleased with the work and environment of the normal school. He had organized extension classes at Martinsburg and Charles Town all of last year and he found the lecture courses extremely interesting.

The enrollment at Shepherd this fall is one hundred eighty-six, a slight increase over that of last year, and Dr. Reese is very optimistic about the growth of the school and the service rendered to the state in the pedagogical methods offered for instruction.

## THAT MISLEADING NAME, "COLDS"

No human ailment affects so many people as does the cold. Under this misleading name "COLD" the mass of humanity lumps a whole group of disturbances in the lining of the nose, throat and bronchial passages, and in the eyes and head. Medical science is still uncertain about many facts relating to this group.

The popular notion that a cold is more or less inevitable and that it is caused by exposure is radically false. We know the bedrock facts at the start.

1. Most, if not all, colds are due to infections. Exposure is not the cause but merely one predisposing factor.
2. They are not inevitable just as scarlet fever and mumps are not inevitable. You need not take cold if you take care.
3. While not serious in themselves "COLDS" so often lead to chronic and even fatal diseases and they should be distinctly regarded as dangerous along with influenza, diphtheria and pneumonia.

### The Rules For Avoiding Colds

The first rule is the paying attention to the dominating matter of food. Moderation in diet and regular bowel action will prevent most colds. So long as the body digests and assimilates normally and succeeds in thorough elimination, exposure to infection or drafts will usually prove harmless. With good digestion, elimination and circulation, you may even live amid sufferers from colds and escape "catching" their miseries.

A habit of healthy outdoor exercise is the second most important influence in general prevention. Vigorous circulation of the blood, increased oxygenation means more complete removal of wastes. Also they cause increased powers of resistance to fluctuations of temperature.

All special precautions without this foundation become largely ineffective. We may summarize this subject to avoid colds:

a. Avoid infection.
b. Keep digestion in order and untaxed.
c. Eliminate body poisons thoroughly through bowels and skin.
d. Maintain outdoor exercise, cleanliness and skin stimulation.
e. Breathe deeply and only through the nose.
f. Do not stay chilled, particularly when tired.
g. Keep the feet warm and dry.
h. Avoid dust, overheated rooms and very heavy clothing.
i. Give the body, especially the back of neck and feet a cold bath or sponge each day.

—W. S. Ritter.

### Muhlenberg Third in Adult Education Field

Next to State College and the University of Pittsburgh, Muhlenberg College takes rank in that excellent college extension work which has become such a feature of modern college activities.

State College which advertises very widely for the dissemination of the courses has an enrollment of something like 4652, including many agricultural students. Muhlenberg, with a far more restricted field, has 982 men and women engaged in improving themselves in hours apart from their daily vocation. The University of Pittsburgh has 1590.

The University of Pennsylvania is next to Muhlenberg with 811 students in such courses while Temple University stands fifth with 547.

Adult education has come to be one of the leading developments in our modern educational system. It is a satisfaction to note that Muhlenberg stands so high in the number of persons concerned in and favorably affected by her efforts.

—Editorial appearing in Allentown Morning Call, Dec. 21, 1928.

## ALUMNI NOTES

T. K. Miller, '21, left New York January 10th, and circumnavigated Africa, stopping at all the important cities on the east and west coast. Mr. Miller was commissioned by the Firestone Company to establish distributing stations for their products.

He will return to New York November 1, and will continue his work in the Firestone export department, Akron, O.

Mr. Miller spent his first collegiate year at Thiel. During that time he was prominent in campus activities, having been a cheerleader, a member of the Men's Glee Club, and several other organizations. He was a pledge of Delta Sigma Phi fraternity.

### Art is Long

Lady at door: "So you're taking subscriptions to pay your way through college? You look pretty old to be going to college."

Solicitor: "Oh, I've already been through, lady, but I'm still paying for it!"—K. C. M.

### TEMPLE UNIVERSITY
**1929 Brings Strides in Building Program**

A new School of Medicine will be erected. It will be six stories in height and contain ample room for exhaustive research work. The Cromwell Memorial Gates will be erected at the entrance of the Professional Schools which will be greatly improved and extended for the fall term. These buildings are largely made possible thru gifts of alumni of the institution.

### IOWA DEBATERS GOING TO ENGLAND

The University of Iowa will send a debating team to England in May according to an announcement made by Prof. A. Craig Baird, of the Department of Speech and director of debate. The team will meet seven or eight of the representative English universities including London, Edinburgh, Oxford and Cambridge.

The trip will be made under the auspices of the National Federation of America, which has charge of all international debates. The Iowa team will officially represent all the colleges and universities of America. The purpose of the debates is to foster a closer relationship between Great Britain and the United States.

—Iowa Alumni News.

### RUTGERS UNIVERSITY
**Students Take Measure to Insure Spread of Influenza**

Every man that feels the slightest touch of a cold immediately takes measures to insure himself against the possibility of not getting it. With the prospect of another vacation, as soon as enough cases appear, each prospect is hailed and acclaimed by his associates, commiserated with and made to feel as sick as possible; and then, if the result has been favorable, is sent to the doctor while he is still groggy and weak. As they notice their friends and roomies dropping under the dread malady men in perfect health suddenly feel chills and fever approaching. And with nothing in their minds but thoughts of self-sacrifice for the good of mankind they tell whomever they meet that the dreaded flu has conquered another student.

### HAVERFORD COLLEGE
**Chang, Grad. Student, Saw Battles In Canton While Studying in 1925.**

To see thousand of his country men ruthlessly slain by Nationalistic gun boats, his closest friend and companions killed by drunken soldiers, and having to go about in a hostile community incognito, are but a few of the experiences of Su-Lee Chang, a graduate of Harverford. With his brother Samuel H. Chang, '24, he is preparing a book on China and her problems. With his first hand information and natural ability this book will not only prove interesting but very educational. The book is in four parts, the first being a brief study of China thru the last several thousand years and a commentary on the causes of the recent civil wars. The second part deals with Nationalistic China, the party's history and the present unification of China under Nationalistic regime. The third section reviews the Communist party an the distinction between it and the Nationalists, while part four takes up the problems confronting China to-day.

We hear and have heard much discussion about R. O. T. C., pro and con. This is one side of the argument.

### PICKED PARAGRAPHS

Why do students join the R. O. T. C? From an ideal viewpoint, they join because they know they owe a service to the state and national governments....

There are other reasons that prompt enrollment in the cadet corps. Everyone will agree that leadership is one of the essential qualities of a successful man. Where in the entire University can you find a course other than R. O. T. C. that teaches leadership? There aren't any.... In what other single course are you taught personal hygiene, physical training, first aid, and discipline?

In the advanced course, a fuller education is obtained. Military history, law, military administration and orders, which is the basis for business administration, are taught. More important, honor is instilled. In my two years in the advanced course, there has never been an instructor present during an examination, and I have yet to see my first case of cribbing. In what other course could you find that?—Harry C. Thoma, in The Wisconsin Alumni Magazine.

### LAFAYETTE
**$60,000 Donated by Two Alumni for College Projects**

Of the two gifts one is a $25,000 endowment of the infirmary and the other divided into two parts, $25,000 for erecting a new dormitory system and $10,000 for a new heating system. These gifts are very timely as the college is in dire need of added facilities in nearly every branch.

**Lafayette Rates Third in Carnegie Tests**

Dr. Lewis announced to the student body that Lafayette took third place out of 47 colleges hat were included in the Carnegie examinations some time ago. This is a great honor for the college and shows that its scholastic standing is equal to any in the state.

### UNIVERSITY OF PITTSBURG
**Symbols for Universities**

Some symbols representing all the outstanding universities will be placed in the great Commons Room of the Cathedral of Learning at Pitt. One of the most outstanding symbols up to the present time is a stone from the University of Cracow, which was the alma mater of the astronomer Copernicus, who attended Cracow in the latter part of the fifteenth century.

Customer: "Does this porcelain egg serve its purpose?"

Grocer: "It can't be beat."

*Lights that Fill the Skies with Commerce*

THE air map of America is now in the making—on the ground.

Ten years ago, there were 218 miles of air mail routes with two station stops; to-day, a network of sky roads bridges the country from the Atlantic to the Pacific and from Canada to the Gulf of Mexico.

Can you imagine this growth without electricity—without illuminated airports—without trunk lines studded with electric beacons?

Men of vision are building for increasing traffic of the air. Soon, the skies will be filled with commerce.

Just as electricity is helping to conquer the air, the land, and the sea to-day, so to-morrow it will lead to greater accomplishments in aviation and in every human activity.

A majority of the beacon lights used in airport and airway illumination have been designed and manufactured by the General Electric Company, whose specialists have the benefit of a generation's experience in the solution of lighting problems.

## SPINAL COLUMN

**Axis**

Prof. Simpson: Malvern, your last paper was very difficult to read. Your work should be so written that even the most ignorant will be able to understand it.

M. Schneck: Yes sir. What part didn't you understand?

—

**Axle**

"Scotty" calls his old aunt, Democracy, because the world is safe for her.

—

**1st Cervical**

"Why don't you put on your slicker?"

"I can't. I got a book in one hand and it won't go through the sleeve."

—

**2nd Cervical**

"No, Poke, a dogma is not a mamma dog."

—

**3rd Cervical**

"Where did Ezekiel get his prom girl?

"Don't know, but it must have been in one of those blindfold tests."

—

**1st Thoracic**

They call him O'Sullivan, because he's such a heel.

—

**2nd Thoracic**

"Which would you rather be, an oyster or a college student?"

"A college student, of course. The oyster only gets stewed once in a life time."

—

**3rd Thoracic**

"Do you suppose this shaving lotion will burn in my cigarette lighter?"

"It ought to, it burns your face".

—

**1st Lumbar**

"I wonder what makes all Scotchmen such humorists?"

"It must be a gift."

—

**2nd Lumbar**

I can stand all the slurs on myself
Which question my good sense and knowledge,
But this is the one I have shot people for:
"Do you work now, or still go to college?"

—

**3rd Lumbar**

There's nothing more pathetic than a horsefly on a radiator.

—

**1st Sarcrum**

"But you know, Helen, you really shouldn't play strip poker."

"Oh, Dutch, it's all right really. It's not gambling."

"What!"

"No, you see, we get our clothes back."

—

**2nd Sarcrum**

"I hear Muhlenberg is closing for a week on account of the flu."

"Say, don't you think that's going a little too far with your jokes?"

—

**3rd Sarcrum**

Dr. Wright: "Explain the causes of perspiration and what effect it has on the body?"

Fernsler: "Perspiration is caused by Bill Ritter's Gym classes and it makes a body damned sore".

—

**Coccyx**

Shorty Edwards says a pedestrian is a girl who won't neck.

### BECAUSE I ROAMED

Because I roamed through trails of colored light
And looked to distant dusky hills of gray,
Heard music in the flash of bird wings bright
And felt a clean wind sweeping on its way,
Because within an aster, fringed wild flower,
I saw a star of Heaven awake and start,
I can give thanks for deeper faith and power,
And Beauty lives enshrined within my heart.

—"T", '30.

**Not So Dangerous Then**

"Girls were harder to kiss in your day; weren't they, grandpa?"

"Well, mebbe; but it wasn't so blamed dangerous. The ol' parlor sofa wasn't apt to smash into a tree jest about the time ye got all puckered up."

### WHAT WE MEN THINK "IF I WERE A GIRL"

(Continued from Page One)

"If I were a girl, I suppose, being a sentimentalist at heart, I'd fall in love some time and when I did I'd fall so hard you could hear me bounce! I wouldn't let The Man know it though, I'd make him suffer and go through agony and treat him like dirt and then, when I finally let him suspect that there was something about him that appealed to something in me he'd feel so surprisedly grateful that I could soak him on the spot for practically anything I wanted.

"I wouldn't always tell the truth, if I were a girl, because that would be disloyal to my sex, and after all, a girl's got to be able to be polite, but I would not lie either. I'd make up fairy stories and maybe fib a little when it was necessary. Then when I got to be somebody's sweetheart I wouldn't tell a lie for anything, because men don't like girls to lie to them unless if they tell the truth it will hurt.

"I'd be pretty nice to the man I loved. I'd kiss him good night always and remember to squeeze his arm after he'd squeezed mine for the last time, unless I was afraid this would end up in a sort of retaliation thing that would keep me up all night."

### PHILOSOPHY CLUB MET AT HOME OF REV. STINE

(Continued from Page One)

number of members, the club hopes to go through the next term pondering on the vital questions of life, discussing them, and finally arriving at what might be called the "student's philosophy of life." With such an ultimatum in mind the club is assured of success.

"Say, Mabel, may I come over tonight?"

"Sure, John, come on over."

"Why, this is not John."

"This isn't Mabel, either."

### DR. HORN REPRESENTS BERG AT CONVENTIONS

(Continued from Page One)

Association of American Colleges Conferences in the same city as the first. The theme of this conference was "The College Teachers." Questions were discussed as to teachers in service and those preparing for the teaching profession.

The annual Conference banquet was held at the Hotel Read. The Hon. Vincent Massey, minister of Canada to the United States, was the principal speaker of the evening. Throughout his talk Hon. Massey compared the American and Canadian training of teachers as college students and as instructors.

The leading social event of the conference was the motor excursion to Lookout Mountain, better known as the "Battlefield Above the Clouds." The Chickamauga battlefield was also visited.

### ENGLISHMAN FOILS GRAVITY

(Continued from Page One)

tized that its repellent power can support a relatively large weight against the pull of gravity.

But this is not eliminating gravity, as Englishman Tate last week declared that he had done. No scientist yet knows just what gravity is, and until someone does know, it cannot be overcome.

### "A NEW YEAR'S HOMILY" WRITTEN BY DR. HAAS

(Continued from Page One)

Striving for victory in class, on field,
To none at all the palm we yield;
We, men of Muhlenberg, one band,
Should walk as brothers hand in hand.

But all our hopes shall come to naught,
An unfulfilled be every thought,
Unless we seek the heavenly power,
And walk with God from hour to hour.

### CAMPUS WITNESSES RISE OF SOCIAL GROUP

(Continued from Page One)

pics at Amsterdam; there is "Butch" Balthaser, whose legs like springs of steel have hurled him across the bar set at dizzy heights; there is the mighty Weiner, he of the powerful sinews, who so splendidly cast the weighty sphere for our Alma Mater; and lastly, there is the diminutive Phillips, who by dint of a hard struggle against fearful odds, took and held last place in the F. and M. Interconference Meet at Lancaster. In basketball they are not without their representatives, for there are few faster and more wiley than Kiefer, and Levan is also making his presence in the sqad felt. "Smitty" also runs.

So, friends, you see the qualities of this great club. What it carefully, for many things are about to happen. The qualifications for membership are numerous and strictly adhered to; one of them being that the would-be member of the club must be employed in the Commons. That the Wite Kote Klub is a selected group is proved by the following list of members: Frederick Drewes, Walter Loy, Milton Weiner, Ralph Kiefer, Atwood Smith, Solon Phillips, Frank Giltner, Samuel Savago, St. Clair Davidson, Russel Levan, Ralph Dinger, George Balthaser, Phares Dinger, Joseph Milano, and Norman Dinger.

### REV. WILKER ADDRESSES STUDENTS IN REGULAR ASSEMBLY

(Continued from Page One)

ered, being a study of God as he reveals himself in nature.

"The application of our knowledge is a difficult thing, and most people fail to get their message across."

The speaker stated that "to do our best work, we must reach our inner man.

"Let us make knowledge, in the first place, our own ,and, in the second place, let us apply it.

"Knowledge is expressed in personality, and personalities impress the world, the greatest of these being Jesus Christ.

"He," says Rev. Wilker, "gave us teachings. He is the most remarkable personality the world has ever known.

"Let us go to Him for life and light."

### URSINUS BEARS BOW TO CARDINALS IN OPENING BATTLE

(Continued from Page One)

Young, Newcomer and Strine were the mainstays for the Collegeville outfit and often threatened to offset the Muhlenberg defence and mar the opening victory of the season.

The lineup:

| Ursinus | | Muhlenberg |
|---|---|---|
| Weidensaul | F. | Empie |
| (Sterner) | | (Wackernagle) |
| Peters | F. | Kieffer |
| (Young) | | (Ulrich) |
| Schinks | C. | Kaltreider |
| Newcomer | G. | Smith |

### LOVE'S GRAMMAR

You see a beautiful girl walking down the street; she is, of course, feminine. If she is singular, you become nominative. You walk across to her, changing the verbal, and become dative. If she is not objective, you become plural. You walk home together; her mother is accusative, and you become imperative. Her brother is an indefinite article. You walk in and sit down; you talk of the future and she changes to the object. Her father becomes present and you become the past participle.

—Ex.

"That is a skyscraper," announced the guide.

Old Lady: "Oh, my! I'd love to see it work."

*"And the blend can't be copied!"*

*No visitor to Normandy* ever considered his tour complete until he had made the pilgrimage to Mont St. Michel and the Inn of the Famous Omelet—Chez Madame Poulard, l'Incomparable, la Fameuse Omelette.

The Madame is since gone, but not until just before she died did she reveal the secret of her famous omelets. No doubt hundreds have tried—and struggled in vain—to use the precious information, but as a writer has put it, the Inn without Madame is "like Tara's hall without the harp!"

The making of a great cigarette, too, is a secret to be guarded. The artistry lies in *how* the tobaccos are blended—and from our own private formula comes the rich fruity flavor that you get in your Chesterfield.

Suffice it to say that our blend *can't be copied* —nor for mildness *with* flavor can you duplicate the rare Chesterfield goodness.

## Who's Who on the Campus

**Jack Morgan**

Here is a man whom Muhlenberg claims as one of it's active students. From Tyrone, four years ago, he came and joined the incoming ranks. His smiling countenance radiating about the campus, gained for him many friends. In the brief period of time, has proven his worth as a type of which to be justly proud.

Embarking upon the career of a student, he distinguished himself in his scholastic work. Besides his work for these attainments, he has been a class officer, has represented Muhlenberg in the Intercollegiate Oratorical Union, and as Business Manager of the Ciarla, piloted it through its many transactions. This year, as manager of basketball, he is to do his part to guide the team through a successful season.

His numerous conquests (don't you know) of which he is justly proud, have carried him to many places; chief among these are Reading and Summit Hill. Whether the "bright lights" and "life" will prove more of an attraction than these lesser lights, we leave to Jack to enlighten you.

With the completion of his course Jack intends to enter business. Judging by his records as a student and our best wishes, he should a long way in his chosen field. He is a Lutheran by faith, and politically a staunch Republican. Fraternally, Phi Epsilon claims him as a true brother.

### THE DAILY PAPER IS AN EXPOSITION

It is no longer necessary to attend World's Fairs and expositions to keep up with world progress. Every kind of an invention, every kind of a product is brought right before our eyes by the advertising in the newspapers and magazines; and it is this advertising, this daily news for buyers, that is making for the betterment and progress of the world.

Above all else, then, it is important that advertising be truthful and sincere. Advertisers know this better than any one else, and it is encouraging, in this day of exaggerated claims, that a leading national advertiser should re-affirm that policy. Note the following in an advertisement of a popular brand of cigarettes:

"When we sign our name to a statement in an advertisement, we mean just that. To us, signing an advertisement is in no way different from signing a contract.
Truth, no false note in our statement that CHESTERFIELD Cigarettes are mild enough for anybody—and yet they satisfy.
"Liggetts & Myers Tobacco Co."

### SLEEP, FRESHMAN, SLEEP

The Presidents of Universities climbed onto lecture platforms last week, and gravely addressed the Freshmen.

For the most part the discourses were similar. The Freshmen, slightly ill at ease, or somnolent, were urged to achieve "divine curiosity" (Dr. Nicholas Murray Butler), to create an intellectual atmosphere (Dr. John Grier Hibben). In general, they were implored not to behave like Freshmen, but like bright, contented students.

Only the Freshmen of Cornell were urged to something different. For they were told by their president, Dr. Livingston Farrand, that they ought to sleep more than Freshmen hitherto have slept.

Warned Dr. Farrand: "The failure to get the proper amount of sleep is one of the growing evils of American undergraduates. Your efficiency, your competency, your health and your future can be wrecked without the proper amount of sleep."

Freshmen were later informed that Dr. Farrand was a Doctor of Medicine, and one time editor of the American Journal of Public Health. Some of the Freshmen, therefore, were impressed, and resolved not to sit up all night at bridge.

But others wondered whether the Freshmen were always allowed to sleep at will, whether Sophomores did not often disturb. Was there not, they asked, an old fraternity song which told about Freshmen who trembling on their couches lie:

Wake! wake! Freshmen wake!
Wake while our song smites the sky,
For now, ere we leave you
We heartily give you
A welcome into Delta Beta Psi.

### DR. JAMES H. BOSSARD HONORED IN WEST

Dr. James H. Bossard, professor of sociology at the University of Pennsylvania since 1920 and a graduate of Muhlenberg with the class of 1909, is to give a series of lectures at the coming summer session of the University of California as the result of an invitation given by the authorities there.

Dr. Bossard is a former instructor at Muhlenberg and was for several years a professor at Lafayette. He is the author of several books on sociology and economics and a member of the American Academy of Political and Social Science.

### THE MAN WHO HAS WON

I want to walk by the side of the man
who has suffered and seen and knows,
Who has measured his pace on the
battle line and given and taken
the blows.
Who has never whined when the
scheme went wrong nor scoffed
at the failing plan—
But taken his dose with a heart of
trust and the faith of a gentleman;
Who has parried and struck and
sought and given and scarred
with a thousand spears—
Can lift his head to the stars of heaven and isn't ashamed of his tears.

I want to grasp the hand of the man
who has been through it all and
seen,
Who has walked with the night of an
unseen dread and stuck to the
world-machine;
Who has bared his breast to the
winds of dawn and thirsted and
starved and felt
The sting and the bite of the bitter
blasts that the mouths of the
foul have dealt;
Who was tempted and fell, and rose
again, and has gone on trusty and
true,
With God supreme in his manly heart
and his courage burning anew.

I'd give my all—be it little or great—
to walk by his side today.
To stand up there with the man who
has known the bite of the burning fray,
Who has gritted his teeth and clinched his fist, and gone on doing
his best,
Because of the love for his fellowmen and the faith in his manly
breast,
I would love to walk with him, hand
in hand, together journey along,
For the man who has fought and
struggled and won is the man
who can make men strong.

**Cheap**

Mamma: "Johnny, I wish you'd be a good little boy."
Johnny: "I'll be good for a nickel."
Mamma: "The idea. Why can't you be like your father, good for nothing."

**He Needed Help**

"And your husband has a prosperous business, I suppose?"
"Oh, yes, he is taking in a lot of money. Only last night he told me a receiver was to be appointed to assist him."—The Outlook.

GOOD LUCK TO HOLSTROM!

# The Muhlenberg Weekly

WE ARE CONFERENCE CHAMPS AGAIN!

Vol. XLVII. Muhlenberg College, Allentown, Pa., March 8, 1929 No. 18

## CARDINAL AND GRAY OUTPOINT OPPONENTS

### Only Four Defeats Through Season Is An Enviable Record

Last Thursday, February 28th, Muhlenberg closed one of its most successful basketball seasons in recent years. During the whole season they were victors in nine games and tasted only four defeats. Three of the four defeats were very close.

On January 12th Muhlenberg opened its season against the strong Ursinus Bears, who were fresh from a victory over Lafayette. After forty minutes of hard playing, the score showed 21 a-piece. In the five minute extra period, Muhlenberg scored ten points to Ursinus' four points, making the final score 31-25 in our favor.

The second game of the season found Muhlenberg continuing their fine form displayed against Ursinus, the Bergmen nosed out a 30-28 triumph.

On their first long trip Muhlenberg suffered her first defeat. Although Muhlenberg led during the entire game personal fouls wrecked our team and Gettysburg eked a 27-25 victory. At half time we led by a score of 14-11 and were leading 21-18 when three of our players were banished.

In the fourth start of the current season, Muhlenberg scored its third victory by defeating Franklin and Marshall to the tune of 23-19. It was the first game after the mid-years and the two weeks lay-off showed itself clearly. This was a costly victory as Kaltreider, star center, was lost for the season due to an injured knee.

Schuylkill was the next victim to fall before the onslaught of the Benfermen. Muhlenberg won 43-33 in an easy game. The first half was a run away, but the second half was more interesting.

In a return game on the local floor, Muhlenberg again succeeded in downing Lafayette by a score of 36-25. The game was close and the victor not certain until the close of the second half when Muhlenberg spurted and put the game on ice.

Continuing their winning stride Muhlenberg again defeated Schuylkill at Reading. The game was very exciting. At the end of the first half Schuylkill led by one point, but in the second half Muhlenberg tied the score before the game ended. Then a second before the game ended the Schuylkill captain fouled Batalin who converted it into the winning mark. Final score, 31-30.

(Continued on Page Three)

## DR. BROWN ADDRESSES BOYS AT A. T. O. HOUSE

### "Early College Reminiscences" was Topic Discussed At Informal Meeting

Dr. Brown of the English department of this college was the guest of the local chapter of Alpha Tau Omega last Wednesday evening. His visit was in accordance with the recent plan of the M. C. A., to have members of the faculty meet the students at the fraternity houses informally. This is the second such meeting that has been held at the A. T. O. house. The first was when Dr. Edgar Swain spoke there last semester.

Dr. Brown had dinner with the boys and afterwards everyone gathered in the living room to hear a short talk on the Doctor's early college experiences. After the talk, an informal discussion concerning points of interest in the chat took place. The meeting was over by eight o'clock.

As the Doctor left it is certain that he took with him the impression that the boys welcome such chances to meet their instructors on a more common basis, that they fully endorse the efforts of the M. C. A., and that they look forward with eagerness to the next such meeting.

## FOURTEEN MEN TAKEN INTO KAPPA PHI KAPPA

### Educational Fraternity Is Enlarged Through Scholastic Showing Of New Men

Sixteen men were initiated into the inner circle of Kappa Phi Kappa, the national educational fraternity, last Friday evening, amid much finesse. The ceremonies were held in the rooms of the educational department in the Administration building. Following the initiation, a sumptuous banquet was served at the Americus Hotel to the entire Psi chapter of Muhlenberg.

Louis E. Dieruff, principal of the Central Junior High School and Warren P. Snyder, '20, principal of the Bristol High School were inducted into full membership with fourteen underclassmen. There were two seniors that received the key, namely, Norman Seiple and Ralph Keifer.

The Juniors that were initiated are James Begel, Edward Swint, Kenneth Boyer, James Malatack, Earl White, Francis Gendall, Eugene Twining, Gorton Lewis, Franklin Hartzell, Russel Dougherty, Levan Smith, and George Steckel.

At the banquet at the Americus, interesting reminiscences were told and several phases of educational work discussed by Dr. Isaac M. Wright, Mr. Louis Dieruff, and Mr. Warren Snyder. Prof. Carl W. Boyer made a report to the chapter of his observations at the national convention held recently at Wittenberg College and to which he was a delegate.

The present active members of Psi chapter are Frederick Drewes, President; James Drury, Vice President; Russell Struble, Secretary; Earl Ritter, Treasurer; James Butler, A. William Day, Paul Dieckman, Joseph Evans, Harold Laros, Edwin Leidich, Anthony Pascal, William Chapman, Edgar McNabb, Elwood Saxer, Stanley Steigerwalt, and Lester Trauch.

The list of initiates, added to that of the above members, gives Muhlenberg a grand depresentation of thirty-two members of Kappa Phi Kappa. Its strength has been more than doubled in that last year, which is certainly a fact deserving of recognition. Men of Muhlenberg wish the fraternity success in the future.

## COLLEGE Y. M. C. A.'s HOLD DISTRICT CONFERENCE

### M. C. A. Acts As Host To Delegates From Five Colleges Comprising District

On Thursday, February 28, the members of the Y. M. C. A. cabinets of Albright, Schuylkill, Moravian, Kutztown State Teacher's College and Muhlenberg met on the local campus in a district conference. Leo H. Kohl, field secretary of the Pennsylvania State Association, acted as chairman.

The topic up for approval was the minimum standard requirements for college "Y" organizations. Standard requirements for officers and committees were discussed and approved. With the concurrence of the other districts in the state these standards will be adopted as rules.

After the formal business session Mr. Iways told about his "home town", Jerusalem; he is now a student at Albright College, Myerstown. Relating all the wonders and features of interest in the place, he dwelt at length upon the Church of the Holy Sepulchre, owned jointly by the Roman Catholic, Greek Orthodox, and the Protestant churches. This joint ownership, he told, is the source of much wrangling and many disputes in Jerusalem.

Mr. Iways also gave a brief sketch of Mohammedism. Coming from one who had lived in close contact with that religion all his life it proved exceedingly interesting and informative. He showed that Mohammedanism is a branch of Christianity and that gradually Christianity is taking its place.

## JUNIATA LOSES TO BERG DEBATERS

### Local Team Assumes Negative And Wins By A Two-to-One Count

Debating the resolution that "the jury system be abolished," a Muhlenberg team defeated representatives of Juniata college on Monday the twenty-fifth.

This debate was the first of two debates (a dual debate) with Juniata, which have been annual events at Muhlenberg for a number of years. The return debate will be held at Juniata in the near future.

The Muhlenberg team, composed of Stanley Printz, Kenneth Koch, and Donald Hock, propounded the negative arguments that the jury system meets all the requirements of present-day jurisprudence; that the jury is an able fact-finding body; and that it is the best system yet conceived.

The affirmative built up a strong case on the claims that we have outgrown trial by jury just as we outgrew the election of president by the original elector system; that juries prove inefficient as fact-finding bodies, are incapable of reaching a just conclusion from the facts presented to them; and that trial by a board of three judges would prove a far superior system. The speakers from Juniata were Roy Schrock, Harold Hartzler and Claude Flory.

That the debate was spirited and interesting is evidenced by the two-to-one decision reached by the judges. The judges were Attorney Orrin E. Boyle, W. D. Reimert, and Dr. C. A. Miller. Professor J. D. Schumaker, who is head of the Department of History at Cedar Crest College, acted as chairman.

Hock and Koch are worthy of attention in view of the fact that they are only freshmen, and have already had several years of experience in debating. Mr. Koch was one of the

(Continued on Page Three)

## MUHLENBERG CHORUS TO BE A REALITY

### Twenty Men Respond To Prof. Marks' Call For Volunteers

At present about twenty men have responded to the call of Prof. Harold Marks to form a Muhlenberg Men's Chorus. The formation of such a chorus had been the dream of Prof. Marks for some time, but never before has it been realized. From appearances now, however, it seems as if it might come true, if the men persist in their efforts, and come to rehearsals regularly.

The purpose of the chorus is to stimulate a general interest in vocal music and develop the talents of the ordinary singers. It will be subsidiary to the Glee Club, but members of their organization can also participate in the Chorus, indeed, they are urged to do so. It is not the primary aim to make a public appearance as soon as possible, but rather to develop the talent of the group slowly, and then make a real successful appearance after that has been done.

The first rehearsal of the chorus was held on Wednesday afternoon, February 27, at which time the group in general was organized, parts assigned, and several selections practiced. Wednesday afternoons from 2:15 to 4:15 will be the regular time for rehearsals after this, unless a change is made for some other purpose.

The weak point of the chorus, as in nearly all men's choruses, is the lack of a sufficient number of capable first tenors. It is hoped that experienced Glee Club men will turn out for this position especially. The other parts are fairly strong, the largest group being the first bases. The only thing remaining is to practice, develop, and improve, and thus fulfill the purpose of the Chorus.

## JAMES A. GILMAN ADDRESSES M. B. A.

### Business Association Hears Of Organization Of The Charis Corporation

The local business club, The Muhlenberg Business Association, held its regular business and social meeting at the Alpha Tau Omega house, Thursday evening March 1. The guest speaker, Mr. James A. Gilman of the Charis Corporation, witnessed the installation of officers after which he outlined the organization and policies of the Charis Company with the help of a series of still pictures projected on a screen.

Karl Donecker, president; Henry A. Wickstrom, vice president; John Ruck, secretary; were installed by Prof. G. W. Merkle, faculty advisor of the Association ,as the officers to lead the club through the ensuing year.

Mr. James A. Gilman, director of advertising for the Charis Company was introduced to the twenty men, gathered in interest of business, and took over the meeting. The Charis Company, as outlined by Mr. Gilman, specializes in the production of ladies' undergarments. Although it is a ticklish subject upon which to talk the speaker handled it in a way which was both interesting and instructive.

Charis is a concern that does a business directly from factory to consumer. The whole United States is divided into districts and each district is made up of zones. The zone manager has a force of salespeople who visit each home in their territory. It is not surprising to note that the salespeople of the company are all women. This is naturally necessitated through the fact that it is purely a woman's product.

After describing the organization of the company Mr. Gilman, with the aid of pictures showed theme A of the advertising campaign for this year. Theme A takes as its heading "The

(Continued on Page Three)

## ILLUSTRATED TALKS A NEW IDEA IN HISTORY COURSES

### Profs. Jackson and Waller Deviate From Regular Routine Of Work

The Freshman History classes were shown slides of different types of architecture by Professor Jackson and Mr. Waller instead of their usual recitation on Tuesday, February 26. This variation in the study of History is offered periodically as subjects are studied which are of such a type that they can easly be shown by means of slides, provided they are included in the collection which has been furnished to the History department. The slides always prove very interesting as well as beneficial, since they give a better idea of the subject which is studied at that time.

On Tuesday, architecture in its different forms and stages of development was stressed. The two main types which were shown were the Romanesque and Gothic. Buildings, especially cathedrals were shown in which the different types had been employed. One of the most interesting cathedral which was shown was St. Sophias in Constantinople, which is an immense, and yet such a very artistic, structure. Two other cathedrals of importance that were shown are St. Mark's in Venice and the famous Rheims cathedral in France.

As the views were cast upon the screen, Prof. Jackson explained its main features, and their significance, the place and date of construction and other important points. In general he endeavored to connect the scenes shown with the History lessons which had been studied on those subjects. shown paintings of early medieval and modern times will be considered, with special emphasis on the paintings of Italy.

## PHOTOGRAPHY CLASS WELL ORGANIZED

### Mr. Lebo Of Ansco Company Presents Class With Material For Work

At the urgent request of a number of students who are especially interested in photography, the Biological department is again offering this interesting course during the second semester. It seldom happens that the number of students interested in this field warrants the teaching of this course, the last one having been given five years ago. Mr. Walter Heintzelman, Instructor in Biology, is conducting the class this year.

The course is offered primarily for Upperclassmen and Sophomores, a total number of nine students having already begun their work. No Freshmen have been admitted this year. The requisites for the course are a good camera, developing material, and a film a week. Several photographs have already been developed in the first meetings of the class, which meets four hours every Wednesday afternoon.

Although the technical side of photography is considered to some extent, the practical side is stressed much more. It can, therefore, be made very interesting. Especially, do the frequent observation trips through nearby fields arouse the interest of the embryo photographers. With tripods, cameras, films, and other photographic paraphernalia in their arms, they ceratinly offer a curious sight to chance spectators.

On Wednesday afternoon, February 20, the class received a unique surprise in being presented with advertising samples of all the various kinds of developing paper by Mr. Arland Lebo, a photography student, and a representative of the Ansco Photo Products Co. In addition to the valuable paper which will be used in the course, a book of instruction in photography was included. Although the material was presented with the primary aim of advertising the products of the company ,yet it will also prove very useful throughout the year, so the class was pleased to express its hearty thanks to Mr. Lebo.

## CUE AND QUILL CLUB MEETS AT DELTA THETA HOUSE

### Messrs. Towers And Bell Of Lyric Stock Company Are Guests

The Cue and Quill Club held its regular monthly social meeting at the home of the Delta Theta fraternity, Wednesday evening, February 28. After a short business meeting a one-act playlet was presented much to the enjoyment of the guests from the Al. Smith stock company who are now playing in the Lyric Theatre.

The only business discussed in the business session was that of the presentation of "The Queen's Husband". The final decision was to the effect that the play would be given as a commencement play. The latter part of May. The production will be ready for presentation by the first of May and between that time and commencement date the cast will go on tour. These plans are tentative, but if they are followed out the Club will gain popularity through the state.

Rudolph Buehler, Donald Hock and Gordon MacKay then presented a one act playlet entitled "Good Medicine." The plot involved a starving, young doctor who was too honest, or dumb, to take money without just cause, and a rich woman who was in search of a good honest doctor to head the staff of her hospital. The doctor's wife helped her husband in his cases and tried to help him make the grade. Mr. Buehler played the part of the rich woman while Mr. MacKay and Mr. Hock played the doctor and wife respectively.

(Continued on Page Three)

## BERG'S CAGE SEASON COMES TO A CLOSE

### Eastern Penna. Intercollegiate Conference Title Goes To Local Quintet

Muhlenberg drew curtains rather unappropriately on her successful 1928-1929 basbetball season, when Coach "Hooks" Mylin's Lebanon Valley collegians took the Cardinal and Gray quintet into camp by a 28 to 22 score on the Y. M. C. A. floor last Thursday night. In spite of this setback Berg crashed through by taking over the conference championship.

The locals made a favorable start when Minka's foul shot was followed by a twin-pointer by Wackernagle. The Lebanon Valley cagemen shot to the front, however, and acquired a lead of 17 to 7 at first half.

In the second half, Muhlenberg rallied considerably. With the 25 to 18 and with but six minutes to play, the Berg fans pleaded for a victory. Smith replied with a goal, and Heffner, who had made two beautiful shots previously in the game, came through with another basket. Meanwhile Lebanon Valley netted three additional points. The Cardinals' rally came too late to offset the big lead the Annville collegians had assumed in the first half.

The defeat, however, did not mean much since the locals had clinched the Eastern Pennsylvania Intercollegiate Conference championship the previous night at Lancaster when they triumphed over Franklin and Marshall, 41 to 39.

The lineups:

| Muhlenberg | | Lebanon Valley |
|---|---|---|
| Ulrich | F. | Piela |
| Wackernagle | F. | Shroyer |
| Laucks | G. | Heller |
| Smith | G. | Miller |
| Minka | G. | Albright |

Substitutions—Muhlenberg: Heffner for Minka. Lebanon Valley: Stewart for Piela, Light for Shroyer. Field Goals: Ulrich, 1; Wackernagle, 1; Heffner, 3; Laucke, 1; Smith, 1; Piela, 6; Shroyer, 1; Heller, 1; Miller, 1; Albright, 1; Stewart,. Foul Goals: Ulrich, 2; Wackernagle, 3; Heffner, 1; Laucke, 1; Minka, 1; Piela, 5; Albright,. Witwer, Allentown Prep. Referee: Bibleheimer, Lafayette. Timer: Ashbach. Time of Halves: 20 minutes.

**Muhlenberg-Franklin & Marshall**

Muhlenberg put the final appropriate touches in clinching the Eastern Pennsylvania Intercollegiate Conference championship by triumphing 41 to 39 over the F. and M. collegians last Wednesday evening at Lancaster.

(Continued on Page Three)

## INITIATION BANQUET HELD BY HISTORY CLUB

### Fred J. Cooper Gives Interesting Talk On Watches And Timepieces

The History Club held its initiation banquet at the Elks Club, Thursday evening, February 21. Six new members were admitted after which Fred J. Cooper, president of the Pennsylvania Jewelers' Association, spoke to the club. Mr. Cooper spoke on the topic, "Time and Timekeepers". He traced the marking of time from 4000 B. C. up to the present time.

The History Club is an honorary society restricted to those men taking history or social sciences and maintaining an average of "B" in those courses. The new member eligible for the club must be balloted upon by the club as a whole and be recommended by the professors in the History Department.

The new men taken in were Messrs. Dougherty, Printz, Twining, Shaffer, Gendall, and Steinman.

The Club held an illustrated lecture on Medieval History in Professor Corbiere's room, under the guidance of Prof. Jackson, Wednesday, March 7th.

## COLLEGE MEN?

The American college is supposed to be a place where a young man can cultivate his intellect and incidentally among other things his morals and manners. There is no doubt that politeness costs nothing and brings a great reward. It is just as easy to be a gentleman as an ill-mannered boor or a prig. It is just as easy to be pleasant and good-natured as taciturn and mean-tempered. It is just as easy to be polite in little things as it is to let them slide by as matters of no importance.

It is a notable fact that many college men regard the finer points of etiquette as passe. In fact many of them regard all etiquette as passe.

Respect for elders and women is laughed at by some college men. Table manners are absolutely disregarded in many cases. Disrespect for professors and instructors, and open defiance to them is common.

Some of these things may appear very trivial in themselves but they go into the make-up of the man. Good manners, so vital to success in business, in life itself, are not acquired in a few days. They are a habit, the habit that is vital to one's being known as a gentleman. After all, the chief aim of education is to train the person to live with his fellow men and to train him to be as useful and pleasant as possible.

It seems as though school spirit and patriotsim also die with the loss of manners. All over the country one hears the complaint from various college alumni, "Things are not the same as when I went to college. We had real spirit then." The Alma Mater used to mean something. Now it seems to bore many men to remove their hats and remain standing when their Alma Mater is being sung.

Our national anthem, the Star Spangled Banner, is seldom heard anywhere today. It is not played often in movie houses because the people hate to have to get up and stand while it is being played. In the few instances when it is played the people almost invariably are slow to rise and among the last are usually the college students if there are any present. Here, as in other matters, they should be the first not the last to respond.

In the great game of life, first impressions and lasting impressions are made by one's manners. Good manners make good impressions and often lead to success where lack of politeness may lead to absolute failure.

There is no doubt that Greek, Latin, History, and Science are important, and Physical Culture is a great help to the college man, but after all the colleges profess to train men for the game of life.

P. C. R. '31.

## QUO VADIS, MUHLENBERG?

Of all earthly pests the "calamity howler" is probably the most vile, and should the writer be given such an appellation he would bow his head humbly in shame; but somehow this Alma Mater of ours seems to be blessed with such individuals. One is annoyed with this; another is perturbed by that, and still another is "griped" about something else. Shou'd a stranger from Kalamazoo visit old Muhlenberg, read her periodicals and talk with her students, heaven save us from the impression he might have of the old place. He would go away convinced that a college by the name of Muhlenberg was a place where nobody knew how to play foot-ball, where the students had absolutely no school spirit, where the administration of college affairs was plain awful, where a supposed new library was a monument to Father Time, where a much needed gymnasium simply wasn't, and where they had search-lights so nobody would steal the shrubbery. Imagine an impression going out into the world proclaiming to all the scandal-mongers that Muhlenberg College, harboring within its walls four hundred men, was actually nothing nothing more than a p'le of bricks, a few fire extinguishers, sixty dollars worth of grass seed, one clock and three search-lights. And honestly, that's about what the world thinks of this good old college, thanks to the "calamity howlers." We're simply out in the cold and that's that.

Isn't there anything good or fine in its make-up? There must be. We've fallen into a rut. That's all. Sort of muddy in the rut at that. But let's get out. Let's cultivate a different frame of mind. Let's look for the best in Muhlenberg and then holler our heads off. You'd be surprised what effect this would have.

H. V. S., '29.

## Kampus Kracks

Judge: Speeding, eh? How many times have you been before me?

Speeder: Never, your honor. I've tried to pass you on the road once or twice, but my bus will do only fifty-five.—The Motorist.

—

"What made Old Man Boggs have that attack of apoplexy?"

"He was sitting in his car, which was stalled in the mud, when a deputy sheriff waded in and handed him a summons to pay his road tax."—The Motorist.

—

Keeper (speaking of new arrival at Asylum): What's the matter with this fellow?

Superintendent: He says the air is free and goes around releasing it from people's automobile tires.

—

First Commuter: I suppose your wife meets you at the station with the car.

Second Commuter: Oh, yes, every two or three weeks there'll be an afternoon when there's no bridge party.—Motorland.

—

Fitting: "I wish I were as religious as Sittner".

Drach: "You mean "Scotty" Sittner?"

Fitting: "Why yes, he clasps his hands so tight in prayer, he can't get them open when the collection box comes around."

—

"Say, Empie, can you carry a tune?"

"Certainly, any tune you want."

"Well, carry that one you're singing out in back of the dorms and bury it."

—

Prof. Jackson: (after auto accident) "Say, John, can't you do something about this?"

Hersker: "I'm sorry Prof, but I've already done it."

—

Fenstermaker: "Harold, have you noticed that someone has marred the new grave stone your dad bought?"

H. Bowman: "You mean the one with the epitaph—'He did his best'?"

Tillie: "Yes, someone put the word 'friends' after it."

—

We have no sympathy with the Scotchman who did away with one of his triplets because he didn't want to buy a milk bottle.

—

"Mrs. Benfer is throwing plates at Haps Benfer."

"Is she angry with him?"

"No; but she's working up to it."

—

Wickstrom: "Do you think I look like this picture?" Its an outrage. Don't you think I'm much better looking than that?"

Photographer: "Well to tell the truth, the answer is in the negative".

—

Prof. Simpson: (In cigar store) "This cigar I bought here is terrible."

Frop: "What are you complaining about; you have only one and I have thousands of them."

## FACULTY NOTES

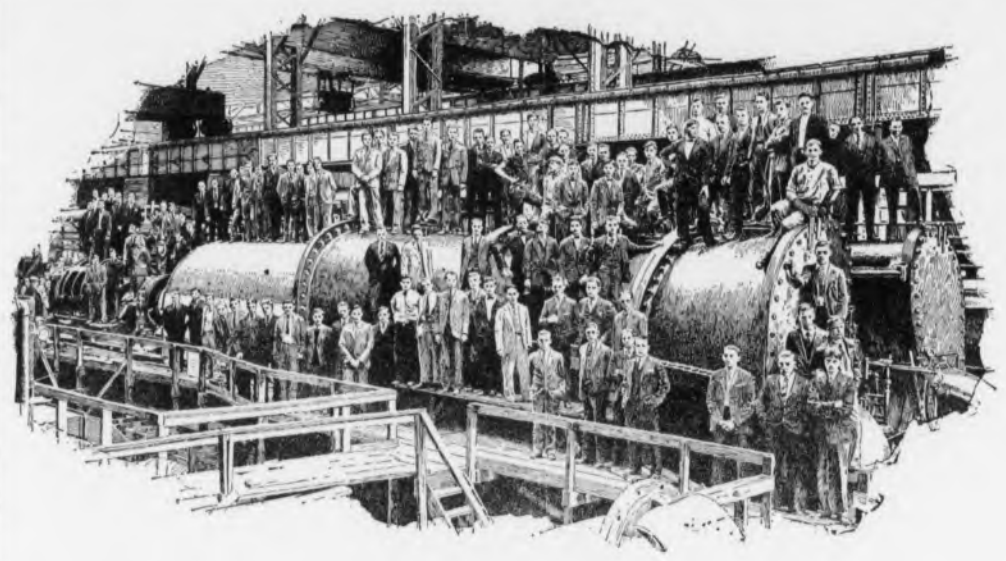
Dr. Robert C. Horn, Vice President of the college and head of the Greek department, will hold a very interesting meeting in the Central Junior High School, Thursday evening, March 14.

The topic of recent archeological discoveries will be discussed by Dr. Horn and the teachers of the High School and Junior High Schools in Allentown. The effects of these discoveries and the way in which they affected history wil be the feature of the discussion.

Dr. Brandes has been elected a contributing editor to the Journal of Chemical Education, one of the publications of the American Chemical Society.

Dr. John A. W. Haas, president of the college will address a group of college people Saturday, March 9, on the subject of the "Negative Influences in College Life." The meeting will be held in Reading.

On Sunday following the meeting in Reading, Dr. Haas will preach the sermon in the Holy Episcopal Church in New York City.



# Generating Brain Power

BRAIN power, not horsepower, is the chief operating requirement of the electrical industry.

This requirement must be continuously anticipated to provide leaders for the future. Accordingly, each year, more than 400 picked college graduates come to the General Electric Company for a post-graduate course in electrical science.

With a faculty including inventors and engineers of international distinction, something more than electrical knowledge is imparted to these young men. Here they also find inspiration which prepares them for leadership in this electrical age.

You will see this monogram on the powerful motors of an electric locomotive and on the convenience outlet where you plug in a floor lamp—always and everywhere it is a safe guide to electrical quality and dependability.

### SCHUYLKILL COLLEGE

**Girl's Building and Science Hall to Grace Campus**

A new science hall to cost approximately $200,000 will be constructed on the college campus, and it is also expected that a girl's building to cost at least $75,000 will also be erected and ready for occupancy by the beginning of the school year, September, 1929. Announcement of these new additions was made a few days ago at a meeting of the combined board of Albright and Schuylkill Colleges. They are a part of the new building program necessitated by the merger of the two colleges to be known as Albright after September, 1929.

### LEHIGH

**Cornerstone Laid for New Library**

On February 22, two hundred friends and alumni of Lehigh University gathered on the snow mantled campus to witness the first step towards completion of their gift—a new library. Speeches were made by Paul M. Paine, '91, librarian of the Syracuse Public Library and Pres. Richards.

### ALABAMA

For the past two weeks the freshman of Alabama and North Carolina Universities have been staging riots against the unfair tactics of the sophomores. The situation became so bad that the president of the freshman class of N. C. U. had to reprimand his classmates for hazing the sophomores.

### CAPITAL UNIVERSITY

Capital U. has one holiday in the year which is not eagerly awaited by the collegians. That is "Debt Liquidations Day" when creditors appear before their debtors and demand payment without embarrassment.

### HAVERFORD

**Haverford News Twenty Years Old**

February 15, 1909, was the natal day of the "Haverford News". Its first name was the "College Weekly." When at one time the paper was nearly dead the revvial of a football game with Swarthmore once more started it on its promising and successful career.

## CARDINAL AND GRAY OUTPOINT OPPONENTS

(Continued from Page One)

The following evening Albright was entertained on the local floor. Our boys went on a scoring spree and rolled up 50 points to Albright's 22 points. It was in this game that Wackernagle scored twenty-two points, equalling the intercollegiate basketball scoring record held by Joey Schaff of Penn.

The second setback of the season was handed us by Lehigh at Bethlehem by a 41-20 score. Nowhere during the game did our boys threaten Lehigh who played a fine brand of basketball.

On Washington's Birthday, Muhlenberg journeyed to Chester to play Pennsylvania Military College. The final score showed Muhlenberg 45 and P. M. C. 34. This was the first defeat which P. M. C. received on its own floor and Muhlenberg was the first team to score more than thirty points against them on their own floor.

An unexpected defeat was received by Muhlenberg at the hands of Drexel. The final score was 38-34. An extra five-minute period was necessary to decide the winner as both teams scored 32 points through the entire first half an dscored the first ten points of the game.

Playing the last game of the season away from home, Muhlenberg defeated F. and M., by the close score of 41-39. At half time F. and M. led by a single point, 17-16.

In the final game of the season Muhlenberg received its fourth defeat. Lebanon Valley conquered them by a score of 28-22. The game was one of the hardest fought games played this season. Lebanon Valley took the lead in the first few minutes and was never headed. A final spurt by Muhlenberg in the closing minutes was of no avail.

To name the star of the season would be an injustice to the others of the team. The team is composed of a group of stars. A greater season is looked for next year as graduation will not hit us very hard. The individual scoring statistics for the season will be published in a later edition of the Weekly.

**Basketball Summary**

## JAMES A. GILMAN ADDRESSES M. B. A.

(Continued from Page One)

body is the temple of youth." Around this theme the whole advertising campaign is centered. He then concluded his remarks by illustrating the carefulness which is taken in fitting every garment to the individual.

The members present were Messrs. Winters, Edwards, Ritter, Henninger, Wickstrom, Schlater, Mittler, Alexy, Bauer, Gauck, Lebo, Donecker, Danerhirsch and Prof. G. W. Merkle. The guests were Messrs, Gulckuns, Geiger, Quick, Sittner, Sheldon, Kaiser and Fraunfelder.

## BERG'S CAGE SEASON COMES TO A CLOSE

(Continued from Page One)

The game was hotly contested throughout. At half time, the Lancaster courtmen were ahead, 17 to16. In the second half, Berg came to the fore and remained there to the final whistle. "Bill" Wackernagle and "Al" Minka were the shining lights.

The lineups:

| Muhlenberg | | F. and M. |
|---|---|---|
| Ulrich | F. | Borger |
| Wackernagle | F. | Johnson |
| Laucke | C. | Weiss |
| Smith | G. | Loeb |
| Minka | G. | Bowman |

Substitutions —Muhlenberg: Heffner. F. and M.; Fasnacht. Field goals: Ulrich, 2; Wackernagle, 5; Heffner, 3; Laucke, 3; Minka, 3; Smith, 1; Borger, 4; Johnson, 4; Weiss, 3; Loeb, 2; Bowman, 1; Fasnacht, 2. Foul goals: Wackernagle, 5; Laucke, 1; Minka, 1; Borger, 3; Johnson, 1; Loeb, 2; Bowman, 1; Fasnacht, 1. Referee: Boyer. Time, 20 minute halves.

## JUNIATA LOSES TO BERG DEBATERS

(Continued from Page One)

outstanding members of Allentown High's varsity team last year, and Mr. Hock was prominent in forensic affairs at Catasauqua.

Arrangements for the debate were made by Karl Y. Donnecker, manager of debating, and James K. Lanshe, assistant manager.

A great deal of credit belongs to Mr. Arthur T. Gillespie, who has proven a competent coach and advisor for the debating teams of Muhlenberg.

The debate was held in the auditorium of St. John's Church school on South Fifth Street.

Policeman (telephoning station): "A man has been robbed down here, and I've got one of them."

Inspector (brightly): "Which one have you?"

"The man that was robbed."

## CUE AND QUILL CLUB MEETS AT DELTA THETA HOUSE

(Continued from Page One)

After the play was ended the guests of the evening, Mr. Towers and Mr. Bell of the Al Smith stock company, gave short talks on reminiscences and superstitions of the stage. After their talks Mr. Bell invited the members of the Cue and Quill Club to come down to the Lyric and see both the rehearsals and current offerings of the company backstage.

After tasty refreshments the meeting adjourned.

## DEBATERS TO MEET ALBRIGHT FRIDAY

**Triangular Meet Of Dickinson, Muhlenberg And Gettysburg To Be March 18**

This Friday, March the eighth, will witness Muhlenberg's first debate of the year with Albright, at which time the former's negative team, consisting of Stanley V. Printz, Kenneth H. Koch, and Donald V. Hock, will journey to the lair of the latter, and tussle over the interesting question, Resolved: "That the present jury system be abolished."

The above team, with the same question at issue, defeated Juniata's debaters last Friday evening in the auditorium of St. John's Church, by a 2 to 1 decision. It is hoped that they will repeat this performance with Albright.

On Tuesday, March 18th, the annual triangular debate between Dickinson, Gettysburg, and Muhlenberg, is scheduled to take place. Muhlenberg's negative team will probably journey to Dickinson, whilst her affirmative team will, it seems, meet Gettysburg on a home platform. Coach Arthur Gillespie is endeavoring to maintain and even surpass Muhlenberg's fine record along forensic lines. All out for THE TRIANGULAR!

## PROM ASSESSMENT DECIDED UPON

**April 12 Will Find Juniors Gathered At Americus For Prom**

The Junior Class held a business meeting in the chapel, Tuesday, March 5th. The discussion took the form of the Prom assessment.

In order to facilitate the obtaining of a good popular orchestra, favors will be dispensed with. The assessment for those outside the junior Class will be five dollars a couple.

The Americus Hotel ballroom will be the scene of the affair and the date is Friday, April 12.

## SONG FEST PROVES A SUCCESS IN CHAPEL

**Many Old Time Songs As Well As Novelty Selections Presented**

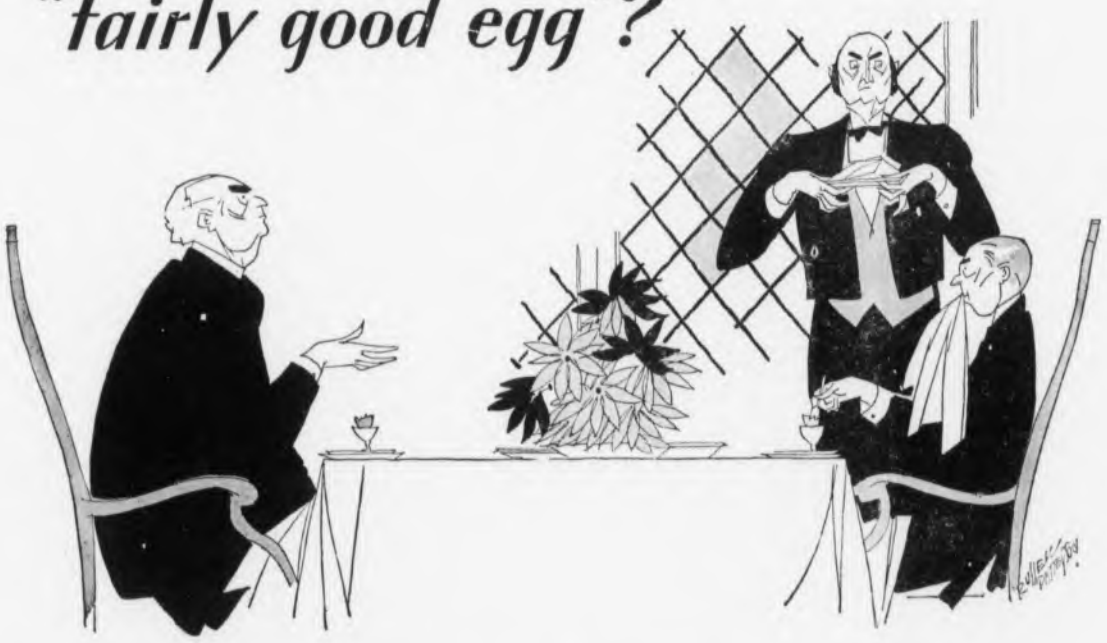
Instead of echoing the words of some eloquent speaker during the usual Thursday assembly, the walls of the Science Auditorium resounded the strains of harmony produced by the lusty voices of the student body. The "sing," the second of the year, included American music, patriotic and southern melodies. For each group Rev. Cressman offered several explanatory remarks. To give variety to the program, Charles Fritch ably rendered several trumpet solos. With the singing of the popular "Alma Mater" writen by Stephen Fay, the musicale was brought to a close, in spite of numerous cries for more.

In a short student body meeting which followed the "sing," money was appropriated for the Recreation Hall and for a new flag.

Officer (referring to member of crew who has been picked up after being in the water for over an hour): "Is he all right?"

Sailor: "Yessir, 'cept that he seems to 'ave lost 's sense of humor!"—Tit-Bits.

*But who wants a "fairly good egg"?*



*When his Lordship the Bishop* asked his guest how he enjoyed the breakfast egg, that timid—but always truthful—young curate replied: "Parts of it were excellent, sir!"

Now isn't that just like saying that such-and-such a cigarette is *mild?* Mildness in tobacco is not to be despised, but is it the *ne plus ultra*, the *summum bonum*, the . . . in plain English, is that all you ask from your cigarette? We think not.

Take Chesterfield's mildness for granted, and get the full relish of its rich, real *taste* under your tongue. That's its difference from the common run—all the difference between plus and minus. Chesterfields are mild . . . and yet they *satisfy!*

CHESTERFIELD

MILD *enough for anybody . . and yet . .* THEY SATISFY

### OPTIMISM

Don't you talk of life's regrets,
For life is what you make it;
Though long the stairs and rough the steps
You can reach the summit.

Keep up courage, keep on climbing
Till your work is done!
Think of the future never minding
Bars to overcome.

Life is joyful, life is gay,
Happy as can be;
The sun is shining every day,
Cheering you and me.

Face them all with courage!
Though Pluto all his force amass,
Try him to discourage!

When your torchlight fades to nought
And strength begins to fail,
Think of what your fathers sought,
And had all to entail.

—Justa Frosh.

### THE TEST OF TIME
By Justa Frosh

I mused today upon a thought
That oft comes to my mind;
Why are things that man has wrought
So oft by time defined?

All History does this law explain
On each and every page;
The fates of Egypt, Rome, and Spain
All prove this old adage.

Don't mind the praise new victory brings
For that is all alike,
Till time contrasted other things,
And it is surely tried.

So after all what does it mean,
The thing we do today,
If to-morrow's sun with brightening gleam
Is hidden by clouds away?

### T. U. O. PLEDGES GIVEN FINAL DEGREE

#### Eight New Brothers Are Added To Ranks Of Delta Beta Chapter

Eight former pledges of Theta Upsilon Omega became wearers of the T. U. O. pin Tuesday evening, February 27.

Paul Doepper, Newton Kunkle, Francis Eisenhauer, Charles Fetter, Donald Hock, Erich Stoeckle, Earl Trexler and John Denke are now full-fledged, bona-fide brothers, having passed through the second and third degrees Tuesday at midnight.

The initiation ceremony was very impressive, the only regret being that pledge Dr. Harry H. Reichard of the first degree was unable to attend, being confined to his home on account of sickness in the family.

The fact that eight more men have been added as members of Theta Upsilon Omega makes that organization so much the stronger. It signifies progress in the right direction.

Following the administering of degrees, light refreshments were served.

## Kampis Idears

#### WE WANT AN INFIRMARY!

The necessity of an infirmary at Muhlenberg to take care of the sick students has been felt frequently during the past few years. This winter, however, its indispensability has been shown with added force as the number of sick students increased in the dormitories; its lack is an insult to the progressive ideals of those who foster Muhlenberg and its activities.

During the "flu" epidemic a few months ago a dangerous number of students were forced to lie in the "dorms" with aching bodies, thus spreading the disease among unaffected students. Food was brought to them in a very inaffective manner by sympathetic roommates, whose own health was in danger by so doing. In baskets, in pockets, on trays, in fact, by any means possible victuals were brought to the sick ones from the Commons, and they were usually cold till the ailing ones could taste them. How can we expect persons to recover from disease under such averse conditions?

Yes, such were the conditions in the dormitories this winter, and they are not exaggerated in the least! Should college authorities allow such a circumstance within their very walls? Can we be surprised that among other reasons our college attendance has dropped the last few years? Other schools with whom we are fond to compare ouselves have modern infirmaries which are well appointed. To the patrons of such colleges it is a great comfort to know that conditions exist which take care of sicknesses which may occur among students.

Fellows, what do you say? Is it not for our own welfare if we demand something as essential as an infirmary? We have a few suggestions for a possible place for it. With a slight remodeling would not several rooms in the dorms or the "Rec" Hall, which we have heard will be vacant after the library is completed, make an infirmary which would meet our immediate demands?

—A Student.

## Found In Press Box

Several days ago we received a letter from an alumnus living in the northern part of Siberia and the question that he asks us to answer is beyond our ability, we therefore are making a plea to the entire student-body and all those of the alumni to lend their aid in helping us formulate an intelligent answer to this group whom the "WEEKLY" reaches question. The letter is as follows:

Weekly Staff,
Muhlenberg College,
Allentown, Penna., U.S.A.

Gentlemen:

I can hardly write an interesting letter when there is such a weighty matter on my mind. Will you please read with patience? I hesitate to write such a letter as this, as I do not want to annoy you, but the time has come when I must ask you a question and I hope that you will give me your honest opinion. The contemplation of this has caused me many nights of worry and anxiety and a corresponding number of days of restlessness. You will probably understand my reluctance in writing you regarding a matter of such importance when I tell you how many happy homes have been upset by similar troubles. Still I think that you should know the worst, at once, for in my sincerity it may be best for the both of us. I cannot communicate the state of my troubled mind to my most intimate friends, for as you may know, they are all false these days and not trustworthy. But you, as my true friends, I trust will be willing to help me, as you may have experienced the same dilemma sometime in your own lives, although I certainly hope not.

I now ask you a great favor, would you put away all social joys and devote all your faculties to the careful consideration of the question I am about to ask you? Hardly knowing whether to sign my name, which you all know so well, for fear other eyes may see the secret I ask you out of the fullness of my heart and hope you will give me your honest opinion. Think hard, my friends, think hard—do you suppose the library will be completed this year?

Thanking you very sincerely for any trouble that this request may have brought to you and hoping to hear from you in the near future, I remain,

Yours very gratefully,
(WITHHELD).

## Who's Who on the Campus

Russel C. Struble

Step up and meet the boy from Perkasie, Pa.! As a freshman "Jock" claimed he was a confirmed "woman-hater". According to rumors, it took just two and a half years to get him out of that rut of thinking.

In spite of his seemingly hate (?) for the women, there is one thing that "Jock" does love—that is gym. "Jock" has spent many hours in "Bill" Ritter's Emporium of Body, Bone and Muscle Building. By this consistent labor he has acquired a physique that is to be envied by any one of his school mates.

When "Jock" isn't in B. R.'s E. B. B. M. B., he is usually found with his nose poked in a book garnering the latest in the realm of knowledge.

As an humble frosh the football and baseball squads found him right in there fighting for a berth.

In the year 1927-1928 "Jock" became a member of Student Council and he surely did make the frosh keep on their toes. "Jock" didn't confine his work to the M. S. C., but he also took the post as assistant advertising manager of the 1929 Ciarla.

"Russ" leans towards the B. S. course and arguments. Fraternally, the Philos Club claims him as a most worthy brother.

### CIGARETTE GROWTH

We are informed by a representative of Liggett & Myers Tobacco Company that they now have in operation four large cigarette factories—located at Richmond, Va., Durham, N. C., Philadelphia, Pa., San Francisco, Cal.—and that in addition to other brands, the sales of CHESTERFIELD Cigarettes alone are over twenty-eight billion a year.

It is also stated that CHESTERFIELD is an internatioanl brand, and that in a letter received from a passenger on one of the around-the-world cruises, the information was disclosed that in practically every port visited CHESTERFIELDS not only were on sale, but were the leading American brand in that city.

### APPROVAL FOR DEUTCHES HAUS, STUDENTS TELL OF TRIP

Dr. Barba reported to the German Club that an interview with a committee of the Board of Trustees had resulted in the gaining of approval of the idea of raising funds for a Deutsches Haus to be built on the campus.

The students who accompanied Dr. Barba to Europe gave the lighter side of that trip. Their material was taken from the "silent spaces" of the Doctor's speeches.

A general view of Germany and the impressions made on the party as a whole were related by Paul Miller.

William Kistler carried the group from France to and across the Rhine. He lost them in the Black Forest.

Tryon Bauer found them foot-sore and weary. He lead them to Switzerland. He portrayed well the magnificence of its scenery.

Edwin Kline nearly said too much. He escorted the men over the Unterfandelsharte Glacier. He slipped.

The conversion of Charles Shimer was a confession. After Charles has unburdened his soul, he delightfully walked around the Ringstrasse in Vienna and through all the beer-gardens of Munich.

Mr. Bardecker, Stanley Reimer, proved that he saw more than books and maps. He included Berlin and started the Rhine walk.

John Fraundfelder deplored the scarcity of modern, sercicable antiques. He regretfully said farewell to the little blonde on the Lorelei Rock.

### THE NEW AND OLD

Gaze upon the picture set in this article. Compare it with the new building on the left of the Ad building. Yes they are sisters. This picture is one of the old library when it was in its prime. Don't you think the new one is worth waiting for? It surely is! Think of the shining marble, the light and quietness embodied in the new library as compared with the old one shown here. When our Alma Mater puts up a new building she doesn't fool!

## DR. ROBERT C. HORN HONORED ON TWENTY-FIFTH ANNIVERSARY

### Several Hundred Alumni And Students Honor Greek Professor At Banquet

Last Thursday evening Dr. Robert C. Horn, professor of Greek language and literature, was honored on his anniversary of twenty-five years of service with Muhlenberg College. A testimonial dinner to him was given in the college commons at 6:30 and following a lecture at the Science building later, a memorial fund was presented for his use.

Several hundred alumni, faculty members and students took part in this glowing tribute to a man that is well known and beloved not alone at Muhlenberg and in the Lehigh Valley, but also throughout this section of the United States. Dr. Horn is not only a profound Greek scholar, but also an authority on Greek literature and art.

The whole affair of last evening was a complete surprise to Dr. Horn, until he was ushered into the commons and presented with the memorial, he had not the slightest idea of all that had been planned. The planning of the affair and the canvassing of alumni and students was done so quietly and effectively by Professor Albert C. H. Fasig, alumni secretary, that not the least hint of the preparations leaked out.

At the dinner in the commons, James F. Henninger was the toastmaster. Tributes to Dr. Horn and remarks from representatives of the schools in the Lehigh Valley were made. The entire group then adiourned to the auditorium of the science building.

In the science building, Dr. David M. Robinson, professor of archaeology at the Johns Hopkins University, gave an illustrated lecture on the recent excavations and discoveries at Olynthus. Dr. Robinson is an outstanding authority in his field and his lecture was not alone instructive, but also interesting and enlightening in regards to present discoveries.

Dr. John A. W. Haas, president of Muhlenberg, presided at the lecture. He gave a brief biography of Dr. Horn and told of his manifold accomplishments. Rev. William L. Katz, '13, then made the presentation of the memorial. Its consisted of $1000 in cash and pledges, with a gift of $800 from a special fund, the transfer of which had not been completed at the time. Besides this there is an amount of money which the donors have sig-

## KAPPA PHI KAPPA HEARS TALK ON HIGH SCHOOLS

### C. S. Frankenfield of Northampton, Tells Fraternity of Supervision Problems

High school supervision was the subject of the talk given Friday evening by C. S. Frankenfield of the Northampton High school at the bimonthly meeting of Kappa Phi Kappa. The professional educational fraternity of Muhlenberg meets in the Administration Building and discusses at its meetings, problems of the school.

Mr. Frankenfield stressed the teacher-pupil relationship. He showed the necessity of a fine spirit of good-will existing between the teacher and the pupil. Many times the difficulty a pupil as in certain classes is entirely due to a feeling of misunderstanding with the teacher. Many times also, the teacher is unable to make any progress with his class, because of a feeling of misunderstanding with his class. This is the first thing that a teacher must overcome.

One of the best ways of breaking down this barrier that is often very discouraging is the introduction of pupil-teacher activities. By relations

## M. C. A. ACTIVELY AIDING STUDENTS

### Chaplain Cressman Plans Various Situations That Students Might Profit During Summer

The Student Young Men's Christian Association movement has inaugurated a new phase of summer work for students, by which the college men come in actual contact with industry and its problems. The Muhlenberg Christian Association is undertaking this work in co-operation with the national organization to bring this service to Muhlenberg students.

Seminars in this work have been arranged by Y. M. C. A. agencies. At regular times, groups of students will meet and discuss under competent leadership the problems and experiences which have been theirs.

Qualifications for group membership include: a desire to search for truth, an open mind, and some ability to analyze and evaluate the fact concerning their specific situation. The student must have some work in sociology and economics. The registration fee is small, but the salary which the student earns belongs to him.

* * *

The newly elected officers of the M. C. A. will attend the State Student Y. M. C. A. Conference which will be held at Gettysburg College on May 3-4-5. Dr. Henry H. Crane, who has traveled all over the world, and has done some work in China, will be the principal speaker.

* * *

The M. C. A. has undertaken another plan by which students will be placed in settlement houses in New York City to do social work between June 25 and about the middle of August. The compensation for the work includes room and board.

The work will consist mainly in supervising athletic contests, playgrounds, clubs, Daily Vacation Bible School, manual training, swimming, hikes, etc. Through this work the men will get first hand information

(Continued on Page Three)

## DR. HAAS WILL REPRESENT U. L. C. AT COPENHAGEN

### Two Muhlenberg Men Will Attend Sessions of Lutheran World Convention

Two men intimately connected with Muhlenberg will be official delegates at the Lutheran World Convention to be held this summer from June 26 to July 4, at Copenhagen. They are Dr. John A. W. Haas, president and Dr. E. Clarence Miller, one of the trustees. They will go as delegates of the United Lutheran Church in America.

Representatives from the Lutheran Church all over the world will convene for these nine days to discuss problems of the Church. Some of the countries that will be represented are Australia, Denmark, Sweden, Hanover, Poland, Iseland, Prussia, Saxony, Hungary, Rumania, United States of America, Szechoslovakia, Madagascar, Finland, Austria, France, Holland, Esthonia, Latvia, India, China, Japan, Canada and Jugoslavia.

The principle problem that will be discussed at this great convention is the inner organization of the Lutheran Church. The attempt will be made to make its many divisions and branches more co-ordinated and efficient. The work in missions will also be the topic of numerous conferences.

On the Sunday that falls during the convention, the deelgates that have come from all parts of the world will preach in the many church of Copenhagen and the vicinity. After the convention, several tours have been arranged through the Reformation lands.

## DR. HENRY H. CRANE AT "Y" CONFERENCE

### Annual Spring Conference To Be Held at Gettysburg, May 3, 4, 5, 1929

Dr. Henry H. Crane, Nephew of Frank Crane, will be the main speaker at the Annual Y. M. C. A. Spring Officer's Training Conference of Eastern Pennsylvania to be held on the Gettysburg College Campus, Gettysburg on May 3, 4, 5, 1929.

This Conference is primarily for the purpose of training the newly elected officers and committee heads in the workings of the Y. M. C. A., that they may be more efficient, capable, influential men to administer the duties of the office to which they have been elected. Also, that their own life may be enriched by the fellowship with men who have seen the vision, are living the life of consecration, and are losing themselves in Christ-like service for the Master.

Dr. Crane, who was formerly from Boston, is one of the strongest speakers in Pennsylvania. He was born at Danville, Illinois, and is now about 45 years of age. He graduated from Wesleyan in 1913, has taken work at Boston School of Theology and some graduate work at Harvard. While in college he was a member of the all-American Basketball team, played on the Tennis team, was manager of the football team, a leader of the Glee Club and also active in College dramatics. At present he is pastor of the Elm Park M. E. Church at Scranton, Pennsylvania. He is a wonderful Christian leader, full of pep, very original in his delivery, and any student or professor will be highly benefited for hearing him.

The tentative program, in brief, for the Conference follows: Registration in the afternoon of May 3, from three to five in the Gettysburg Y. M. C. A. After supper, Dr. Henry H. Crane will speak at the opening session, followed by an open forum.

(Continued on Page Three)

## NEW LIBRARY IS AN OUTSTANDING PIECE OF WORK

### Fine Building on Campus Is Well Constructed and Beautifully Decorated

The new library building that is in course of construction at Muhlenberg will be one of the finest structures of its kind in eastern Pennsylvania. Work on the building is nearly completed and it is the plan of the college to dedicate it on Tuesday, May 28, 1929.

The library building is entirely fireproof throughout. It is planned that even the furnishings will all be of metal. It is built of brick with stone trim and the outstanding feature is the high tower whose dome may be seen for miles. There are two main floors and a stack room.

On entering the ligrary through the beautiful ornate doorway, one steps into a large lobby 35 feet square. Directly opposite the doorway is the checking counter where the circulating books will be obtained and returned. The entrance to the stack room is also here. All of the books of the library, except special reference books, will be kept in these stacks.

To the right and left of the lobby are two large reading rooms, 48 by 36 feet. Around the walls are shelves on which reference books and magazines will be kept. On the first floor will also be found offices for the librarian and a room where the board of trustees of the college will meet.

Over the offices and board room, on a mezzanine floor, two study alcoves have been built. These are bright and cheery rooms, twenty by thirty-four feet. The second floor has been left as one large room. It is nearly 125 feet long. This will probably be used as a museum for the college.

(Continued on Page Three)

## JUNIORS HOLD PROM AT AMERICUS HOTEL

### McEnelly's Victor Recorders Produce Background For Successful Dance

To the Junior class of 1930 goes the honor of holding one of the best 'Proms' that Muhlenberg has ever witnessed. The tastefully modern ballroom of the Americus Hotel, combined with McEnelly's Victor Recording Ochestra and the artistry of beautiful gowns created a background of atmosphere that could not be surpassed.

Nearly one hundred couples gathered soon after nine o'clock and were carried off to danceland by the hypnotizing music of McEnelly's thirteen men. When two o'clock came and the inspiration of jazz-land left for Bridgeport and the New England shore, a group of tired but happy promenaders left the scene of merry-making, voting the "Junior Prom" a great dance.

"Dick" Koons, head of the committee on arrangements and a talented musician, was the cause of the big specialty number of the evening when he composed from the melody of Muhlenberg's "Rush, Rush on Down the Field", a number that was called for several times as an encore. The sensational number of the night was "The Road to Mandalay" and the portraying of the storm by the flashing of lights around the ballroom.

There were no favors this year as the money that was formerly put into favors was used in getting the very popular orchestra and no attendant was disappointed after being carried off to the strains of McEnelly.

The chaperones for the evening consisted of Mr. and Mrs. Lawrence H. Rupp, Mr. and Mrs. Guerney F. Afflerbach and Professor Joseph S. Jackson.

The committee responsible for the successful affair consisted of Dick Koons, Gene Twining, Jerry Boitano, Jimmie Lanshe and Henry Pierce.

## NICK BORRELLI GOES TO PORTLAND

### Former Muhlenberg Ace Will Profit by Year in Minors Says Connie Mack

Our former football hero, "Nick" Borelli is going to spend the summer on the golden slopes of the Pacific coast, holding down the hot corner of the Portland team of the Pacific Coast League. Nick, previous to joining the A's in camp this spring ,made mention of the fact that if he couldn't "break in" on the big league team this year would prefer to go to Portland and it appears that Connie Mack is granting him his wish.

"Just a year of seasoning" said Manager Mack, "is all that I feel Borelli needs to fit him for the big leagues. I think he is a great prospect and will come back to us a real big league ball player. Mack explained that it would be better for Borrelli to play regularly in the minors than sitting on the bench in the big leagues. The Athletics would have retained the former Cardinal and Gray Ace, but with Hale, Dykes and Foxx, all capable third basemen, there would be little opportunity for Borelli to play.

Borelli's showing with the A's in camp was one of the big surprises of the season. His reporting to the club at Fort Myers at first only attracted mild attention but in the first practice game he came into fame with great form at the bat. After this trial Mack decided to put him in the lineup for exhibition and practice games where he continued hitting the horsehide as hard as any of the Athletics. Not a game passed in which Nick did not get a hit.

Connie Mack had quite a problem deciding on farming Borelli out, but when he was assured that Sammy Hale's arm was recovered from its weakness Nick's services were useless.

## THE REV. D. WILMOT GATESON IMPRESSES STUDENTS IN CHAPEL

### Chaplain Of Lehigh University Uses As Subject, "The Ethical Value of Virtue."

The very Rev. D. Wilmot Gateson, D.D., dean of the Episcopal Pro-Cathedral Church of the Nativity in Bethlehem, and chaplain of Lehigh University, despite the impressive appendiges strung both before and after his name gave a most human and appreciable talk in chapel services on Thursday morning, April 11.

His subject in itself would have been enough to frighten off any but theologians, and yet Rev. Gateson not only made an interesting talk from the subject, but an impressive one as well. The subject was "The Ethical Value of Virtue."

The opening remarks brought the speaker to the very heart of his talk: virtue is not a weak thing, a characteristic of religious cranks, but is a very real and virile thing comparable to the old pagan philosophy of virtue. The four cardinal points in ancient pagan virtue, according to Rev. Gateson, were: courage, temperance, justice, and wisdom. Each of these were not the result of a philosophus thinking, but the outgrowth of practical experience. To the primitive man nothing was so essential as courage; as he developed he realized that to compete with the forces of nature he had to be temperate; sometime later he realized that if he wished to live unmolested, he must not molest his fellows, and thus a sense of justice was developed. And finally to his rude mind grew the importance of not only brawn, but brain as well, and wisdom matured.

Rev. Gateson continued with the reminder that pagan philosophy is not out of date, for this is a pagan Age, with its barbaric music and wierd, stamping, dancing.

Then followed one of those startling statements which Rev. Gateson seemed to enjoy hurling at his audience like a dash of cold water. "America can hardly any longer be called Christian at all! Our virtue is either gone, or has lost much of its altruism and hopefulness and goodness." What is needed, according to Rev. Gateson, is more pagan virtue, and upon it a superstructure of faith, hope and love. There he summed up in beautiful flight of oratory. "The World" he said, "Is cold and dark unless we have faith in a future, where we can continue all the beautiful things for which we could not find expression in this World."

## MUHLENBERG GRADUATE RECEIVES FELLOWSHIP

### To Make Research Studies In England

Dr. James E. Ernst, who graduated with the degree of B.S. from Muhlenberg College in 1917, has received a Guggenheim Fellowship to make research studies in England concerning the life of Roger Williams.

He will make a study of the English background of Williams and his contemporaries with a view to preparing a biography on Williams as a creative political thinker and a pioneer of American thought. He will visit the British Museum, the British Colonial Records office, National Library of Wales, Cambridge University and many other points in Great Britain. The book is to be written in time for publication on the tercentenary of Williams' landing in Boston in 1631.

Dr. Ernst is author of "The Political Thought of Roger Williams." He also edited the poems for a volume entitled "The Connecticut Wits," the introduction of which is written by Professor Parrington.

Dr. Ernst was graduated from Keystone State Normal school, now State Teachers College, Kutztown in 1913; received his B. A. degree from Muhlenberg College in 1917; served in the 316th Infantry, 79th Division, A. E. F., during the World War; received his M.A. degree in English from the Univesrity of Pennsylvania in 1922; was graduated from Mt. Airy Theological Seminary in 1922; earned his B.D. degree there in 1925; in 1926 received Ph.D. degree at University of Washington, Seatle, Wash.; was head of the English department of Jamestown College, North Dakota, 1922 to 1924; in English department of University of Washington, 1924 to 1926; is now in English department of University of Illinois, Urbana, Ill. He will sail for Europe on the Ile de France, Friday, July 25, from New York.

## MUHLENBERG HOST TO I. N. A. C. CONVENTION

### Local Institution Will Entertain Delegates From Twenty-five Colleges May 3rd to 5th

Muhlenberg, in conjunction with Cedar Crest, is to act as host to the annual convention of the Intercollegiate Newspaper Association, which is composed of twenty-six college publications from te Middle Atlantic States. Earle Winters, of the "Weekly" staff, is chairman of the committee arranging plans for the convention. The week-end of May 3, 4, and 5, has been set aside for this affair. The following is the program decided upon by the committee:

**Friday, May 3**

2 P. M.—Registration of delegates in Muhlenberg Chapel.

3 P. M.—Business Session. Evening open for amusement.

**Saturday, May 4**

9 A. M.—Business meeting at Cedar Crest.

4 to 7 P. M.—Tea Dance at Cedar Crest.

7 P. M.—Banquet at Americus Hotel. Speakers include Dr. Haas of Muhlenberg, Dr. Curtis of Cedar Crest, representatives of the "Morning Call" and the United Press, and president of the I. N. A.

**Sunday, May 5**

10 A. M.—Tour of Lehigh, Lafayette, and surrounding country.

## DUKE UNIVERSITY

The Duke University orchestra, the Blue Devils, will travel to Europe this summer and provide music for the foot-loose of Dic Kusaae Astende Balnearie, a casino not far from Paris.

## LITERATURE CLUB DISCUSSES SPENSER

The Literature Club under the direction of Mr. W. D. Coder had a very interesting meeting at the home of Mr. Scheidt on Friday evening, April 12. With all the members present the meeting was a great success from the educational standpoint, as well as from the social point of view.

Since two meetings were combined into me, two students had charge on this occasion, although the usual custom is to have a single speaker. Mr. Munsch, the first to speak, explained and interpreted the second book of the Faery Quenn by Edmund Spenser in a very capable manner. He was followed by Mr. Klick, who gave an interesting discussion on the influence of Spenser on later poets.

After a brief general discussion on relative questions, the members were treated with pretzels and Ginger Ale through the kindness of Mr. Scheidt. It was then decided to hold the next meeting on Wednesday evening, April 17, at the home of Mr. Coder, at which time Ralph Dinger will discuss the first four books of Browning's "The Ring and the Book." With this decision the members were brought down from their lofty flights in the clouds of poetry by the adjournment of the meeting.

### Student Placement Service

One of the most vital problems the college must face today is the problem of Student Placement, both as to graduates and undergraduates. Both groups leave college at a time when thousands of others are leaving college and making a bid for available jobs with the result that many men are without work for weeks because only the outstanding concerns are approached while others with employment possibilities for students are overlooked due to ignorance of them on the part of the student looking for work.

In an effort to overcome this defect as far as the Muhlenberg students are concerned, the college is making a special effort this year to locate employment possibilities to which applicants can be referred. Such employment possibilities being sought are permanent positions for the graduating seniors and temporary summer positions for the undergraduates. An extensive correspondence is being carried on to make the plan of student placement at Muhlenberg a success but success can be attained only through the co-operation of the alumni and friends of Muhlenberg College so situated that they can learn of employment possibilities and who will pass the information on to the Employment Bureau, or Rev. H. P. Cressman, at college. A file of names is kept in the office for ready reference when calls come to us, but due to the unemployment so prevalent at present, the calls are fewer than ever this year and we are extending a call to our alumni and friends asking for their co-operation. Positions must be filled by someone and a note from you may mean helping a Muhlenberg man get a position that will insure his continuation at college or getting a favorable start after commencement.

Unless permission is given to use the name of the informant as a reference, all information will be treated confidentially and the source of our information will not be revealed to anyone. We will get into communication with the firms concerned and suggest their co-operation with us in placing our students in their service. All we ask of you is that you give us cads and we will follow the cads suggested without any further call on the individual giving us the information.

All information should be sent to the Employment Bureau, or to Rev. Harry P. C. Cressman, at Muhlenberg College, where they will receive prompt attention.

## MUHLENBERG STUDENTS NOW AT SEMINARY

The annual catalogue of the Lutheran Theological Seminary at Philadelphia shows that of the 119 students enrolled during the scholastic year 53 were graduates of Muhlenberg College or received their preliminary training at that institution. Among the "Graduate Students" still taking courses at the Seminary we note the following Muhlenberg men:

'99. Rev. J. A. Klick, Pastor Trinity Church, Hecktown, Pa.

'10. Rev. Paul P. Hyett, pastor Church of our Savior, Philadelphia.

'13. Rev. David H. Frederick, pastor St. Stephen's Church, North Bethlehem, Pa.

'13. Rev. William L. Katz, pastor St. Luke's Church, Allentown, Pa.

'14. Rev. Arthur S. Deibert, pastor Zion Church, Northampton, Pa.

'18. Rev. David F. Longacre, pastor St. John's Church, Boyertown, Pa.

'20. Rev. W. Chester Hill, pastor Grace Church, Wyndmoor, Pa.

'20. Rev. Luther B. Klick, pastor Plainfield Parish, Wind Gap, Pa.

'20. Rev. Harvey C. Snyder, pastor St. John's Church, Nazareth, Pa.

'24. Rev. Edward J. Mattson, B. D., pastor St. John's Church, Ambler, Pa.

'25. Rev. Charles F. Brobst, pastor Hilltown Parish, Perkasie, Pa.

'25. Rev. William C. Seaman, pastor St. Peter's, Stowe, Pa.

In the Senior class of the Seminary Muhlenberg is represented by E. L. Angstadt, Richard A. Beck, George R. Deisher, Jr., Malcolm S. Eichner, James Harrison, Ralph L. Kerstetter, Norman E. Kieffer, Reuben E. Kramer, Ellerslie A. Lebo and Gerald G. Neely.

In the middle class we find the following Muhlenberg men: Edwin W. Andrews, Karl S. Henry, John A. Janisak, Jr., Henry M. Kistler, Lloyd W. Kleinfelter, Earl A. Kreidler, Luther L. Lengel, John R. M. Clellan, Arthur H. Naugle, Frederick K. Ritter, Claude E. Schick and John C. Wurtz.

In the Junior class Muhlenberg is represented by Andrew M. Brndjar, Walter Cowen, Harold G. Deisher, Wilmer F. Furman, Russel S. Gaenzle, Warren C. Heinly, Paul J. Henry, Charles E. Huegel, Andrew Kanyuck, Joseph A. Kavalek, George E. Klick, Alfred A. Koch, Clarence W. Rhoda, Elmer G. Schaertel, Norman M. Schlegel, Ralph W. Sell and Paul R. Wertman.

## FACULTY NOTES

Professor Boyer addressed the teachers of Salisbury township at Mountainville, Friday, April fifth, on the subject, "A Discussion of Problem Children."

He also spoke to the Ladies' Auxiliary of the First Presbyterian Church at Catasauqua on the subject, "How we Make Mental Adjustments to Unpleasant Situations".

Examination Teacher: Charley, what does your father do when he finds anything wrong with his car?

Charlie (truthfully): He bawls Ma out.

## DR. SWAIN WRITES ABOUT WORK ABROAD

### Expects To Publish Book On Life Of Talleyrand

In a letter received recently from Dr. James E. Swain, Professor of Europeon History at Muhlenberg, he tells of the work he is now doing in Parris. Dr. Swain was given a six months leave of absence by the college to permit him to do research work and study conditions abroad.

Dr. Swain is preparing material for a book that he expects to publish in the near future on the life of Talleyrand. At the present time he is working in the government offices in Paris, going over the correspondence of the great Frenchman of a century ago.

Dr. Swain writes, "My work is going along nicely but the amount of material is almost overwhelming. I am not surprised that no one has taken the trouble to write a life of Talleyrand, he simply did too much. The number of his letters seems to be unlimited."

"The documents for my work are preserved in three different places; all equally inaccessible. The correspondence between the French government and foreign states is filed in the archives of the Foreign Office. This is where most of Talleyrand's official correspondence is and anything official to the French means something that should be kept secret.

"In order to gain admission I had to have the American Embassy present my petition to a noble body of bewhiskered gentlemen. After an interview with them, in which they did all the talking, I was given permission to enter. Once in, my troubles were just beginning. I had to find what I wanted in what seemed to me complete chaos, and wait my turn to have it produced. The Bibliotheque Nationale, the second place, contains mostly printed materials, but there are some letters in the Manuscripts Division. The third, the Archives Nationale, is the most interesting of them all. The building itself is an old mansion, formerly occupied during the Empire by a French family of the nobility. Some of the rooms are still furnished as they were when the place was occupied, but tucked away in the darkest corner of the building is the room where one is supposed to work. Practically all of the government papers, except those in the Foreign Office, are kept in this place.

Dr. and Mrs. Swain also expect to visit Rome, Vienna, Berlin, and London where Dr. Swain will continue his research work. It is also a part of their plans to stop in Algiers, Russia and Belgium.

## INTRAMURAL TEAMS RESUME ACTIVITY

With the basketball season gone, the biggest lap of the intramural schedule is over. But now we come to those sports which afford opportunity for more men to play and less skill required. The playground season opens this week and some keen competition will surely be shown. Besides all the glory to the fraternity that wins most of the games there is the added sport and fun in playing the old ball game. While the playground games are being played on the campus there will also be volleyball games played on the volleyball court near the tennis courts.

**Intra-mural Schedules**

(4:30 P. M.—6:15 P. M.)

| | Tennis—Volley Ball | | Playground Ball | |
|---|---|---|---|---|
| April 19 | | | 1—5 | |
| April 22 | | | 4—6 | |
| April 23 | 3—4 | | 2—5 | |
| April 25 | 2—5 | | 3—4 | |
| April 26 | 4—6 | | | |
| April 29 | | 1—4 | 5—8 | 2—6 |
| April 30 | 2—6 | 5—8 | 1—4 | |

Volleyball: Two best out of three—15 points.

Tennis: (doubles) 1 set

Track—one entry in each event.

## DR. ROBERT C. HORN HONORED ON TWENTY-FIFTH ANNIVERSARY

(Continued from Page One)

nified their intention of subscribing, but for which the pledge cards have not as yet been received. It is estimated that the totol wil reach $2000.

This money will constitute a fund that will be known as the Robert C. Horn Greek Alcove Fund. A section in the new library will be set aside which will be known as the Greek Alcove. Books for it are to be purchased at the discretion of Dr. Horn. The money will be used to build up a fine classical library at Muhlenberg. Over the alcove a plate bearing the legend that that corner has been set aside for this definite purpose through the gifts of alumni, students and friends, will be placed. It is expected to make this fund an endowment, so that every year money will be available for books.

Dr. Robert C. Horn was born at Charleston, South Carolina, on September 12, 1881. He received his early education in the schools of Charleston and the degree of A. B. from Muhlenberg in 1900. In 1903 he got his A. M. from Muhlenberg and the same honor from Harvard in 1904. The University of Pennsylvania gave him his Ph.D. in 1926. The degree Litt. D. was given him by Muhlenberg in 1922. He has done graduate work at Johns Hopkins, Harvard, Columbia, and U. of P. He also has conducted several vlasses at the University of Pennsylvania.

Dr. Horn came to Muhlenberg College as an instructor in the fall of 1904. In 1905 he was elected a professor. He has written innumerable articles on Greek literature and art and has been honored as the contributor to that section in the American Year Book. Dr. Horn has also written a very interesting study entitled "Followers of the Way." This book is on sale throughout the country. In recent years, he was made assistant to the president at Muhlenberg, and next year, during the leave of absence granted Dr. Haas, will act as president.

The committee that arranged the affair of last evening consisted of Claude G. Shankweiler, Warren R. Fritsch, William L. Katz, Gomer S. Reese and Charles L. Shimer.

Mrs. O'Malley: "Me sister writes me that every bottle in that box we sent was broken. Are yez sure yez printed 'This side up with care' on it?"

Pat: "Oi am. An' for fear they wouldn't see it on the top, Oi printed it on the bottom as well."

## M. C. A. ACTIVELY AIDING STUDENTS

(Continued from Page One)

concerning the social and industrial conditions throughout the United States.

* * *

In addition to these various services which the M. C. A. offers in connection with the national Y. M. C. A., it offers a special opportunity to students who anticipate traveling in Europe this summer. The association offers a guide which helps to plan the trip, gives information about hotels, and informs the student about any conference or other events which he might like to attend. An International Student's Identity Card is offered by which many fees will be reduced and other priveleges offered, which could not be enjoyed otherwise.

* * *

If any student is interested in any of the services which have just been mentioned, he can receive detailed information from Chaplain H. P. Cressman in room 305, Administration Building.

## KAPPA PHI KAPPA HEARS TALK ON HIGH SCHOOLS

(Continued from Page One)

of this kind outside of the regular class work a closer co-operation is usually obtained. Not only must the teacher try to understand the problems of the child but also the pupil should be shown the problems of the teacher.

Another point discussed by Mr. Frankenfield was the objectives of the senior high school with regard to college requirements and entrance requirements. Too often these have to take the place of other attempts to give the pupil essential studies.

## DR. HENRY H. CRANE AT "Y" CONFERENCE

(Continued from Page One)

Saturday morning's session consists of worship speaker and then a division into small discussion groups, under the direction of capable leaders. The afternoon is devoted to recreation, probably a visit to the Battle field, after a session and open forum. Arthur Rugh, together with two foreign students will speak at the banquet on Saturday evening. A social period follows. Sunday morning, following devotions, a report of the findings of the discussion groups and faculty group will be presented. The dedicatory service for "Service" concludes the conference.

## NEW LIBRARY IS AN OUTSTANDING PIECE OF WORK

(Continued from Page One)

The finest workmanship has been put into the building and the beautifully decorated walls and ceilings, the artistic touches and the sturdiness of construction will make it the finest building on the campus.

Only a few finishing touches are still to be made in the library, and Professor Stephen G. Simpson, librarian, expects to begin moving the books very soon. There are about 40,000 volumes in the Muhlenberg library at the present time. The moving and proper placing of all these books will be quite a task and to help with this work and the added duties that will come with the new building, the staff will be increased.

Salesman: Why don't you buy a new car? That wreck isn't fit for your wife to drive.

Man: I know it. That's why I keep it.

## MUHLENBERG DEFEATS ALBRIGHT IN DEBATE

On Monday night, April 15, 1929, in St. John's Parish House the Muhlenberg debaters defeated the forensic artists of Albright, 1-0 in a single judge decision, on the question:—Resolved, That the present jury system should be abolished.

Muhlenberg upheld the affirmative and Albright the negative. Muhlenberg's team was composed of Donald B. Hoffman, George Berg and Henry V. Sheirer, with Albert Buhl as alternat. Wendall Burger, Franklin Johnstone, Frederick Kleingina and W. Maier as alternate represented Albright.

Muhlenberg debaters showed the history of the jury system, the growing tendency to waive the jury trial, that the jury is not an able fact finding body and presented three alternate plans—one judge ,three judges or a body of fact finders.

The negative contrasted the judge with the jury, contended that the jury was fundamentally sound and that there is no possible substitute. However the negative did not uphold their burden of supporting the present system as they should have done.

Karl Donecker the manager of debating at Muhlenberg was the very efficient chairman. Attorney Tallman served as judge. The time-keepers were McKinley and Kaiser. The audience was a capacity crowd of fourteen.

### UNIVERSITY OF HAWAII

The University of Hawaii has raised the sum of $1000 to purchase furnishings for a school theatre. Knowing the erepischorean instinct which rules the legs of Hawaii, it seems sane to predict that the new stage will be a stamping ground for hula hulas, and that the entire problem of costumes for the chorus can be solved with a bale of hay.

## MUHLENBERG COLLEGE RAPIDLY CHANGING

### Was Formerly A Ministerial Institution, Now An Educational Center

When the writer first made mention of the fact to his home community that he was going to Muhlenberg College, it was not necessary to tell them what he was going to study for the ministry. It was an accepted fact that everyone going to this institution was preparing for that profession as a vocation. The Old Muhlenberg however, has passed away and in its place we have the New Muhlenberg, the institution of Education, Business and Science.

Members of Lutheran churches in different communities have been ministered to by pastors, graduated from Muhlenberg; they have contributed large sums of money for the education of future ministers and the welfare of the Sacred Institution. A great many members of these churches are untrained as to the nature of work done in a college and many of them believe that the college prepares one only for the ministry. Muhlenberg was, in fact primarily planned as a school to prepare men for the seminary, but what a big difference time and introduction of different departments have caused. Today we find the ministerial group far in the background, as only one-sixth of the students in the college make up that group.

What has caused these changes we ask ourselves? The study is very interesting. The introduction and expansion of the Science and Educational departments produced the opportunity for change. But opportunity alone results in nothing unless you grasp it by the horns and steer it in the right direction. The growth in the Science department has not been so great as that in the Educational department. But with the new Science building and its modern equipment that field is bound to grow. The old chemistry laboratory and its crowded physical classrooms could encourage no student to their walls. But the possibilities of the modern structure are unending. The science department of the faculty has also been greatly enlarged and more men skilled in their abilities to teach the subjects have been secured. Thus the little smattering of chemistry and physics that former students received is replaced by a great standardized department, which yearly is sending many students to medical schools and into the field of scientific research.

But what about the Education department? It is now the **largest department** in the New Muhlenberg. Perhaps formerly many students were attracted to this College through the small cost of getting an education here. So much money was given to the institution through benevolence and church congregations that little money was required of the student. This was a big attraction to the man desiring an education at little cost. But now the attraction is that the man who pays for his education will be repaid after graduation by securing a lucrative teaching job. Through the abilities of the faculty heads of this department, the department of education has been so perfected that today it attracts the largest group in the College.

Each year new subjects have been added in education and state requirements have been met so that today in the field of education Muhlenberg ranks as a first class college. The summer school was initiated several years ago for men and women who could not afford the winter term. During each summer term almost 500 students are taken care of. The extension school held during the winter is also another part in the making of the New Muhlenberg. Through these classes which are held at the institution on Saturday and evening classes held in different cities of the state many students are reached and receive the benefits of this New Muhlenberg.

Very recently the Business department has been created and many students have decided on that as the Foundation of their future profession.

But the contributions of outside sources are no longer large enough to meet the expenses as they one time did. Tuition is being gradually raised to meet the deficit. Churches can not be expected to give toward the education of teachers in the public schools. The present freshman cannot guess what he will be paying into the College when he is a senior. The time has come or is coming rapidly when Muhlenberg within its own student body and by endowments will have to pay for the expenses of maintaining the College. Thus the Old Institution is riding on the crest of a new wave and advancing the cause for which it was primarily intended, while at the same time developing Christian teachers and Christian business men as well as Christian ministers.

## ALLENTOWN CONCERT CLOSES SEASON

### Muscial Clubs Give Excellent Concert Before Appreciable Audience

The Muhlenberg Glee Club and the Cardinals orchestra closed a successful season recently with a concert in the auditorium of the Allentown High School.

As the conclusion of a difficult schedule, these two musical clubs of Muhlenberg presented the people of Allentown with an excellent program. Professor Marks arranged the program and conducted the singing.

The two musical groups each year tour Pennsylvania and adjoining states, appearing in most of the larger cities. The Glee Club was first organized in September 1892, and the orchestra, the Cardinals, developed from an instrumental quartette which Professor Marks formed after he took charge of the group in 1913. Since that time, the Glee Club has built up a reputation as one of the best Glee Clubs in the eastern section of the country.

This year each member of the Glee Club, as a reward for his services, received a white sweater bearnig a cardinal "M", with a grew treble clef mark superimposed. The members of the Glee Club are proud of their sweaters, as well they may be.

When Glee Club and orchestra tryouts were called, enough men responded to permit only the best men to be chosen, without making the groups too small.

The personnel of the Glee Club follows:

First tenors: James E. Drury, '29; Francis Gendall, '30; Edwin C. Keenly, '30; Walter Price, '30; Rudolph Mattson, '31; LeRoy E. Snyder, '31; Edward L. Barndt, '32.

Second tenors: Arthur H. Chatten, '29; Paul C. Empie, '29; George Heck, '30; Wilmer Henninger, '30; Siegmar Blamberg, Jr., '31; Clifford Brinkman, '32.

Second bass: Paul E. Dries, '30; Curtis Frantz, '30; John H. Wagner, '31; David Kline, '32; Samuel Bartel, '32; Carl H. Moyer, '30.

First bass: Paul W. Dieckman, '29; Harold K. Laros, '29; Henry V. Sheirer, '29; Arlington Kepner, '31; Rudolph Scheidt, '32.

The accompanist is Frederick Fernsler.

The orchestra consists of the following: violins, Gene Twining (director), and Siegmar Blamberg, Jr.; pianist, Richard Koons; saxophones: Mr. Drury, Mr. Grollman, Mr. Moyer; trumpets: Clifford Brinkman, Mr. Neimeyer; tuba, Wilmer Henninger; banjo, Edwin Keenly; drums, Carl Moyer.

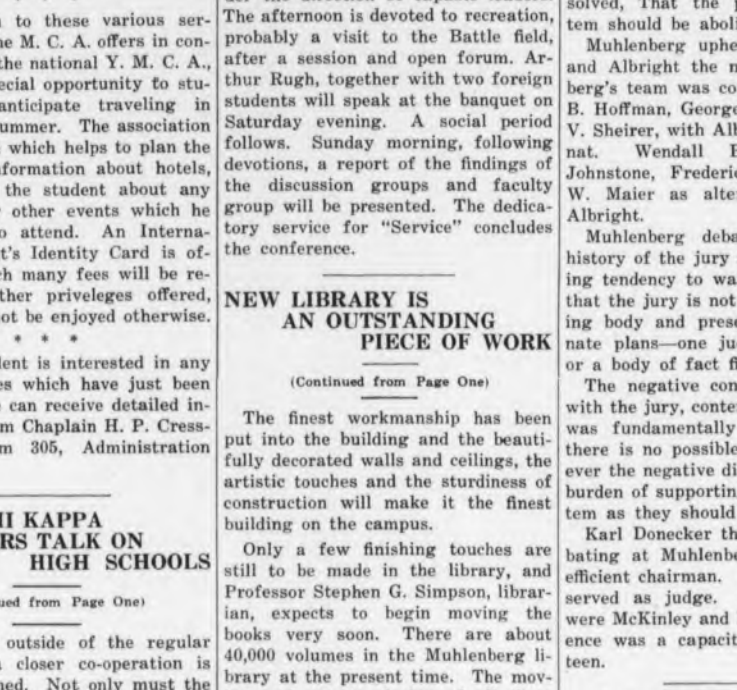
Officers: Musical director, Prof. Harold Marks; manager, Mr. Paul W. Diekman; Assistant manager, Mr. Wilmer L. Henninegr; president, Mr. James Drury; Secretary, Mr. Rudolph Mattson; press correspondent, Mr. Arthur Chatten; student director, Mr. Wilmer L. Henninger.

## GERMAN CLUB ANNOUNCES PLAYS

The German Club wishes to announce that several members of the club will present three short German plays.

(1) Eine Kaffelklatsch.
(2) Das Schwert des Damokles.
(3) Der Letzti Rock.

These plays will be presented in the near future at Reading. Muhlenberg students will be given an opportunity to enjoy them when they will be given in Allentown in the first week of May at St. Peter's Lutheran Church, located on Ridge Avenue at Chew Street. An evening of such a type of entertainment should not be left pass by unnoticed.



# Conquering the Cascades

SNOW falls every month in the year where the Great Northern crosses the Cascades. Steep, tortuous grades increase the difficulty of the railroading problem. Nature has stubbornly resisted man's effort to conquer the range.

In January, 1929, the new Cascade tunnel was opened. Man, with electricity as an ally, had conquered the Cascades.

The eight-mile bore was driven in three years—a record impossible without electric power. And electrification has been extended to the entire 75-mile route through the mountains.

The conquests of electricity on the land and on the sea, in the air, and underground, are making practicable the impossibilities of yesterday. As our vision encompasses wider horizons, electricity appears as a vital contribution to future industrial progress and human welfare.

## Who's Who on the Campus

**William Greenberg**

Four years ago this dashing youth came to the verdure campus of the Cardinal and Gray institution to become a shining light among his immediate classmates and a hero among the student body. This fellow is one of our most outstanding football stars and his prowess on the gridiron has gained him many admirers. He has played three years of football while here with his sophomore year as the outstanding one. During the summer previous to his junior year he met with an accident while diving in shallow water and was not able to play during his junior year. Too, it must be added that this injury caused him to slack up during the fourth year but we all remember him in his famous spohomore year. "Bill" Greenberg was the man who was a consistent line plunger and was usually good for ten yards. His great work in the 1927-1928 Franklin and Marshall game was highly responsible for that victory and will not be forgotten for a long time by those that witnessed the fray.

We must not pay too much attention to his abilities in football for he is also a great man on the diamond. He has played three years of that sport and can round the bases at a good rate of speed besides being a good man in the outfield.

He is a faithful member of the Muhlenberg Business Association and an ardent member of the "M" Club. His activities on student council have privileged him to wear the popular golfing hat which is respected by the frosh. Bill is a member of Sigma Lambda Pi fraternity and his brothers wish him success.

He plans to enter the world of business where we know his personality and friendliness will be a great asset to him. Good luck "Greenie"!

### MR. WILLIAM MUTHARD AMAZED AT PROGRESS

Mr. William Muthard of the class of 1919 paid the college a visit last Friday evening. He was amazed and delighted with the construction and equipment of the Science Building and the Library.

He is instructor in History and the Social Sciences in the Senior High School at Coatesville, Pa. Last summer he gave two courses: Educational Sociology, and Methods of Teaching the Social Science in the State Teachers' College at Shipensburg, Pa. He will offer the same courses at Shippensburg this summer.

An interesting problem in the schools of Coatesville is the relation of the pupils, white and black.

The negro pupils have their own grade schools and junior high school with a principal who is a negro of full blood. They enter the Senior High School and pursue the courses with the white pupils. Their work, in Mr. Muthard's opinion, is as good as that of the white students. Mr. Muthard is chairman of the International Committee in the city of Coatesville.

He spent the larger part of the evening with Prof. Simpson, discussing college problems of the past and present.

"The Spotlight" the high school paper which is under Mr. Muthard's direction has won a prize each year in the competition at Columbia University, since the institution of these prizes. The paper has also for two years been awarded silver cups in similar contests, directed by Pennsylvania State College as the best school paper in the state.

### TEMPLE UNIVERSITY

**Associate President Dr. Carnell Dies**

Dr. Laura Horner Carnell, Associate President and one of the greatest factors in bringing Temple University to its present position, died Saturday, 10:15 P. M., in the Samaritan Hospital. She received her degree from Temple in 1898 and 1902. She was a member of the Philadelphia Board of Education, National Education Association, American Association of University Women, and many other important organizations. She gave 35 years of her life to the building of Temple and she did a fine job remarkable well. Temple has experienced a great loss and the directors will be hard put to select a person to fill her position.

### UNIVERSITY OF CHICAGO

The University of Chicago claims a record in having the oldest frosh enrolled. The frosh is 72 years old.

### BASEBALL TEAM IS ALL SET TO GO

With the opening of the baseball season, the team is just about whipped into shape, and it looks as though Coach Benfer's nine will have one of the most successful seasons of the school's history, second only to that of last year's, which will long be remembered in the halls of Muhlenberg.

The opening of the regular season was scheduled for Wednesday, April 17, but due to wet weather during the past week it has been cancelled. The season will actually open on Saturday, April 20, when the Allentown Dukes will oppose the Bergmen on their field.

The team that will most likely start in the opening game will be Evans at catcher, Spotts at pitcher, Jacobs at first, Smith at second, Paschal at short, Steinhauer at third, Empie at leftfield, Kimble at center field and Kreisher at right field. In case Kimble would pitch, Kreisher would be moved over to center and Martin would probably be put into right field.

This lineup is however not certain and there may be a few changes, due to the fact that all positions are being ably rushed by a promising looking number of subs, especially the freshmen.

### KINGS COLLEGE (London)

A smoke bomb was exploded in a lecture room at King's College during an address by the noted communist, J. T. Murphy. Students then threw small sulphur bombs and eggs at Murphy. This method might prove useful and successful if used on some of our own professors.

### PURDUE UNIVERSITY

Purdue University innovated a plan which allowed each student to grade his instructors as to neatness, presentation of the subject matter, and other qualties which make a good teacher. As undergraduates will hand in these criticisms without signatures it is expected that the ratings will prove beneficial both to instructors and students.

### UNIVERSITY OF FLORIDA

**Tough Luck on the Blue Gator Again**

Publication of the University of Florida "Blue Gator" has been indefinitely suspended, and its editorial board dismissed from their positions by the faculty committee on publications. The Blue Gator has been in existence for three years. During its existence at one time or another, it has been barred by post office outhorities who change it with printing obscene matter.

"Enough is enough!"

*The great moment* may come at a "modernistic" symphony for piccolo and factory whistle, or it might arrive in a tobacco shop—that glorious instant when the healthy citizen boots out polite pretense and announces, "Enough is enough! Give me music I can understand; give me a cigarette I can really taste, or stop the show!"

You can't blame him. Cigarettes, like music, are supposed to give pleasure; if they don't they're flat, and that's all there is to it.

Now, Chesterfields are made for the express purpose of *satisfying the taste.* They have the requisite mildness, but *not* carried to the vanishing point. Starting with the finest tobaccos we can buy, we've added a blend that keeps the best of their flavors intact.

That's the whole story, of which the happy ending is, "I'd rather have a Chesterfield!"

CHESTERFIELD

MILD *enough for anybody..and yet..* THEY SATISFY

Vol. XLVII. Muhlenberg College, Allentown, Pa., May 15, 1929 No. 24

## DR. AND MRS. HAAS HOSTS AT LUNCHEON

### Students In School Of Education Entertained At Traylor

Dr. and Mrs. John A. W. Haas were the hosts at a luncheon at the Hotel Traylor to the students in the school of education that will graduate this year.

Each year the president and his wife entertain the graduating class both of the regular college and the school of education at a luncheon. The affair for the regular college will be Monday, May 27th, at the same time and at the same place.

Thirty-three men and women will receive their diplomas from the college this year for having completed the prescribed course in the school of education. Classes are conducted by Muhlenberg in Allentown, Hazleton, Reading and in some of the smaller towns in the vicinity, week-day evenings and at the college Saturday mornings. In this way several thousand men and women have had the opportunity of getting a college education in connection with their regular employment. The number taking this extension work this year totals 803.

Those that were the guests and will graduate on May 29th are: Jennie Bachman, Florence M. Cole, Louis E.

(Continued on Page Three)

## NEW POEM WRITTEN BY PRESIDENT HAAS

Once again our talented president favors us with a piece of poetry from his facile pan. It is a source of satisfaction and gives us something of a thrill to realize that we are round about and in contact with people who can write. We eagerly hope that there will be more to follow.

**Minnewaska**

Minewaska, lake of beauty,
On thy limpid, lapping water,
Gaily laughing, fall the sunbeams,
Shines great luna's mellowing light.

Round the rim, so strong and rock-bound,
Cluster myriad rhododendrons,
Offering richest, rarest fragrance,
As they proudly rear their heads.

And the laurel, star of flowers,
In the dells and glens appearing,
Lightens up the green about it,
Rising up in all its glory.

Here is solace for the spirit,
Hope and strength for human heart,
As it finds in nature's message
Loving letters from our God.

—John A. W. Haas.

## GAZE AND REJOICE!

The Muhlenberg Weekly is undergoing a change in the next year under the new staff. Many new features will be introduced as well as old ones revived. The following points will be introduced in the Weekly pages during the ensuing year:

1. A monthy message from the President of the student body dealing with student problems and suggestions.
2. A new common-sense editorial policy.
3. A new humor section.
4. A column to be called "Who's Who Among The Alumni."
5. Fraternity Row will be revived and strengthened.
6. Pre-reviews of teams to visit Muhlenberg in the future.
7. News that IS news and not news that WAS news will be given.
8. A regular date of publication which will be Wednesday of every week except in case of a holiday.
9. Pictures wil be used in every issue next year.
10. Close contact with the faculty will be maintained.
11. Any member of the student body is invited to hand in any material to the editor at any time for publication.

## CARDINAL AND GREY LOSE CLOSE GAME TO SCHUYLKILL

### Local Boys Fail To Get a Start In Schuylkill Fray

The Cardinal nine was whipped by the Schuylkill tossers in a hotly contested ball game on the home field by the score of 2 to 1 on Wednesday afternoon, May 8.

Schuylkill started the hurling fray with a "pop" by scoring a run in the first inning. With this lead against them, the Cardinals couldn't get started till the third inning when they tied the score. In the following inning, however, the Schuylkill players, made good their revenge, and sewed up the game by another run, which proved to be the winner.

The game was throughout a battle between the pitchers, Kimble and Bachman, both hurlers only allowing three hits. Kimble, the Muhlenberg tosser, pitched an airtight game throughout, striking sixteen Schuylkill batsmen out, compared to Bachman's four.

There were no outstanding plays in the entire fray, both teams playing safe throughout. The only individual play which deserves any special credit was the three-base hit by Evans, who also had more "outs" to his credit than any other player. The box score:

| MUHLENBERG | Ab. | R. | H. | O. | A. | E. |
|---|---|---|---|---|---|---|
| Pascal, ss. | 2 | 1 | 0 | 1 | 1 | 0 |
| Steinhauer, 3b. | 3 | 0 | 1 | 0 | 2 | 0 |
| Evans, c. | 2 | 0 | 1 | 13 | 1 | 0 |
| Jacobs, 1b. | 3 | 0 | 0 | 4 | 2 | 0 |
| Kimble, p. | 3 | 0 | 0 | 3 | 0 | 0 |
| Empie, lf. | 4 | 0 | 0 | 3 | 0 | 0 |
| Kreisher, cf. | 3 | 0 | 0 | 0 | 0 | 0 |
| Smith, 2b. | 3 | 0 | 0 | 0 | 0 | 2 |
| Borrelli, rf. | 2 | 0 | 1 | 3 | 0 | 0 |
| Totals | 25 | 1 | 3 | 27 | 6 | 2 |

| SCHUYLKILL | Ab. | R. | H. | O. | A. | E. |

## DER DEUTSCHE VEREIN PRESENTS PLAYS

### St. Peter's Lutheran Church Scene Of Club's Annual Presentation

Der Deutsche Verein presented its annual German plays in St. Peter's Lutheran Church, Thursday evening, May 9. The plays of which there were three, were all given in the German language. The synopses and casts follow:

**Das Schwert Des Damokles**

Bookbinder Kleister, who insists on reading all the books he binds, has acquired a certain kind of liberal education. In spite of his general good nature he becomes a veritable tyrant in his household when he finds that he has forgotten irrevocably the name of the gentleman, whose incessant praise of the happiness of kings caused King Dionysius of ancient Syracuse to have a sword suspended over his head by a single hair while seated at the banquet. Pedantic Schoolmaster Stahlfeder, suing for the hand of the pretty daughter of the bookbinder, casually makes mention of the "Sword of Damocles." Upon hearing this redeeming word, Bookbinder Kleister is once more restored to his genial equilibrium, and Schoolmaster Stahlfeder finds an admiring father-in-law.

CAST

## *Muhlenberg Frosh Crash Through For Title*

### *Cardinal and Grey Yearlings Take Premier Honors at Lancaster Meet*

Muhlenberg College Freshmen captured the Eastern Pennsylvania Collegiate Conference title at Lancaster on Saturday, when they finished high over some of the best Freshmen teams in the state.

George Majercik was the stellar performer for the Cardinal and Gray. He won the 100 yard dash, the 220, and the 220 low hurdles to take the high individual scoring laurels with 15. It was the first time that Majercik ever ran the hurdles.

The scores were Muhlenberg, 54; Dickinson, 36½; Ursinus, 31; F. and M., 29½; Gettysburg, 3. Summary:

100-yard dash: Majercik, Muhlenberg, first; Stengel, Muhlenberg, second; Burns, F. and M., third; Shelly, Ursinus, fourth. Time, 10.5.

220-yard dash: Majercik, Muhlenberg, first; Fisher, Dickinson, second; Stengel, Muhlenberg, third; Holly, Dickinson, fourth. Time, 23.

220 low hurdles: Majercik, Muhlenberg, first; Burns, Dickinson, second; Stengel, Muhlenberg, third; Holly, Dickinson, fourth. Time, 28.

120 high hurdles: Burns, Dickinson, first; Miller, Ursinus, second; Geiger, Muhlenberg, third; Mayers, Dickinson, fourth. Time, 19.2.

440 dash: Bowers, F and M., first; Bratto, F. and M., second; Raymond, Dickinson, third; Munsch, Muhlenberg, fourth. Time, 52.

880-yard run; Collier, Dickinson, first; Godschall, Muhlenberg, second; Munsch, Muhlenberg, third; Heist, Dickinson, fourth. Time, 213 2-5.

Mile run: Davidson, Muhlenberg, first, Collier, Dickinson, second; Krutzman, Ursinus, third; Shelly, Gettysburg, fourth. Time 4.52.

Two-mile run: Davidson, Muhlenberg, first; Laymond, Ursinus, second; Shelly, Gettysburg, third; Davin, Dickinson, fourth. Time, 10.32.

High jump: Miller, Ursinus, first; Keen, F. and M., second; Mackenzie, F. and M., third; Mart, Dickinson, fourth. Height, 5.4.

Pole vault: Baker, Dickinson, first; Kullo, Ursinus, second; Wopen, F. and M., third; Geiger, Muhlenberg, fourth. Height, 10 feet.

Discus throw: Geiger, Muhlenberg, first; Miller, Ursinus, second; Hoy, F. and M., third; Meyers, Dickinson, fourth. Distance, 120 feet, 1 inch. (New Muhlenberg record).

Javelin throw: Heist, F. and M., first; Fuch, F. and M., second; Mart, Dickinson, third; Riedy, Muhlenberg, fourth. Distance, 170 feet.

Broad jump: Miller, Ursinus, first; Keen, F. and M., second; Laymond, Dickinson, third; Geiger, Muhlenberg, fourth. Distance, 23 feet, 4 inches.

Shot put: Miller, Ursinus, first; Geiger, Muhlenberg, second; Hog, F. and M., third; Sheeley, Ursinus, fourth. Distance, 36 feet, 9 inches.

## *Japanese Lecturer Speaks in Chapel*

### *Professor Inadomi Outlines Present Day Conditions in Japan*

The college was indeed fortunate in securing the services of the prominent Japanese lecturer, H. Inadomi, professor and chaplain of a large boys' school in Kumamoto, Japan, for the chapel period on May 9. Prof. Inadomi centered his talk about the present-day condition in Japan, giving an interesting outline of the history of his country as background. He stated that the written history of Japan goes back 2,600 years during which time the country was ruled by one royal line.

Modern Japanese, according to the Professor, are quick to appreciate and adapt to themselves, ideas and methods of other countries. However, he continued, the rapid expansion along materialistic lines in the last half century has left something indefinable wanting. This lack is more strongly felt by the older generations.

America has exerted tremendous influence upon Japan, especially in the last few decades. This is evidenced in that all leading periodicals show traits of American journalism, styles of dress are copied from America, and the majority of the moving pictures are American productions.

Professor Inadomi further stated that education has received great impetus in the last quarter century. At the present time approximately ninety-five per cent of the inhabitants are able to read and write.

However, while all this materialistic development has been going on, the religious fervor, loyalty, and sincerity of the Japanese has declined to a great extent. Modernism has been the sole cause of this condition. In the past the Japanese peasants worshipped their nature gods for they saw in them, awesome powers for which they were thankful. But modernism has explained these natural phenomena consequently quieting the religious zeal. This gap, however, is being bridged by the Christian religion which for three hundred years had been the target for thousands of hostile writings. Leaders of Japan realize that Christianity will be the remedy because, as Professor Inadomi termed it, "You can not beat Christ down in progress."

At the conclusion of this interesting talk, the now officers of the student body were administered the oath of office by Dr. Wright. The new officers are: Henry Wickstrom, president; Ralph Steinhauer, vice-president; H. G. Lewis, secretary; Harry Steinman, treasurer.

## MUHLENBERG BOY ADDRESSES QUOTA CLUB

### Henry Scheirer Speaks On Mother's Day Topic To Local Women

Henry V. Scheirer, president of the Allentown district of the Luther League and Muhlenberg College student, was the speaker at the weekly noon meeting of Allentown Quota Club at the Hotel Allen today. Miss Sophie Schmerker, president was in Charge of the meeting.

At a short business session, it was decided that the girls' service com-

(Continued on Page Two)

## THE GOOD NEWS AT LAST FOR BOOSTERS

### Ground Will Be Broken For New Memorial Chapel

The event that all Muhlenberg boosters have been looking forward to is now about to come to pass. On Tuesday, May 28th, the same day as the dedication of the new library, ground will be broken for the Egner Hentzell Memorial Chapel. The edifice which is to be built of granite and in Gothic style wil cost, apart from furnishings, two hundred and forty thousand dollars. The organ

## HOME TEAM THRILLS BY VICTORY OVER ALBRIGHT

### Cardinals Top Albright Batsmen In Hot Contest

The Muhlenberg nine tanned their Coach "Haps" Benfer's Alma Mater in baseball on the Muhlenberg field, Saturday afternoon, May 11, when they defeated Albright by the close score of 4 to 3 in a hurling contest, the fate of which could not be decided until the last man was out.

The Cardinal players kept a steady lead up to the seventh inning when the score was 4 to 1, but here Spotts, the Muhlenberg pitcher, weakened, and allowed a run in both of the final innings. This seemed to scare the home batsmen, so that they were unable to add any run to their side of the score.

The individual laurels of this game fell upon Karlick of Albright, who hit a home run into deep left field duirng the last inning, which came dangerously close to tying the score. The two Albright men who followed were, fortunately unable to score against Spott's balls, so the game was ended with the local nine in the lead.

Although none of the Cardinals struck any home runs, Kimble came very close to it when he made a three base hit. Two base hits were struck by Pascal, Evans, and Kreisher. This, in addition to the fact that twelve Muhlenberg players were left on base, shows that hits were not lacking nearly as much as runs.

The lineups:

## STUDENT BODY HOLDS MEETING TO ELECT OFFICERS

### Men Elected To Guide Student Affairs

At the meeting of the Muhlenberg student body held Thursday morning, May 2, officers were elected to student government and Weekly positions. These men were installed Thursday, May 9, by Dr. I. M. Wright, and will continue until next spring.

According to the new constitution passed last month by the student body, the officers that have been elected to head the student body will also be the officers of the student council. In this way it is hoped that there will be greater efficiency in the management of student affairs, Representation on the student council has also been changed so that each fraternity will have one man on the board and the non-fraternity group will have one man for each forty of their number.

The men that have been elected to head the student body next year are Henry A. Wickstrom of New London, Conn., president; Ralph J. Steinhauer, Wilkes-Barre, vice-President; H. Garton Lewis, Perkasie, secretary; and H. A. Steinman of Philadelphia, treasurer.

Earle Winters, of Allendale, N. J., was elected as editor-in-chief of the Muhlenberg Weekly. Henry G. Aschbach, of Allentown, will be the business manager and Earle White of Frackville, the associate business

(Continued on Page Four)

## SCHOOL OF EDUCATION GIVES MAY PARTY

### First Affair To Be Held in New Library

The first affair to be held in the new library on the Muhlenberg campus was a May party given by the School of Education last Saturday afternoon. It was one of the finest affairs ever given by this division of the college and a large percentage of the faculty and the students in the School of Education were present.

The background of the afternoon was spring. Everything from the decoration to the refreshments spoke in some way of the brightest of all the seasons. Particularly novel were ice cream molds in the forms of many spring flowers.

The May party was held on the second floor of the library building, which may be easily adapted for large groups. It runs the entire length of the building and is nearly as wide. Besides cards, many progressive group games were played. Among those that captured prizes for their ability were Miss Nellie Hahn, Miss Laura Deisher, Miss Evelyn Osman, Miss Margaret McFadden, Mrs. Isaac M. Wright, Miss Mildred Daucfer, Miss Helen Smith, Mr. Wilmer Neitzler and Professor Carl W. Boyer.

A standing committee on social affairs was appointed for the School of Education at the beginning of the school year. Among those of the committee that took an active part in planning for Saturday's affair were Miss Florence Kohl, Professor Luther J. Deck, Professor Joseph Jackson, Dr. George Brandes and Dr. J. C. Keller.

## DEDICATION EXERCISES OF LIBRARY MAY 27

### Dr. W. M. Lewis of Lafayette Will Be Main Speaker

No longer now can Muhlenberg students cheer when the whistle blows and a brick goes up. For the library, our long sought after, much to be desired, and unable to be done without library, is at last completed. The dedication will be on Tuesday the twenty-eighth of this month at five o'clock in the afternoon. The speaker will be William Mather Lewis, of Lafayette.

The new library is an imposing structure well in keeping with the science building. Its size is one hundred and forty by sixty feet exclusive of the stack room. The stack room is forty by thirty and is capable of holding two hundred thousand volumes. The building will also contain a reading room, storage and binding rooms and offices for several of the college departments.

## TIME FAST APPROACHES TO COMMENCEMENT

### Students Are Urgently Invited To Attend Functions

Below is printed the program for commencement week. All of the events should prove most interesting and the students are urged to attend as many as possible. A worthwhile time is most certainly assured.

PROGRAM

Sunday, May 26, 10:00 a. m., Baccalaureate Sermon. St. John's Lutheran Church, S. 5th St., Allentown, Pa.

Monday, May 27, 10:00 a. m. Junior Oratorical Contest. 1:00 p. m., Senior Reception. 8:00 p. m. College Play. Class Reunions.

Tuesday, May 28, 10:00 a. m., Senior Class Day. 10:30 a. m. Meeting of Trustees. 1:30 p. m., Baseball game, Lafayette vs. Muhlenberg. 2:00 p. m., College Presidents of Pennsylvania meeting. 4:00 p. m., Alumni Meeting, Muhlenberg Woman's Auxiliary meeting. 5:00 p. m., Dedication of the Library Building. 6:30 p. m., Anniversary Dinner for

### System

F. W. Woolworth has worked up the most efficient plan of store management that is possible in these times. He operates or has operated an army of five and ten cent stores all over the United States. The railroads of our country and other nations all run according to a system or a schedule. All successful enterprises must have a specific outline to follow or they would not be in the high position they occupy.

Have they begun in a slip-shod manner or have they made their plans in advance? This is a question for all college men to ask themselves as individuals. Getting away from large bulky corporations and dealing only with individuals and in particular college men we should consider the proposition of systematizing our time.

May and June in colleges are the most beautiful months for dances and social functions but veritable hell for classes and exams. If system were applied to a college man's time then these months would be heaven. The point is this—May or June is not the time to begin to take courses. Theoretically this is true among our students. Although men may sit a whole year in classes still naught is thought about a course until the time for final exams comes rolling around and then the man asks "What does this mean", "what does that mean," etc.

"Breathes there a man" whose mind is so active that within two weeks of the final reckoning day he can cram his cranium full of material that has taken a professor a whole year to expound? We doubt it and so do you if you would only admit it. What are you going to college for? Very few can answer that question and if they attempt they usually get the answer wrong. We are here for learnin'. We are not here to be clothes models and social lions.

True—that is just what some of us are learning but that is because we have let our social appetite overcome our intellectual appetite.

Instead of trying to get our knowledge gradually as should be done we try to cram a whole year's work within too few hours. Is it worth it? Systematize your yearly work!

### The New Staff

According to the new Constitution of the student body, it is up to the newly elected Editor-In-Chief and Business Manager with the help of the Faculty Weekly Advisor, to appoint the remainder of the Weekly Staff. After a week of meetings, Consultations and planning this business has been done. We think that the new staff is just about right.

In the past the paper has been coming out—now and then. From now on however the date of publication has been placed as Wednesday of every week. This **Can** be done. The seniors on the staff are being paid in cash—not a deduction from tuition but hard cold cash. This puts the Weekly on a business basis. Thus in the future if any member of the staff fails in his duties he will be dropped from the Weekly and a man who will cooperate will be substituted.

In the future there will be no Freshmen doing work for the Weekly. First year men are not well enough acquainted with Muhlenberg nor Weekly work to give us the standard of work we demand. However, about the end of April of a Freshman's year there will be a call for first year men desiring to try out for either the business or editorial side of the paper. Understand we said "try out." A man must produce the goods before he will be considered eligible.

That is just one point to consider, but in any event the new staff pledges to the student body cooperation to the Nth degree.

### MUHLENBERG BOY ADDRESSES QUOTA CLUB

(Continued from Page One)

mittee, Mrs. Sue Smith chairman, would take the fourteen members of the Moser School Girls Club to the Hagenbeck-Wallace circus tonight.

Mr. Scheirer spoke at the meeting on "Mother's Day". He stated that Mother's Day is a time for rejoicing, rather than one of sadness as most people usually think it to be. Rather than remembering the maternal parent on one day each year, he impressed the fact that every day should be a mother's day, through kind deeds, words and actions. A favor, given by Mrs. Emily Reichard Meyer, in memory of her mother who passed away fifteen years ago, was awarded to Mrs. George A. Schmerker.

"Yassar, dat car of mine—she sho am fast. She cud trabble a mile a minute if it warn't fo' one thing."

"What's dat, brudder?"

"The distance am too long fo' de shortness ob de time."

### EDITOR'S SCRAP BOOK

Believe me our base ballers surely have had a tough time of it and all because of breaks for the opposing teams. We have bettered them in games but they usually nose us out by a measly run. But the season is not finished yet. Watch out Lafayette!

One of the girls at the Albright game said that one of the Albright boys hit a "home baser." Well stick around little girl and our boys will knock you lots of "home basers."

The schedule for examinations is in this issue of the Weekly and we have put it in such form that you can cut it out and use it to follow. Believe some of us need more than schedules!

We hope that the men of Muhlenberg read our new policy of Weekly work for the coming year because we intend to follow it exactly. Watch us!

All out for the student body dance. Let's make it a whoopee affair. Need I mention any more on that subject?

As a close we say good luck to the base ball team in its trips to Philadelphia this week. I hope to see the bacon when they come back!

### President's Message

To my fellow members of the student body:

Allow me to express my sincere appreciation to you at this time for the honor you have conferred upon me, that of President of the student body of Muhlenberg College.

You have placed me in an office of great trust and you can rely upon my word of honor that I shall to the best of my ability perform the duties of my office.

We are now on the home stretch of the present semester with the final exams in the offing. It is necessary for every loyal Muhlenbergian to put his shoulders to the wheel and come through with colors flying. Our return in the fall shows promise of being one of the finest years we have ever spent at Muhlenberg and we want every man in the classes of '30, '31, and '32 back with us to bring new glories to the Cardinal and Gray.

I shall ask for co-operation and support of every activity that concerns the student body of the college. The new Student Council recently elected under the new constitution must be obeyed and respected, as a student government is the most useless group in existence if it does not have the full support of the students at large. We must lend our financial support and encouragement to the Muhlenberg Band, and make it next year the best college band in the east. This applies to the members of that organization also as they must give their time and hearty co-operation to promote the best interests of the institution so that it will be on a par with the best of colleges. All student organizations that have for the past year been existing on the shoulders of a few of the interested need the united backing of the students of the various departments and I ask that we favor them with our support to the nth degree.

With these few suggestions in mind and hoping for the best year in Muhlenberg's history.

Sincerely,
Henry A. Wickstrom,
President of Student Body.

### THE GOOD NEWS AT LAST FOR BOOSTERS

(Continued from Page One)

will cost twenty thousand dollars and will be given by the Woman's Auxiliary of the College. The building will be one hundred and fifty feet long, fifty feet wide and sixty feet high. It will have a seating capacity of seven hundred. There will also be space for a choir and a clear story. It must be finished by the commencement of nineteen hundred and thirty-one.

**UNIVERSITY OF DELAWARE**

**In Honor of All Co-eds**

The gum-chewing girl
And the cud-chewing cow
Are somewhat alike,
Yet different somehow.
What difference?
Oh yes, I see it all now,
It's the thoughtful look
On the face of the cow.

**UNIVERSITY OF MINNESOTA**

Co-eds at the University of Minnesota spend more than $500 weekly on chewing gum, according to the campus store keepers.

**CENTRAL WESLEYAN COLLEGE**

Central Wesleyan College has turned the entire management of its inter-collegiate athletics over to the students. Their 1928-29 basketball team coached only by its captain, won ten games and lost three, placing third in the Missouri Union. Finances were handled by a board composed of four students and one faculty member.

**UNIVERSITY OF MIAMI**

At the University of Miami a unique method is used in the study of zoology. Students in this subject don bathing suits and diving helmets to descend to the bottom of the Atlantic Ocean for their study of aquatic life.

**KANSAS STATE**

The Sigma Alpha Epsilon fraternity of Kansas State has devised the simple little method of taking each and every rushee up in one of the brother's air planes. When they come down they are so dizzy that a pledge pin looks like a life saver.

**BRYN MAWR**

Bryn Mawr will hold the first dance in the history of the school before the presentation of the annual play. Six dollars is the total cost of play, supper, and dance for two. To add to the excitement, girls are to be allowed to cut in, and may attend without escort.

A motocar manufacturer had adopted the plan of naming his cars after flowers.

"I was thinking of calling my car the Crimson Rambler," he told a friend.

The friend, who had been out in the new car, replied unkindly:

"Why not call it the Virginia Creeper?"—Sh'ever Lay.

## FRATERNITY ROW

### ALPHA TAU OMEGA VISITED BY ITS FOUNDER

Te local chapter of Alpha Tau Omega was paid a visit by its founder, N. Wiley Thomas, on Friday, May third. Mr. Thomas brought with him a complete set of the works of Irving Bachellor, also a member of Alpha Tau Omega, as a gift to the chapter from the author.

### THETA UPSILON OMEGA

On Tuesday evening, May 7th, Ralph Dinger and Richard Thiede, Freshmen, and pledges of Theta U. received the first degree initiation, same procedure being the first of its kind conducted by the lately installed officers.

Mr. Dinger has won the third prize awarded by the Lehigh Order of Ahepa, for an essay on "Hellenic Contribution to Civilization," the 1st prize being awarded to a Lehigh Student, and the second and fourth to Moravian College entrees.

The new T. U. O. home now boasts of a firm foundation, and the looked for abode will be ready for occupancy by September 1. It is in line with the new library and proposed chapel in that it adds to the intrinsic value of Muhlenberg's general campus.

### SIGMA LAMBDA PI FETES ITS SENIORS

The local chapter of Sigma Lambdo Pi held its third annual banquet and theater party on Thursday, May 9. The fratres assembled at the Americus Hotel early in the evening where a sumptuous dinner was served, while everyone made merry in spite of the fact that the affair was in the nature of a farewell to the seniors. After the feast the group went to the Lyric to find out "What Anne Brought Home". Anne's actions proved most entertaining.

An Ausflug and dance on May 24 will bring the activities of the year to a close. Together with a large number from the University of Pennsylvania Chapter the members will gather at the Powder Valley home of "Rappy" Rappaport where tennis, boating, and swimming will be enjoyed in addition to the usual attractions of an Ausflug. In the evening an informal dance will be held at the Indian Lake House.

### PHI EPSILON HOLDS SPRING FORMAL

Emulating the practise of the other fraternities, Phi Epsilon held its Spring Formal at Ye Olde Country Club on Friday evening, May 3.

With the usual snappy dance music so characteristic of the London Criterions, the swaying couples, who mounted up to almost fifty in number, made a huge success of the affair.

What made the "frolic" doubly interesting was the fact that several Alumni returned to their "brothers" to bring back memories of their own college days. The chaperones chosen for the evening were Dr. and Mrs. Brandes and Mr. and Mrs. Waller.

### DER DEUTSCHE VEREIN PRESENTS PLAYS

(Continued from Page One)

tage of an opportunity to pawn his last coat. The painter returns the worse for wear. The scheme having failed, he sold his last coat. The musician returns and having failed to get food, also sells his last coat. They now have money, but cannot go out!

The landlord comes to collect his rents. Inadvertently he drops a letter addressed to Wagner. It contains an invitation to the three artists to come that very evening to the home of a famous patron of the arts. Seizing upon the fact that the landlord had kept the letter over a week without delivering it, they extort some money from him, and in shirt sleeves rush out to buy coats. They each secure a coat, but how, would be to anticipate the delightful denouement.

**Kaffeeklasch**

Frau Mueller acts as hostess to her friends. The curious Frau Schulze, arriving first, inspects everything while Frau Mueller is busy in the kitchen. After the two have gossiped a while, Frau Lehman arrives bursting with the news that her husband has been appointed "privy" treasurer. All three turn their tongues to discussing Frau Mudicke, who arrives shortly. She too has news. Her husband has been made a fourth class knight. Jealous of each other, Frau Lehman and Frau Mudicke, in gleeful felinity, then invites the others to her daughter's wedding on the next day. Frau Lehman returns, asking their pardon, and the four are reconciled. The play ends with a finale sung by all four.

## Who's Who on the Campus

**Anthony A. Pascal**

Above you see the smiling countenance of none other than Anthony "Tony" A. Pascal. Believe it or not it didn't take this New Jersey boy long to let 'em know who he was. Coming from Belleville, New Jersey, Tony decided that a philosophical course ending in a Ph.B. degree was the one for him to follow.

But "Tony" did not devote all his time to the knowledge part of college life, for he is also an athlete. In his Freshman year he showed great form both in football and baseball. Not being content with two major sports "Kid Jersey" also made the Frosh track squad!

After emergency from the yearling stage of collegiate life "Tony" became a member of the varsity basketball squad as well as star quarterback on the football team. "Tony" dropped track at this time and devoted his time to baseball, football and basketball.

In his senior year due to injuries to his lower extremities he was forced to lay low during football season, but is now blossoming out into a star shortstop on the present baseball club.

"Tony" has captured the coveted position having been chosen by the Playground and Recreation Association of America to attend the National Recreation School in New York City next autumn. He was one of the fifty chosen from men and women seniors in American colleges to attend this school.

"Tony's" aspirations are pedogogical and athletic. In the future he hopes to coach and teach.

Fraternally, Delta Theta claims him as a most worthy brother.

## *Who's Who on the Campus*

**Eldred Kermit Stauffer**

When this fair-haired, unassuming native of Ringtown, Penna., came to register in the A.B. course, it was not long until his class-mates discovreed that he was a fine fellow. Although Ringtown is just a small place in the Appalachian hills, his origin didn't hold him back for one minute. It seems rather to have pushed him ahead.

He has been a moving spirit in several of the organizations here. The fact that he has been a member of the German club for the last three years, and a member of the Classical club for the last two years—he was honored with the position of secretary-treasurer of the latter organization during his last year here—is indicative at the same time of his scholastic abilities, and of his social qualities.

He was elected to the student council by the non-fraternity group for his Junior year, and fulfiled his duties so admirably, that he was re-elected to the office. In his Junior year he was also a member of the Ciarla staff, and did a great deal to help to make it the success it was.

Some day you may hear his name mentioned in connection with a great missionary enterprise in some unenlightened country, or in the slums of the United States—but in whatever connection you will read his name, it will be in some branch of religious work. He is preparing for the ministry; if all ministerial students of today were of his calibre, America would have little to fear for the future of its pulpit, and America would not need to worry as much about its great social problems of today.

His classmates and other friends at Muhlenberg know that he will make use of every opportunity which presents itself to him, and wish him all the opportunities in the world.

### STUDENT BODY HOLDS MEETING TO ELECT OFFICERS

(Continued from Page One)

manager. Under the new constitution, the faculty advisor will aid the editor-in-chief in selecting four men that have worked on the staff in the sophomore class to be the junior assistants next year. In the same manner the assistant business managers will be selected by the new managers.

The offices of the Muhlenberg Christian Association cabinet that were elected are Stanley V. Printz, of Allentown, president; Henry G. Aschbach of Allentown, vice president; Earle Winters, of Allendale, N. J., secretary; and M. W. P. Schneck, of Allentown, treasurer.

Two representatives from the present sophomore class were elected to the Athletic Association. They are Henry Ulrich of Jenkintown and Donald Ramsay of Reading.

As representatives of Muhlenberg in the Intercollegiate Oratorical Union: James Lanshe of Allentown was elected as senior member and Leroy Snyder, of Reading, as junior member.

John E. Kimble, president of the student body during the past year, appointed a committee consisting of seniors to make plans for the student body dance to be held May 27th, and for which money was appropriated at a previous meeting.

### HISTORY CLUB HOLDS FINAL MEETING

#### Plans Laid For Coming Year

The final May meeting of the History club was held last week at the home of Doctor and Mrs. Mueller. The evening's discussion was centered about the excellent report on H. M. Beard's popular book, "Whither Mankind," submitted by Stanley Printz.

At the same meeting the club elections were held, Stanley Printz being president, Russel Dougherty vice president, and Francis Gendal, treasurer. Plans for the coming school year were made. It was decided to hold the meetings as before with a banquet at the beginning of the second semester at which would be present some well known lecturer to address the club.

Those present were: Doctor and Mrs. Mueller, Professor and Mrs. Jackson, and the members of the club.

### MUHLENBERG MAN HONORED AT NORTH EAST HIGH

Competing against secondary school newspapers from all over the United States, "The Megaphone," published every two weeks by students of Northeast High School, won first prize in a contest conducted by Columbia University.

Announcement of the winner was made at the Columbia Press Association Convention, held this week in New York. Officials explained that papers were judged, not upon one issue, but on the character of the publications throughout the year.

Harold Landow is editor-in-chief of "The Megaphone"; Robert J. Williams, managing editor; Michael Lichstein, news editor; Richard H. Filbert, business manager, and Woodrow Wilson, advertising manager. Most of the staff members are juniors. Isadore Lichstein, a senior, is student advisor and the faculty advisors are Luther F. Waidelich and Vincent B. Brecht. — Philadelphia Bulletin.

What makes the above mentioned news item of interest to us at Muhlenberg is the fact that one of the Faculty Advisors for "The Megaphone" is Luther F. Waidelich, of the class of '12, who is the son of Rev. J. F. Waidelich, D.D., of '86, and teaches History in the Northeast High School of Philadelphia.

### TIME FAST APPROACHES TO COMMENCEMENT

(Continued from Page One)

the President, Library Building. Class Reunions.

Wednesday, May 29, 10:00 a. m., Commencement Exercises, Allentown High School Auditorium.

The hours above mentioned are daylight saving time.

**Saturday**, May 18th—
**Monday**, May 20th—Senior Class Banquet.
**Monday**, May 20th—Exams.
**Tuesday**, May 21st—
**Wednesday**, May 22nd—Student Body Dance.

"Chesterfield preferred!"

The *story is told* that a certain man once importuned a famous financier for a loan involving a considerable amount of money. "I cannot give you the cash," the magnate is said to have replied, "but I'll let you walk arm in arm with me across the floor of the Stock Exchange."

Pardon our enthusiasm, but it's a good deal like that with a man and his cigarette. To be seen smoking a Chesterfield, for example, is to be marked as a gentleman, a scholar, and a judge of good tobacco!

Kentucky Colonel or swashbuckling corporal in the Royal Mounted—Wall Street magnate or dashing cowman of Cheyenne—a Chesterfield smoker is entitled to respect (and yes, even credit!) from his fellows.

Go where you will, you'll find Chesterfield everywhere admitted to the inner circle of those in the know. Such endorsement was *earned*—by good *tobacco* and *taste*—with six million voting.
